McGregor, Director R. Cacchioni, Director S. Morissette, Director R. Russell, Director L. Worley, Director V. Gee, Director G. Shaw and Director A. Morel

Carried.

6.b) Board Discussion

Re: First Nations/Indigenous Peoples Acknowledgement

At the November 28, 2019 Board meeting the following acknowledgement was used: *We acknowledge and appreciate that the land on which we gather once again, is the traditional territory of the Ktunaxa, Syilx, Secwepenc, and Sinixt peoples.*

Some Directors have requested that this matter be discussed further and have suggested more of a generic script such as the script used for the December 11th meeting: *We acknowledge, respect and honour the Indigenous Peoples in whose traditional territories we operate and all Indigenous Peoples residing in this area.*

The Board had a discussion regarding the acknowledgement script that should be used and how to recognize the Metis Peoples and include "converging ancestral, traditional, and unceded territories" of the individual Bands. The RDKB should also seek permission from the various First Nations groups. It was agreed that more work needs to be done and that this matter should be referred back to staff to undertake research for the creation of a draft acknowledgement that would include the points made during this discussion.

After further discussion it was;

Moved: Director Grieve Seconded: Director Gee

Corporate Vote Unweighted

That the development of an appropriate protocol for the recognition of First Nations, as discussed by the Board at the December 11, 2019 meeting be referred back to staff to prepare a draft acknowledgement script for a future meeting.

Carried.

Page 3 of 11 RDKB Board of Directors December 11, 2019

12.a) D. Derby, Regional Fire Chief

Re: Draft 9-1-1 Emergency Communications 2020 Work Plan

The Draft 9-1-1 Emergency Communications Service (015) 2020 Work Plan was presented.

There was a discussion regarding radio gaps and the lack of cellular coverage in some areas. It was agreed to refer this matter to the January 2020 Education and Advocacy Committee meeting for the development of an AKBLG/UBCM resolution lobbying for better cell coverage.

Staff will follow up on this matter and present information, including scenarios and challenges, to the Board in January 2020.

593-19 Moved: Director Worley Seconded: Director McGregor

Corporate Vote Unweighted

That the Draft 2020 9-1-1 Emergency Communications Service (015) Work Plan be referred to the January 15, 2020 Board meeting for adoption.

Carried.

12.b) C. Cormack, Fire Chief, Big White Ski Resort Re: Mutual Aid Agreement

A staff report from Chris Cormack, Fire Chief, Big White Fire Department presenting a draft Mutual Aid Agreement with the Regional District of Central Okanagan Joe Rich Fire Department was discussed.

594-19 Moved: Director McGregor Seconded: Director Morissette

Page 6 of 11 RDKB Board of Directors December 11, 2019

Corporate Vote Weighted

That the Regional District of Kootenay Boundary Board of Directors approve the Mutual Aid Fire Protection Agreement between the Regional District of Kootenay Boundary Big White Fire Department and the Regional District of Central Okanagan Joe Rich Fire Department for a term of five (5) years commencing on the date of execution and expiring on September 30, 2024 and at no charge for services rendered under the Agreement between the parties. **FURTHER** that the Board authorize the RDKB signatories to sign and enter into the Agreement.

Carried.

12.c) D. Dean, Manager of Planning and Development Re: Rural Development Institute (RDI) - Local Government Economic Development Research and Capacity Building Program

A report presenting a list of potential projects and research initiatives that the RDKB and RDI can collaborate on with \$60,000 in research funding and \$50,000 supporting a 15-month internship that are available was reviewed and discussed.

595-19 Moved: Director Worley Seconded: Director Morel

Corporate Vote Unweighted

That the Regional District of Kootenay Boundary Board of Directors supports the research objectives as presented in the December 11, 2019 staff report; **FURTHER** directs staff to prepare a work plan for an intern and add funds to the Planning and Development Department's Draft 5-year financial plan to cover the additional costs associated with hosting the intern; **FURTHER** directs staff to work with the Rural Development Institute to determine how best to implement the research that would not be conducted by the student intern.

Carried.

12.d) D. Dean, Manager of Planning and Development Re: Request for Resolution to Seek Grant Opportunity - UBCM Community Emergency Preparedness Fund

A staff report from Donna Dean, Manager of Planning and Development, regarding an opportunity to apply for the UBCM Community Emergency Preparedness Fund Grant for flood risk assessment and flood mapping was presented.

596-19

Moved: Director McGregor Seconded: Director Russell

Corporate Vote Unweighted

That the Regional District of Kootenay Boundary Board of Directors directs staff to prepare and submit an application for the UBCM Community Emergency Preparedness

Page 7 of 11 RDKB Board of Directors December 11, 2019 Fund for the proposed projects described in the staff report "Request for Resolution to Seek Grant Opportunity - UBCM Community Emergency Preparedness Fund" prepared for the December 11, 2019 Board of Directors' Meeting. **FURTHER** that if the grant application is successful, that staff award the contract for all works necessary to complete the project, with the contract value not to exceed \$150,000.

Carried.

597-19 Moved: Director McGregor Seconded: Director Russell

Corporate Vote Unweighted

That once staff has drafted the UBCM Community Preparedness Fund application, and before it is submitted, that it be referred back to the RDKB Board of Directors for information in January 2020.

Carried.

12.e) West Boundary Recreation Re: Grant Application - Community Consultative Group

598-19 Moved: Director Shaw Seconded: Director Dunsdon

Stakeholder Vote (Electoral Area E/West Boundary, Greenwood and Midway)

That the Regional District of Kootenay Boundary Board of Directors approve the application for a West Boundary Recreation Grant from the Community Consultative Group, for \$500 to cover expenses and a portion of food and prizes for a skating party.

Page 8 of 11 RDKB Board of Directors December 11, 2019 RDKB Trail Office. **FURTHER** that the 2019-2023 Financial Plan Bylaw No. 1715 be amended accordingly.

Carried.

12.g) G. Denkovski, Manager of Infrastructure and Sustainability Re: Application for Gas Tax Funding- Casino Waterworks District -Electoral Area 'B'/Lower Columbia - Old Glory

An application for the disbursement of Electoral Area 'B'/Lower Columbia - Old Glory Gas Tax funds to the Casino Waterworks District was presented.

600-19 Moved: Director Worley Seconded: Director Walsh

Corporate Vote Weighted

That the Regional District of Kootenay Boundary Board of Directors approves the Gas Tax application submitted by the Casino Waterworks District and the allocation of Gas Tax funding in the amount of \$70,000.00 from Electoral Area 'B'/Lower Columbia - Old Glory for the costs associated with upgrades to the water system. **FURTHER** that the Board approves the RDKB signatories to sign and enter into the Agreement.

Carried.

12.h) G. Denkovski, Manager of Infrastructure and Sustainability Re: Application for Gas Tax Funding- Silver City Trap Club - Electoral Area 'B'/Lower Columbia - Old Glory

An application for the disbursement of Electoral Area 'B'/Lower Columbia - Old Glory Gas Tax funds to the Silver City Trap Club was presented.

601-19 Moved: Director Worley Seconded: Director Walsh

Corporate Vote Weighted

That the Regional District of Kootenay Boundary Board of Directors approves the Gas Tax application submitted by the Silver City Trap Club and the allocation of Gas Tax funding in the amount of \$24,900.00 from Electoral Area 'B'/Lower Columbia - Old Glory for the costs associated with developing wheel chair access. **FURTHER** that the Board approves the RDKB signatories to sign and enter into the Agreement.

Carried.

Director Worley left the meeting at 5:31 p.m.

Page 9 of 11 RDKB Board of Directors December 11, 2019

12.a) Grants in Aid - as of December 5, 2019

602-19 Moved: Director Grieve Seconded: Director McGregor

Stakeholder Vote (Electoral Area Directors) Weighted

That the following grants-in-aid be approved:

- 1. Granby Art Collective/Boundary Hospital Photobook of Artwork and Poetry for Mental Health Clients – Electoral Area 'D'/Rural Grand Forks - \$300
- Kettle River Food Share Society Rock Creek Food Share Exchange Program -Electoral Area 'E'/West Boundary - \$6,000
- 3. King of Kings New Testament Church/The Bridge Drop-in-Center Meals/West Boundary – Electoral Area 'E'/West Boundary - \$500
- 4. King of Kings New Testament Church/Greenwood Food Bank Food Program Electoral Area 'E'/West Boundary - \$500

Carried.

13. Bylaws

13.a) There were no Bylaws to consider.

14. Late (Emergent) Items

14.a) There were no late emergent items to consider.

15. Discussion of Items for Future Meetings

15.a) A discussion was not necessary.

16. Question Period for Public and Media

16.a) A question period was not required.

17. <u>Closed Meeting</u>

17.a) Proceed to closed meeting pursuant to Section 90 (1)(c), (e) and (g) of the *Community Charter.*

Page 10 of 11 RDKB Board of Directors December 11, 2019 603-19 Moved: Director Grieve Seconded: Director McGregor

Corporate Vote Unweighted

That the Regional District of Kootenay Boundary Board of Directors proceed to a closed meeting pursuant to Section 90 (1)(c), (e) and (g) of the *Community Charter* (time: 5:32 p.m.).

Carried.

The RDKB Board of Directors reconvened to the open meeting at 5:51 p.m.

18. Items for Release to the Open Meeting

18.a) The following recommendation was adopted in a closed meeting held on November 28, 2019 and a motion to release it to the open meeting was adopted by the RDKB Board of Directors on December 11, 2019:

Corporate Vote Unweighted

That the Regional District of Kootenay Boundary Board of Directors receive the verbal report from Ryan Williams, Tekara Group Organizational Effectiveness, regarding the 2019 CAO Performance Review as presented to the Board via teleconference on November 28, 2019.

18.b) The following recommendation was adopted in a closed meeting held on December 11, 2019 where a motion to release it to the open meeting was adopted by the RDKB Board of Directors:

Corporate Vote Unweighted

That the written RDKB Chief Administrative Officer Performance Review Summary Report for Member Municipal Councils, as presented to the RDKB Board of Directors in a closed meeting held on December 11, 2019, be released to the RDKB Member Municipal Councils for review in a closed council meeting.

19.a) There being no further business to discuss the meeting was adjourned (time: 5:52 p.m.).

Page 11 of 11 RDKB Board of Directors December 11, 2019

Modernizing BC's Emergency Management Legislation Regional District of Kootenay Boundary January 15, 2020

Current Emergency Program Act

- Dates from 1993
- Focuses on: preparing and implementing plans; states of emergency; the role of the Province and Local Authorities
- Supported by three regulations

2016 EPA Proposals

Discussion paper released January 2016

- UBCM response October 2016
- Key issues raised by Local Governments:
 - Capacity challenges for some LGs
 - Maintain current level of LG authority
 - Recognize LG expertise and experience
- Will help inform current modernization initiative

3

Driving Modernization: Addressing Challenges

- Increasing complexity, frequency and severity of disasters (floods, wildfires)
- Impacts of disasters (economic, psycho-social, fiscal)
- Implement Sendai Framework

- Indigenous communities disproportionately impacted
- Needs of vulnerable people not always sufficiently considered
- Address gaps surfaced by events in 2017 and 2018

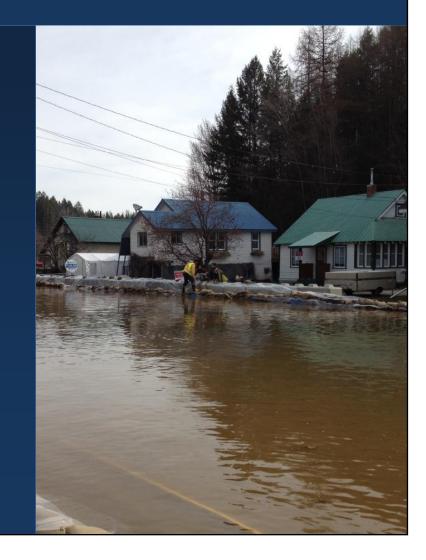

2019 Engagement with UBCM: Flood and Wildfire Advisory Committee

- Expanded membership and mandate
- Eight meetings, June November 2019
- Identifying issues, testing concepts

Ongoing Engagement

- Flood and Wildfire AC continuing
- Response(s) to Discussion Paper
- Area Associations, Regional Districts, regional collaborations
- EPBC Conference and EPCs

5

Page

27

of 524

Key Gaps in Current Emergency Management Legislation (1/2)

- No explicit requirements to assess and mitigate disaster risk (UN Sendai Framework)
- Lack of recovery planning and tools prolongs recovery and does not support resilience
- Integration between plans
- No requirements to provide event-related information

Page

28 of 524

Key Gaps in Current Legislation (2/2)

- First Nations are not yet adequately recognized as partners
- No assurance that cohesive plans and strategies are in place for critical infrastructure
- Current system does not represent an all-ofsociety approach

Proposed Changes: Key Definitions

- Full list in discussion paper
- Expanded definition of "emergency"
- Prescribe new Local Authorities through regulation
- New definitions for four pillars:
 - Mitigation
 - Preparedness
 - Response
 - Recovery

8

Policy Shifts To Guide Modernization (1/2)

Obligations to Address All Four Emergency Management Pillars

Improved Tools for Response and Recovery

Recognizing First Nations as Emergency Management Partners

Stronger Recognition of Key Role of Critical Infrastructure

Policy Shifts To Guide Modernization (2/2)

Requirements for Coordination, Collaboration, and Provision of Information Between Partners

>

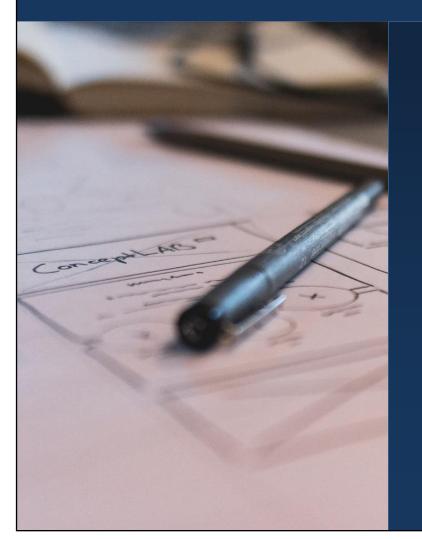

Build Confidence in the Emergency Management System

Greater Recognition and Protection for Volunteers

Attachment # 5.5.a)

Recap: Local Authority Planning and Powers

- Emergency and business continuity planning
- Exercises
- Hazard and risk identification
- Land development and building decisions
- Recovery powers
- Coordination and regional approaches
- Requirement for Local Authorities to consult with First Nations

Financial Considerations

- Resourcing and capacity implications
- Phase-in of requirements
- Scaled investments
- Responsive, flexible and disciplined funding mechanism
- Visibility and coordination of mitigation funding
- Apply disaster risk reduction and adaptation lens to capital investment decisions
- Federal funding and partnership

Next Steps

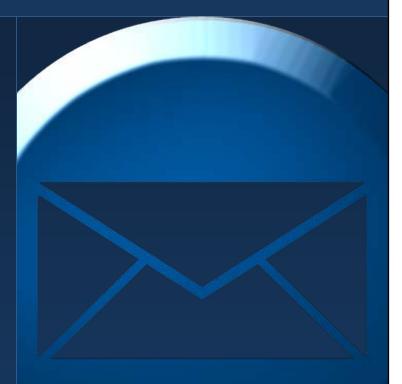

- Oct. 28, 2019
 Discussion paper released October 28, 2019
- Engage with all levels of government, Indigenous Nations, industry and the public
- January 31, 2020
 Comment period ends

- Spring 2020
 "What We Heard" report released
- Fall 2020
 Legislation introduced
- Spring 2021
 Regulations, policy, guidelines, templates, tools and education
- Spring 2021
 Act in force. Phased implementation

Submitting Feedback

- GovTogetherBC hosting the engagement process:
- <u>https://engage.gov.bc.ca/govtogetherbc/consul</u> <u>tation/emergency-program-act-modernization</u>
- Includes the discussion paper, engagement dates and a link to submit feedback.
- All feedback will be considered by EMBC in drafting new legislation and regulations.
- Email <u>EmergencyProgramAct@gov.bc.ca</u> if you have questions about content or process.

Staff Report

Date: 09 Jan 2020

File:

To: Chair Langman and Board of Directors

From: Mark Stephens, Interim Manager of Emergency Programs

Re: Emergency Act Modernization Discussion Paper Feedback

Issue Introduction

On October 28th 2019 the Province of BC release a discussion paper on proposed changes to the Emergency Act and requested comments be submitted by January 31st, 2020. What follows is our comments for your consideration.

History/Background Factors

The current Emergency Program Act (EPA) was introduce in 1993 and was based off of the Canada War Measures Act from 1914. The EPA remained largely unchanged while the world around it progressed forward and is now starting to adjust to climate change. The process of modernization started in 2016, however these efforts were abandoned until 2019 when they were restarted.

The Provincial Government started the Emergency Program Act modernization process in January of 2019 with initial engagement that culminated in the release of the discussion paper on October 28, 2019. This also started the comment period that closes on January 31, 2020. Once the comment period closes the province will issue a "what we heard" report in early Spring of 2020, legislation will then be introduced in the Fall of 2020 with the goal of having the legislation receive Royal Assent in the Spring of 2021 in time for the freshet season.

The RDKB Emergency Management (EM) Program embarked on a collaborative and holistic approach in responding to the Province on the discussion paper. EM program staff met with Emergency Program Managers from across the Southeast of BC. The goal of the meeting was to review the discussion paper together and share areas of concern, achievement and provide everyone with a summary of items discussed. There was a large degree of commonality between comments and concerns. Every one of the five organizations represented agreed that the implications of the proposed changes is the requirement for more staff and more funding to complete the additional work load brought on by the proposed changes.

Implications

After reviewing the proposed changes in the discussion paper there are a number of questions that still remain. However the one thing that is known is that if these changes are to be implemented there will be a direct financial impact to the RDKB because of the additional staff time that will be needed. EM program staff estimate that the proposals represent a need for an additional 3.0 FTE above the current 1.0 FTE level. Estimating the cost of this based on the 2020 budget the yearly financial implications are estimated at an increase of \$334,500 per year. This does not include the extra operational costs for First Nation and community consultations, printing of plans, or driving costs. The implementation of the items within the legislation has not been made public however indications from Government staff is that it will be phased in over a number of years.

Advancement of Strategic Planning Goals

This project will advance the Board's strategic priorities regarding:

- Environmental stewardship and climate preparedness,
- Exceptional cost effective and efficient services, and
- Improve and enhance communications.

Background Information Provided

EM modernization discussion paper

RDKB Emergency Act Modernization Response

Alternatives

That the Regional District of Kootenay Boundary Board of Directors direct staff for more information and amendments.

Recommendation(s)

That the Regional District of Kootenay Boundary Board of Directors authorize staff to submit the RDKB Emergency Act Modernization Response letter, as presented to the Board on January 15, 2020 to the Province of British Columbia.

Emergency Act Modernization Response

The Regional District of Kootenay Boundary (the RDKB) is appreciative of the opportunity to review and provide feedback on the discussion paper titled "Modernizing BC's Emergency Management Legislation" (the Paper). The RDKB is supportive of the modernization of the Emergency Program Act and of the Paper overall. There are some areas that we wish to provide specific comment on and these are listed below. The RDKB would like to acknowledge the adoption of the Sendai Framework that outlines the State as the lead agency in the role of risk reduction and response to the emergency. The RDKB acknowledges the role of Local Authorities to assist in the all-of-society approach to risk reduction.

It is important that going forward into the development of the associated regulations that local government, as the authorities responsible for delivering a large portion of emergency management in BC, are involved in the process rather than simply being informed or consulted. We understand the comments received from this current consultation period will be compiled into a "What We Heard" report slated for completion in the spring of 2020, followed by the introduction of the legislation in the fall of 2020. The RDKB requests that an additional step be added to the process providing Local Authorities an opportunity to review a draft version of the legislation prior to the legislation being introduced in the fall of 2020.

The following represents the section of the Paper the RDKB wishes to comment on.

Quality Assurance (Page 22)

The RDKB agrees with the principle of quality assurance, however, we object to the use of the word "audit". The term audit implies one sided investigation by the province looking for wrong doing and then taking punitive actions and quality assurance implies working together collaboratively to create more robust emergency plans. The RDKB would also like to see details of the qualifications of the individuals performing the quality assurance reviews. As well, we have concerns with the proposal to publish the results to the public. We feel that this could lead to litigation if, for example, a review was conducted within a year of a large event and the review found deficiencies. If these deficiencies were made public, litigation would most certainly follow from community members.

Transparency (Page 22)

More clarity is required when talking about Transparency and the central storage of plans. Is the intent to make these plans public? The RDKB has some concerns with emergency plans being made public. For example, if an emergency plan is made public, someone could read the plan and see the locations of reception centres. During the next emergency they go straight to this reception centre location whether or not that location has been activated. If an HRVA identifies risks with heavy industry within a community, and someone reads the HRVA and misinterprets this risk, causing them to back out the purchase of a house or business, does this open the local authority or industry in question to litigation?

The RDKB is also concerned with the long-term data security of the documents. Where will they be stored, what level of security will be used to protect the plans?

Ministry Hazard Responsibilities (Page 23)

The RDKB is supportive of the clarity that listing ministries and their responsibilities provided to local authorities. We have two recommendations regarding this list. Under the Atmosphere section, heat waves should be the responsibility of the Ministry of Health as this is a public health risk. In the RDKB, the Interior Health Authority has taken a lead role in creating awareness and educating local authorities.

Under the Atmospheric section, Hurricanes is the incorrect atmospheric event as Hurricanes by definition are only located in the Atlantic Ocean. The correct term to be using in the regard is Typhoon, which is the term for this type of weather event in the Pacific Northwest.

Building & Development (Page 27)

The RDKB feels that the proposal in Building and Development needs some improvement. We question why the Ministry of Transportation and Infrastructure (MOTI) is the approving authority for subdivisions when the Local Authority is responsible for responding to events that affect these properties. Even if a Local Government were to turn down an application, the MOTI could still approve the application. The RDKB would also like to see clear requirements for professional engineers who are providing reports to property owners in the hopes of receiving a development permit, only to be affected by a flood or land subsidence years later and then place blame on the Local Authority or worse, start litigation. Generally speaking, the RDKB agrees that there must be greater consideration and a coordinated review of risk in granting development approvals.

Standardized Programs & Plans (Page 28)

The RDKB requires more details around the proposal to "standardize programs & plans" - does the Province intend to release a best practice document, suggestions documents, or templates? If a Local Authority chooses to not use these items because they do not work for their area, we hope that this does not reflect negatively in a quality assurance review.

Hazard & Risk Identification (Page 28)

The RDKB supports mitigation plans and planning, however we have some key questions that need to be addressed. Creating a mitigation plan is a large undertaking that will require dedicated staff time and standardized data and maps, both of which are not addressed in the discussion paper. The RDKB hopes that the requirement for mitigation planning will come with long term sustainable funding to support this planning. Mitigation plans – particularly those that are public – also create expectations that known hazards will be addressed in short order. This creates difficult situations for small local governments, who often do not have the resources, funding or governance structure and mandate to tackle large projects within their regions.

First Nations Consultation (Page 29)

The RDKB supports the First Nation consultation, however we request some clarity to what extent do we engage Nations that don't have formal communities in our jurisdiction. How long is the engagement window? What if the First Nation does not respond? What is reasonable consultation? How will this be reflected in the quality assurance review? Additional guidance would be helpful in this regard.

Continued use of the SOLE (Page 20 & 30)

The RDKB fully supports the longer renewal periods for SOLEs. 90 days will reduce the amount of staff and elected officials time along with the number of files that need to be cataloged for long term storage. The RDKB needs more details around the "transition period" and "requesting specific powers". For example: how would this work with an evolving situation? How easy or difficult would it be to add additional powers after the initial request? If we look at this proposal with our experience from the 2018 Boundary freshet recovery, we would not have requested the power to demolish a house, however, we needed to undertake demolitions a year and half after the event.

The RDKB needs more clarity about the public reporting of use of transition powers. What is the intent of this, will there be requirements for how this is done? This can be a sensitive issue in community as they are already dealing with the affects of an emergency.

Recovery Plan Incentives (Page 30)

More clarity is required around this proposed change. The RDKB is concerned that requiring a Recovery Plan to receive recovery funds could hold up recovery funding and therefore recovery. This may require plans to be generated ahead of time as an all-hazard plan or for the Local Authority to use templates that may not fit. We also feel that aspects of short-term recovery should not be affected by requirements to complete needs assessments and or Recovery Planning. While it stands to reason that a recovery plan would be required for longer term objectives in recovery, there should be no delay for recovery initiatives undertaken either while the local authority is still in the response phase (as recovery should start immediately) or immediately after the response phase to encourage quick recovery wins

Cross-Sector Approach (Page 35)

A Cross-Sector approach to Emergency Management is strongly supported by the RDKB. Transparency and meaningful communication between industrial producers, critical infrastructure and the Local Authorities within our jurisdiction is paramount to having an effective response in the event of an emergency that stem from their operations. Communication about activities like training schedules must be shared to allow for participants to plan for the actives in their respective work plans.

Volunteer Management (Page 42)

Mandating that convergent volunteers be supervised by the local authorities can place added pressures on the EOC and may also cause an additional emergency when a large number of volunteers show up to help. We feel this should not be prescriptive, as EOCs may not have the staff to undertake this task. Local volunteers, when registered with the Province, should not become a provincial resource to be deployed as determined by the province.

Supporting & empowering citizens, visitors & business (Page 43)

The RDKB strongly supports the personal preparedness message. We would like to see strong wording within the new legislation in the area of personal preparedness for citizens and business continuity language for the business community.

Resourcing (Page 44)

The RDKB sees value in the proposals that are in the discussion paper and we see that if these are to be implemented they will require considerable resourcing. The RDKB is hopeful that the Province recognizes this and will provide a sustainable funding solution that is not centered on grants, but rather on long-term funding models. Our experience with grants, is that they create additional workload for the local government to receive and manage the funding, as well as overseeing projects completed by contractors.

Response Worker Care

The RDKB would like to raise the issue of Worker Care as it relates to mental health as it is not addressed in the Paper. We feel strongly that this needs to be addressed. This could be done by adding a fifth pillar in Recovery for worker care. EOC responders should be represented as a separate group from first responders in the BCEMS as they are presented with different challenges.

Build Back Better

The RDKB fully supports the notion of "Build Back Better" however this needs to be accompanied by funding. It is our experience that this is often not the case and some projects have to be modified or canceled as there is no funding mandate to "Build Back Better". An example of this is the requirement to remove all emergency works that are installed during an event ie. dyke. If these works were allowed to stay in place after an event then this would build preparedness and resilience.

MODERNIZING BC'S EMERGENCY MANAGEMENT LEGISLATION

This page intentionally left blank.

Minister's Message

When our government came into office, the province was in a provincial state of emergency. That time is still very vivid for me because of how widespread the impacts were. 2017 and 2018 were two of the worst flood and wildfire seasons this province has ever seen. Tens of thousands of people were evacuated from their homes. Cities, towns and villages were affected in every corner of the province. Transportation routes were shut down, and some communities were cut off completely, with remote and First Nations communities disproportionally affected by these events.

Business as usual just isn't enough anymore. We need to do more than just learn from these experiences – we must use them to drive real change in the way we manage emergencies. We're taking the lessons learned from the Abbott-Chapman Report, the report by the Tsilhqot'in National Government on the 2017 wildfires, and numerous after-action reports and bringing them into the way we do business.

The Government of Canada has embraced the United Nations' Sendai framework, which is an internationally-acknowledged approach to emergency management disaster risk reduction. British Columbia is the first province to officially adopt the Framework, and our way forward will reflect these international best practices. We're developing new relationships with indigenous communities as emergency management partners, and we're finding ways to better support and provide protections to the thousands of volunteers BC's emergency system relies on every year for things like ground search and rescue, emergency support services, and evacuation centres. Many community partners – such as Prince George, Kamloops and Tk'emlúps First Nation – have worked hard to support evacuees from around the province during times of crisis.

All these critical shifts are reflected as we work to bring the Emergency Program Act in line with today's changing needs and realities. As BC's primary piece of legislation for emergency management, this act is the backbone of what we do, and it needs to be updated to reflect what we know, what we've learned, and how we must work together going forward.

Through this discussion paper, we hope to hear diverse views and get insights from all levels of government, Indigenous communities, partners and stakeholders. We want to know your views on how to modernize our emergency management approach to help mitigate risk, ensure we are better prepared, and strengthen our response efforts to more effectively recover from the psycho-social, financial and economic impacts of disasters.

The feedback will help government move forward with a clear legislative direction – one that reflects the challenges, needs and thoughts of communities, partners and stakeholders – when a modernized act is introduced in the fall 2020 legislative session.

Our government recognizes that the environment is changing in ways that will challenge all of us, and we're working towards a goal of a more resilient province. While many changes have already been made we also need the best legislative foundation to build on. I hope you take the time to provide your thoughts, input and suggestions into this legislative change, so we can move forward together to protect our communities.

Mike

Honourable Mike Farnworth Minister of Public Safety and Solicitor General

At a Glance: What will Change with Emergency Management Modernization?

What Will Change with Emergency Management Modernization? A1

Introduction

British Columbia's *Emergency Program Act (EPA)*, which was passed in 1993, has its roots in Canada's *War Measures Act*, particularly the declaration of states of emergency and the powers available to the provincial government and Local Authorities through those declarations. The EPA has guided the province through events such as the Kelowna interface fires in 2003, the Johnson's Landing landslide in 2012, and the Grand Forks flooding in 2018.

However, several factors are driving the need to modernize our approach to emergency management:

 \rightarrow

- BC's geography, geology and climate present diverse and complex hazards such as earthquakes, wildfires, flooding, and severe weather events (e.g., ice, snow and windstorms);
- Driven by climate change, natural disasters are increasing in frequency and severity, making it imperative for governments, businesses, non-profit organizations, citizens and visitors to be prepared and ready;
- Emergencies have devastating impacts often long-lasting – on citizens, visitors, communities, businesses, and critical infrastructure. During the 2017 wildfires, over 65,000 people were evacuated and over 200 homes were lost;
- Responding to and recovering from these events takes a financial toll on governments, businesses, and individuals. From 2009 to 2018, the BC provincial government spent over \$3.3 billion under the EPA and the *Wildfire Act*. \$1.6 billion of this was spent on flood and wildfire response and recovery in 2017 and 2018 alone;

- Indigenous communities are often disproportionately impacted by emergencies, due to their relatively remote locations, lack of access to services, and reliance on natural ecosystems;
- The needs of our most vulnerable citizens are not always sufficiently considered; and
- The recent unprecedented flood and wildfire seasons surfaced a number of gaps in the current legislation; applying the lessons learned from those events will ensure that BC continues to be resilient in the face of disasters and remains a recognized leader in emergency management.

2003: The Okanagan Mountain Park wildfire in Kelowna burned over 25,900 hectares and over 33,000 people were forced to evacuate.

2012: A landslide severely impacted the community of Johnsons Landing, causing four deaths and completely destroying four homes.

2018: Severe flooding occured in and around the city of Grand Forks, damaging more than 400 homes and 100 businesses.

Modernizing BC's Emergency Management Legislation

Adopting the Sendai Framework

While the EPA itself hasn't changed significantly since 1993, BC's approach to emergency management has evolved. Practices, policies and processes have been strengthened in response to after-action reviews and more substantial reviews such as the 2014 Renteria Report on Earthquake Preparedness, the Auditor General's 2018 report on Managing Climate Change Risks, the Abbott-Chapman report on the 2017 wildfire and flood season, the Tsilhgot'in National Government report The Fires Awakened Us, and the Nadleh Whut'en report Trial by Fire. Local Authorities and First Nations have entered into a number of innovative and collaborative arrangements to plan, prepare for, and respond to emergencies. Provincial agencies such as Emergency Management BC (EMBC) and the BC Wildfire Service have improved their communications protocols and adopted a more inclusive approach, including respect for Indigenous knowledge and culture.

In Canada, provincial and territorial governments have primary responsibility for emergency management. In an emergency, the first response is almost always by the Local Authority or at the provincial or territorial level because most emergencies occur at a local or regional scale. If a provincial or territorial government requires resources beyond its capacity, the federal government will provide assistance. Canada is responsible for reserve lands, and this responsibility is delegated to the Minister of Indigenous Services. Indigenous Services Canada supports emergency mitigation, preparedness, response and recovery on-reserve, and has a service agreement with Emergency Management BC to ensure that First Nations have access to the provincial emergency management system.

But with increasing pressure on emergency management organizations, businesses and individual citizens, it is time to take a serious

look at our approach. In 2015, in response to the challenges faced by jurisdictions around the world, the United Nations developed the Sendai Framework for Disaster Risk Reduction (Sendai Framework). The Sendai Framework has been adopted by 187 countries, including Canada. In October 2018, BC became the first province to adopt it. The Sendai Framework marks a shift from focusing on emergency preparedness and response to recognizing that risk identification and mitigation are key to managing hazards and reducing the impact of events. It aims for substantial reduction of disaster risk and losses in lives, livelihoods and health and in the economic, physical, social, cultural and environmental assets of persons, businesses, communities and countries and calls for **all of society** to share responsibility for reducing disaster risk. Modernizing our legislation is one of the first key steps to implement the Sendai Framework.

The Sendai Framework's All-of-Society Approach

- The Sendai Framework for Disaster Risk Reduction 2015-2030 is a voluntary agreement that recognizes the responsibility for reducing disaster risk is shared between the State and other emergency management partners.
- The 'All of Society' approach is a key element of the United Nations' Sendai Framework that acknowledges the contribution of and important role played by all relevant partners in the four pillars of emergency management: Preparedness, Mitigation, Response and Recovery.
- Relevant emergency management partners include individuals, families, communities, private businesses, Local Authorities, First Nations, and the federal and provincial governments.
- Emergency management partners are encouraged to communicate, collaborate and coordinate in the design and implementation of emergency management legislation, regulations and policies.
- Strengthening overall society disaster resilience includes leveraging existing knowledge, experience and capabilities through accessible, inclusive and empowering engagement processes.

7

Modernizing BC's Emergency Management Legislation

The Four Recovery Sectors:

People & Communities

- Physical, mental, and social wellbeing
- Health and safety
- Mental health
- Community psycho-social, emotional, cultural, and spiritual wellbeing
- Interim housing

Environment

- Land degradation and contamination
- Biodiversity and ecosystem impacts
- Natural resource damage and loss

Ş

Infrastructure

Private and public physical infrastructure

Economy

- Small, medium, and large enterprise
- Tourism
- Cultural livelihood
- Agriculture
- Broader economy

Interim Disaster Recovery Framework

Given the recovery challenges in 2017 and 2018, it was recognized that a new approach was needed in advance of developing new emergency management legislation. In May 2019, BC developed an Interim Disaster Recovery Framework for the 2019 and 2020 flood and wildfire seasons, establishing a strategic approach and clear roles and responsibilities, ensuring accountability, and providing overall guidance to recovery operations.

The interim framework organizes recovery by four sectors: People and Communities, Environment, Economy, and Infrastructure, each of which has an Assistant Deputy Minister responsible for overseeing the sector's recovery strategies and ensuring inclusivity and coordination with partners. It leverages existing operational and governance structures at the local, regional, and provincial levels. Similar to response operations, the Ministers' and Deputies' Emergency Council can be convened to ensure a coordinated provincial approach for significant recovery events such as the Telegraph Creek wildfires and Grand Forks flooding. The interim framework will need to be reassessed and finalized once the emergency management legislation is revised.

Attachment # 5.5

j

The Three Stages of Recovery:

Recovery consists of three stages - shortmedium- and long-term – and works towards minimizing future damage to communities and the environment.

The interim framework recognizes that there isn't a clear dividing line between response and recovery and that the earlier recovery efforts are initiated during response, the more effective those efforts will be. Recovery can take months or even years, particularly if additional events produce cumulative impacts.

BC's emergency management system is a true partnership, including federal, provincial, local and First Nations governments; critical infrastructure operators; thousands of volunteers; businesses; and people. This discussion paper outlines the key proposed attributes of a new emergency management Act, focusing on what would be new or different. Some of the proposed provisions will be supported by regulations to spell out requirements in more detail. We invite all British Columbians, stakeholders and emergency management partners, to tell us what they think about the proposals outlined in this paper to help us shape the new legislation and supporting regulations.

	Short-Term (DAYS - WEEKS)		Medium-Term (WEEKS - MONTHS)		Long-Term (MONTHS - YEARS)
	Recovery Unit, Emergency	-	Recovery Operations Centre(s)		Recovery Steering Committee

Modernizing BC's Emergency Management Legislation

Page 51 of 524

Emergency management is a universal term for the systems and processes used for preventing or reducing the impacts of emergencies on communities. Emergency management is conceptualized in four phases:

- mitigation;
- preparedness;
- response; and
- recovery.

This approach is an internationally recognized system for defining and understanding different aspects of emergency management and is integral to the systems and processes used in BC to minimize exposure and vulnerability to hazards, prepare for and manage emergencies, and rebuild afterwards.

While the EPA is strong on the preparedness and response pillars, there are significant gaps when it comes to mitigation (pre-emergency activities) and recovery (post-event activities). The new Act will encompass all four pillars of emergency management, specifying the obligations of emergency management partners in each area.

Reconciliation

The Province of British Columbia has committed to full implementation of the United Nations Declaration on the Rights of Indigenous Peoples (the Declaration), the Truth and Reconciliation Commission's (TRC) Calls to Action and the principles articulated in the Supreme Court of Canada's Tsilhqot'in decision, and to reviewing its policies, programs and laws to bring these commitments into action.

Modernizing BC's emergency management legislation presents an opportunity to re-examine how the provincial government, Canada, Local Authorities and critical infrastructure operators work with First Nations on wildfire, flooding and other emergencies, and improve recognition of First Nations as partners in emergency management.

Long-standing, traditional knowledge about the land and natural forces has been handed down through generations since time immemorial—these stories and oral traditions are a rich and valuable source of knowledge that can complement scientific data and modern approaches to emergency management. For example, Indigenous prescribed burning practices were done in the past to reduce fuel loads, remove disease, and cleanse the land. Reduction in these practices over time has increased fire risk, but acknowledgement of the value of these traditions, and a renewed focus on practice, is being revitalized in BC.

Indigenous Nations and peoples have their own laws, governments, political structures, social orders, territories and rights inherited from their ancestors. Recognition of Indigenous peoples as emergency management decision-makers based on their inherent rights of self-government and self-determination will advance government's reconciliation efforts, facilitate a coordinated response to emergencies, and help create more predictability for other users of the land.

On October 24, 2019, BC introduced legislation that creates a framework for reconciliation in BC. The legislation will mandate government to bring provincial laws into alignment with the Declaration over time. This reconciliation legislation will also seek to create more flexibility for the legal status of Indigenous governments in BC, and to create opportunities for decisionmaking for Indigenous governments.

Modernizing BC's Emergency Management Legislation

What Have We Done? What's Next?

In January 2016, EMBC issued a discussion paper outlining potential changes to the EPA. EMBC hosted a 15-week online consultation forum to allow an opportunity for the public, partners and stakeholders to submit input. EMBC received over 70 submissions from stakeholders, as well as comments from forum participants. With the 2017 provincial election and the scale of emergency events in both 2017 and 2018, work on the EPA was paused. The Province is now proceeding with a more comprehensive approach to prepare an entirely new Act that will replace the EPA. The feedback that was provided

in 2016 has been considered in developing the proposals outlined in this discussion paper.

Keeping in mind that emergency management is a shared responsibility, EMBC had extensive discussions to inform the development of the proposals in this discussion paper. EMBC staff met with every provincial ministry, consulted with staff from Public Safety Canada and Indigenous Services Canada, briefed numerous groups, engaged with key partners such as the Union of BC Municipalities (UBCM), the First Nations Leadership Council, the

First Nations Health Authority (FNHA), and the First Nations Emergency Services Society (FNESS), and conducted an all-day session with Indigenous emergency management champions.

The proposals in this discussion paper have been informed by experience, research into other leading jurisdictions, and the voices of emergency management partners. Over the next three months, engagement will broaden, welcoming input and dialogue from partners, stakeholders, and the public.

The Path to Modernization:

Modernizing BC's Emergency Management Legislation

A Four-Pillar Approach

The Act will encompass all stages of emergency management: mitigation, preparedness, response, and recovery.

Shifting How We Think The Act will reflect a shift from disaster response

to managing and reducing disaster risk.

An All-of-Society Approach Emergency management is a shared

responsibility: individuals, governments, communities, private and non-profit sectors.

Putting Safety First Protection of life, health, and safety is paramount.

Transparent Decisions Decisions made under the Act and regulations will be transparent.

\$

İİİİ

A Funding Mechanism that Works Responsive, flexible and disciplined funding mechanisms.

Focus on Inclusion

The Act will be inclusive and will consider the needs of vulnerable citizens.

Modernizing BC's Emergency Management Legislation

DESIGN PRINCIPLES FOR

MODERNIZATION

Seven design principles are guiding development of

The design principles reflect the key strategic shifts

management in BC.

BC's modernized emergency management legislation.

that underpin a more modern approach to emergency

KEY DEFINITIONS

The starting point for discussion about modernizing BC's emergency management legislation is the key definitions that will underpin the new Act. The following definitions are proposed.

Emergency

The definition of emergency is essential to emergency management legislation. In the current EPA, the term gives meaning to other important concepts such as emergency plans and measures, and states of emergency.

It is proposed to define "emergency" as:

A present or imminent event or circumstance that:

- (a) Is caused by accident, fire, explosion, technical failure or a force of nature; and
- (b) Requires prompt coordination of action or special regulation of persons or property to protect the health safety or well-being of a person or community or to limit the damage to property, significant Indigenous cultural sites or the environment; or
- (c) Any other situation prescribed by the Lieutenant Governor in Council.

The proposed definition adds damage to "significant Indigenous cultural sites or the environment". The former has been raised in a number of after-action reviews, while the latter has been adopted by a number of other provinces. The proposed definition also adds a new provision that would allow the provincial government to declare through an order-in-council that an event constitutes an emergency. Examples could include events with significant impacts on human health (such as foreign animal disease outbreaks or pandemics) or economic crises. This would give Cabinet the ability to direct EMBC into action if deemed necessary.

Modernizing BC's Emergency Management Legislation

\bigcirc Local Authority

Local Authorities are defined in the EPA as:

- (a) For a municipality, the municipal council;
- (b) For an electoral area in a regional district, the board of the regional district; or
- (c) For a national park, the park superintendent.

There are additional circumstances under which it may be appropriate to designate an entity as a Local Authority:

- Under the terms of modern treaties, Treaty First Nations are considered Local Authorities under the EPA; however, there is no reference in the legislation itself to Treaty First Nations;
- The Stikine region is the only area of BC where there is no Local Authority; and,
- Many regions of the province have initiated collaborative emergency management partnerships across multiple municipalities or within an entire regional district (for example, through the Integrated Partnership for Regional Emergency Management in Metro Vancouver and the Regional Emergency Management Partnership in the Capital Regional District).

It is therefore proposed to:

Add the ability for the Minister to prescribe by regulation a new "Local Authority". This could include a Treaty First Nation whose Final Agreement defines it as a Local Authority, an appropriate body within the Stikine, or a group of willing First Nations, municipalities and/or electoral areas that wish to form a unified Local Authority for the purposes of undertaking some or all emergency management functions.

Modernizing BC's Emergency Management Legislation

Page

57 of 524

KEY DEFINITIONS: The Four Pillars of Emergency Management

1. Mitigation

In keeping with the Sendai Framework, and with a view to future risk associated with climate change, mitigation will be built into the new Act in order to:

- Enhance information about hazards, risks and vulnerabilities;
- Improve integration and hazard and risk information flow between communities, ministries, Crown corporations, and critical infrastructure operators;
- Mandate greater consideration of current and future risk when considering development in hazardous areas; and,
- Build resiliency and social cohesion of communities.

It is proposed to define "mitigation" as:

The phase of emergency management in which proactive steps are taken to prevent a hazardous event from occurring by eliminating the hazard, or to reduce the severity or potential impact of such an event before it occurs. Mitigation protects lives, property, cultural sites, and the environment, and reduces vulnerabilities to emergencies and economic and social disruption.

2. Preparedness

Building on the strong preparedness and planning requirements in the EPA, modernized emergency management legislation will:

- Establish clear and expanded emergency management responsibilities for key partners;
- Improve integration and information flow between ministries, Crown corporations, Local Authorities, First Nations, and critical infrastructure operators; and,
- Enhance emergency plan quality including more rigour on risk assessment, mitigation and recovery.

It is proposed to define "preparedness" as:

The phase of emergency management during which action is taken to ensure readiness to undertake emergency response and recovery. It includes, but it not limited to, hazard, risk, and vulnerability assessment, planning, resource planning, volunteer management, training, exercises, public/stakeholder education, and continuous improvement.

3. Response

Building on the response provisions in the EPA, modernized emergency management legislation will:

- Allow for setting standards for emergency public notifications and warnings to ensure clear responsibilities, timeliness, and accuracy;
- Enable the Province to enter into aid agreements with other jurisdictions (for example, to provide emergency management and other accredited professionals to assist during a catastrophic event); and,
- Clarify distinct powers for both the Province and Local Authorities during states of emergency, and the duration of states of emergency.

It is proposed to define "response" as:

The phase of emergency management during which actions are taken in direct response to an imminent or occurring emergency in order to prevent, limit and manage impacts. Response includes the initiation of plans and actions to support recovery and may include deployment of registered volunteer resources.

4. Recovery

The Sendai Framework includes the concept of "building back better" during recovery from events to reduce future risk and enhance resilience. A 2018 report prepared under the auspices of the World Bank expands this concept:

- Building back stronger refers to reconstructing buildings and infrastructure to ensure the built environment is better able to withstand future emergencies;
- Building back faster reduces disaster impacts by accelerating reconstruction through measures such as contingent reconstruction plans, pre-approved contracts, and financial arrangements; and,
- Building back more inclusively ensures that the most disproportionately impacted can access the support they need to rebuild. In the absence of such support, they are the most likely to experience the long-term consequences caused by health issues and disability, loss of schooling and education, or simply the inability to save or borrow to rebuild or replace lost assets.

With this in mind, modernized emergency management legislation will:

- Ensure Local Authorities, ministries, Crown corporations, First Nations, and critical infrastructure operators are prepared to recover from emergency events; and,
- Give Local Authorities and ministries the tools and powers required to build back stronger, faster, and inclusively.

It is proposed to define "recovery" as:

The phase of emergency management during which action is taken to re-establish social, cultural, physical, economic, personal and community well-being through inclusive measures that reduce vulnerability to emergencies, while enhancing sustainability and resilience. It includes taking steps to repair a community impacted by an emergency and restore conditions to a level that could withstand a potential future event or, when feasible, improve them to increase resilience in individuals, families, organizations, and communities.

Page

59 of 524

Stepping Up & Sharing Responsibility

A Blueprint for 21st Century Emergency Management

While the provincial government has a leadership role in emergency management, fully committing to the Sendai Framework means that responsibility is shared with other partners including Local Authorities, First Nations, critical infrastructure operators, the private sector, industry, nongovernmental organizations (NGOs), citizens and volunteers. We recognize that many of these proposals would impose additional obligations on emergency management partners, which will raise issues of capacity and resources and will require time to develop and implement new approaches. The Province is committed to work with emergency management partners to ensure the necessary supports are in place so that the proposed new framework can be delivered.

This section outlines the key proposed changes for BC's emergency management partners that would be incorporated in a modernized Act.

Minister Responsible for Emergency Management

Under the EPA, the Minister has a number of duties and powers, including preparing emergency plans, entering into agreements, conducting public information, training and exercising programs, and reviewing and recommending modifications to Local Authorities' plans. The Minister may declare a provincial state of emergency (PSOE) and must approve extensions to states of local emergency (SOLEs).

The provisions in the EPA dealing with states of emergency have their roots in Canada's War Measures Act. A state of emergency is an extraordinary measure that provides powerful tools to provincial and/or local governments that curtail rights and freedoms.

SOLE Durations

Currently, SOLEs are initially established at seven days and may be extended for further seven-day periods; the Minister's approval is required for extensions. Experience has shown that SOLEs are frequently renewed, often repeatedly, to deal with high-impact events.

PSOE Durations

Currently, PSOEs are initially established at 14 days and may be extended for further 14day periods, with approval of the Lieutenant Governor in Council (LGIC).

It is proposed that:

The duration of a SOLE be set at 14 days, with extensions of 14 days at a time approved by the Minister or designate. Extensions may include changes to the geographical scope of the SOLE.

It is proposed that:

Modernizing BC's Emergency Management Legislation

The duration of a PSOE be set at a maximum of 28 days, with extensions of 28 days at a time approved by the LGIC. Extensions may include changes to the geographical scope of the PSOE.

Attachment # 5.5 . J

19

Powers Availible During PSOEs & SOLEs

The EPA sets out the powers available to the Minister during a provincial state of emergency (s. 10(1)) and to a Local Authority for a local state of emergency (s. 13(1)). *In order to ensure an appropriate suite of powers is in place during states of emergency, the following is proposed.*

Continued use of a SOLE

Experience in 2017 and 2018 showed that continued use of a SOLE is not an appropriate tool as communities transition from response to recovery. *To support Local Authorities to transition from reliance on SOLEs to their regular decision-making processes, the following is proposed.*

Powers During Catastrophic Events

Careful consideration was given to whether an additional suite of powers should be available to the Minister for a catastrophic event such as a subduction earthquake. The existing powers under the EPA, specifically section 10(1) and section 26, are extremely powerful. *Minor amendments are proposed to clarify how these powers apply during a catastrophic event.*

It is proposed to:

- Clearly set out the powers available to the Minister and to Local Authorities, respectively, by listing these powers;
- Clarify that the Minister and Local Authorities may do all acts and implement all
 procedures necessary to mitigate, prepare for, respond to or recover from the effects of
 an emergency.

It is proposed to:

Introduce a new provision to allow the Minister to grant a Local Authority the use of specific powers for a "transition period" between response and recovery of up to 90 days. A Local Authority would make an application to the Minister, citing what powers are required and demonstrating that they are in the public interest; necessary or desirable to ensure a timely and effective recovery; and proportionate in the circumstances. The Minister could approve multiple extensions, for up to 90 days each. Local Authorities would be required to report publicly on their use of the transition powers.

It is proposed that:

- S. 10(1) would clarify that for the duration of a <u>provincial</u> state of emergency, the Minister may do all acts and implement all procedures considered necessary to mitigate, prepare for, respond to or recover from the effects of an emergency; and,
- S. 26 would clarify that unless otherwise provided for in a declaration of a state of emergency, if there is a conflict between the emergency management Act, the regulations, <u>orders, or authorized actions</u> made under the Act, and the regulations, <u>orders, or authorized actions</u> under other Acts, the emergency management Act and its regulations, <u>orders, or authorized actions</u> prevail.

Modernizing BC's Emergency Management Legislation

Entering Into Agreements

Accessing Support

The Minister currently has the authority to "enter into agreements with the government of Canada or any other province, or with any agency of such a government, dealing with emergency plans and programs." In order to ensure that BC can quickly and effectively access support from other jurisdictions as and when needed, the following is proposed.

Partnerships with First Nations

A number of First Nations have entered into emergency management agreements with the Province and/or local governments. For example, in 2018 the Central Coast Regional Emergency Management Partnership Memorandum of Understanding was signed between the Nuxalk Nation, Central Coast Regional District, and EMBC. In April 2019, a tripartite agreement was signed by Canada, BC and the First Nations Leadership Council to establish a formal relationship to hold collaborative, constructive and regular dialogue on emergency management issues. *In order to facilitate partnerships with First Nations, the following is proposed.*

It is proposed to:

 Clarify that the Minister can enter into agreements with international jurisdictions. Agreements could include arrangements with one or more other jurisdictions to share resources in relation to emergency management.

It is proposed to:

 Provide clear authority for the Minister and for Local Authorities to enter into emergency management agreements with First Nations. Agreements could address issues such as collaborative hazard and risk assessment and/ or planning; delivery of emergency management services or programs; and/or joint recovery activities.

Enhancing Confidence in the Emergency Management System

BC is already a recognized leader in emergency management. Modernizing our legislative framework underscores our commitment to continuous improvement and will enshrine in legislation many of the best practices that are already commonplace in our province. That said, it is also important for the public to have confidence in our emergency management regime. To that end, we are proposing measures to enhance transparency and quality assurance.

Emergency Management System

Transparency

To increase transparency around risk, and coordination and consolidation of risk assessments and hazards across the province, the following is proposed.

Quality Assurance

following is proposed.

To provide quality assurance of

emergency management plans

prepared by other bodies, the

Establish a legislative requirement for the Province to centrally house and provide transparent data on hazard, risk and vulnerability assessments, or mitigation planning documents which are conducted or prepared by other bodies (provincial ministries, Crown corporations and agencies; Local Authorities; and critical infrastructure operators).

It is proposed to:

- Require provincial ministries, Crown corporations and agencies, Local Authorities, and critical infrastructure owners/operators to register their emergency management plans with EMBC; and
- Enable EMBC to audit emergency management plans. In the spirit of continuous improvement, audit results would be shared with the planning body and made public.

Provincial Ministries, Crown Corporations & Agencies

Provincial government bodies must lead by example to adopt a four-pillar approach to emergency management and increase confidence in the quality of emergency plans. This includes expanding the public sector entities required by law to do emergency planning. Under the EPA, all ministries and certain Crown corporations are required to prepare emergency plans to be followed in the event of an emergency or disaster. These plans can be divided into two categories: business continuity plans, which focus on the continuity of services, and emergency management plans. Content requirements for business continuity plans are identified in policy, not in regulation. The **Emergency Management Program Regulation** delegates responsibilities for some hazardspecific planning to some ministries but there is otherwise little direction on what content should be included in ministry emergency management plans. Currently, ministries are not obligated to include risk mitigation or recovery within their plans. The following table shows key hazards and the primary provincial ministries responsible for provincial level activities to provide expertise and direct support to Local Authorities in managing an incident.

Ministry Hazard Responsibilities (1/3)

HAZARD GROUP	HAZARD	MINISTRY		
	Air crashes			
Accidents	Marine accidents	Public Safety & Solicitor General

BRITISH COLUMBIA

Modernizing BC's Emergency Management Legislation

Preparedness for Provincial Ministries, Crown Corporations & Agencies

Business Continuity Plans

To ensure transparency, consistency, quality, and oversight and to enhance information sharing of business continuity plans, the following is proposed.

- Require all ministries, Crown corporations, and agencies to have programs and plans to deal with the continuity of services. This could include school districts, universities, colleges, health authorities, and others;
- Enable the prescription (in regulation) of standards for plan content, process, training, exercising and review; and
- Establish a mechanism to enable EMBC to collect, review, and audit business continuity plans.

It is proposed to:

Emergency Management Plans

To ensure transparency, consistency, quality, and oversight and enhance information sharing of emergency management plans, the following is proposed.

Continuity After Catastrophe

To ensure continuity of government operations following a catastrophic event such as a damaging earthquake, the following is proposed.

- Require ministries, Crown Corporations, agencies and other public sector entities to develop emergency plans, participate in the development of integrated plans for which they are not the lead, and perform hazard, risk and vulnerability assessment, mitigation, preparedness, response, and recovery duties as assigned by the Minister. This could include school districts, universities, colleges, health authorities, and others;
- Enable the prescription (in regulation) of specific roles and responsibilities for mitigation, preparedness, response, and recovery, plan content, process, training, exercising and review; and
- Establish a provincial obligation to provide hazard data and coordinate with Local Authorities and First Nations as available and requested.

It is proposed to:

 Require the Province to develop continuity of government plans that ensure the continued operation of the executive, judicial, and legislative arms of government.

Modernizing BC's Emergency Management Legislation

Local Authorities

Under the EPA, Local Authorities include municipal councils and regional district boards. Successful emergency management must be driven by, and responsive to, local communities. Local Authorities therefore have a vital role in emergency management at the community and regional level, as they are responsible for preparing and implementing emergency plans. However, events in 2017 and 2018 highlighted the importance of strengthening both up-front risk mitigation and post-event recovery. A modernized approach to emergency management can increase community resiliency by:

- Increasing the specificity of emergency planning requirements, including obligations to identify hazards, vulnerabilities, and risk and implement risk reduction measures;
- Enhancing community consultation and coordination;
- Empowering new and existing partnerships; and
- Providing a new "transition period" to enable a more seamless transition from response to recovery by allowing specific powers to continue for a longer period of time while providing public accountability on the use of the powers.

Mitigation for Local Authorities

Building & Development

Risk reduction starts with making sound decisions about where and how to build. To facilitate risk-based decision-making about building and development in hazardous areas, the following is proposed.

It is proposed to:

- Require Local Authorities, and the Province (through the Ministry of Transportation and Infrastructure's subdivision approval authority in unincorporated areas) to give greater consideration of current and future risk for new development approvals in hazardous areas; and,
- Require sustainable long-term mitigation measures when building and development is approved in hazardous areas.

Modernizing BC's Emergency Management Legislation

Page 69 of 524

Hazard & Risk Identification

To enhance the capacity to prevent and mitigate emergencies, and close gaps that exist in hazard and risk identification, the following is proposed.

It is proposed to:

Include legislative and regulatory requirements for Local Authorities to identify, understand and assess hazards, risks, and vulnerabilities, and establish associated mitigation plans for risks and consequences.

It is proposed to:

Collaboration & Coordination

To increase transparency around risk, and enhance coordination and consolidation of risk assessments and hazards across the province, the following is proposed.

- Enable the Minister or designate to direct Local Authorities to collaborate and coordinate at a regional scale for risk assessment, mitigation planning and mitigative works; and
- Enable the establishment of non-regulatory or regulatory incentives to enhance regional collaboration and coordination for risk assessment, mitigation planning and mitigative works.

Preparedness for Local Authorities

Standardized Programs & Plans

To increase standardization and alignment of Local Authority emergency management programs and plans, the following is proposed.

It is proposed to:

- Establish a comprehensive list of requirements including: hazard, risk, and vulnerability assessment; mitigation plans; response; recovery; business continuity plans; training; exercising; and a review cycle; and
- Through regulation, provide detailed program and plan content requirements.

Collaborative Planning & Partnerships

To increase collaboration, enable communitydriven planning and partnerships, provide transparency and accountability among partners and stakeholders, and enable the Province to understand local capacities and needs, the following is proposed.

It is proposed to:

- Require Local Authorities to provide plans to neighbouring jurisdictions (Local Authorities and First Nations), to the Province, and stakeholders such as critical infrastructure operators, school districts, and health authorities and consider any feedback;
- Enable Local Authorities and First Nations to enter into agreements with one another for the purposes of integrated or multi-jurisdictional plans; and
- Introduce a requirement for Local Authorities preparing emergency management plans to consult with First Nations. Consultation standards for Local Authorities could be specified in regulation or guidelines.

Response for Local Authorities

Response Provisions

Proposed changes to response provisions for Local Authorities are outlined in the section on the Minister's powers.

29

Page 71 of 524

Modernizing BC's Emergency Management Legislation

Recovery for Local Authorities

Recovery Plan Incentives

Transitioning out of a SOLE

Tools to Support Recovery

To provide Local Authorities with additional

tools to support recovery, particularly during the

transition from response to recovery, the following

As described in the section on the Minister's

powers, to create a mechanism for the use of

emergency powers over an extended period

of time and recognize the transition between

response and recovery, the following is proposed.

To provide incentives to develop strong recovery plans, the following is proposed.

It is proposed to:

 Enable regulations that would require post-disaster needs assessments and post-disaster recovery plans as a condition of receiving provincial recovery funds and the renewal of recovery powers.

It is proposed to:

Introduce a 90-day "transition period" where Local Authorities can request the use of specific SOLE powers for up to 90 days at a time. Powers would be selected and justified for the circumstance, based on the whether the transition powers are in the public interest, necessary and desirable, and proportionate to the circumstances.

It is proposed to:

Enable Local Authorities, in consultation with the Minister responsible for the Community Charter, Vancouver Charter and Local Government Act and the Minister responsible for emergency management, to make emergency amendments to an Official Community Plan, Regional Growth Strategy, zoning, or bylaws.

is proposed.

Advancing Reconciliation with Indigenous Peoples

First Nations representatives have demonstrated a strong interest in all aspects of BC's emergency management regime. First Nations know their communities best, including making decisions on how and when to respond to events that impact their values and people.

Modernizing the legislation provides an opportunity to advance reconciliation with Indigenous peoples and address many of the challenges that were identified in 2017 and 2018, including investing in community planning, preparedness and mitigation, and respecting Indigenous knowledge and practices. Taking steps to recognize First Nations as partners in emergency management will demonstrate progress towards implementing the recommendations in First Nations community reports, the Abbott-Chapman Report, the Tsilhqot'in National Government report The Fires Awakened Us, and the Nadleh Whut'en report Trial by Fire.

Canada is responsible for reserve lands, and this responsibility is delegated to the Minister of Indigenous Services. Under the Emergency Management Act (2007), each federal minister is required to identify risks within their areas of responsibility and maintain emergency management plans to mitigate those risks. Indigenous Services Canada supports the four pillars of emergency management (mitigation, preparedness, response and recovery) on-reserve and has a service agreement with EMBC to ensure that First Nations have access to the provincial emergency management platform.

BC will continue to work with First Nations and Canada to provide clarity on jurisdictional roles and responsibilities for reserve lands and community members who live off-reserve.

First Nations, along with the federal, provincial and local governments, have already embarked on the path to partnerships. In addition to the tripartite agreement between Canada, BC and the First Nations Leadership Council that was mentioned earlier in this discussion paper, a number of First Nations have entered into collaborative arrangements, including:

- The Collaborative Emergency Management Agreement between the Tsilhqot'in National Government, Canada and BC;
- The Central Okanagan Regional Emergency Plan, which supports local governments, the Regional District of Central Okanagan, and the Westbank First Nation; and,
- The Tofino-Ahousaht Protocol Agreement on areas of mutual interest, including infrastructure, health and emergency planning.

Under the Final Agreements of modern treaties, Treaty First Nations have the same powers, duties and responsibilities under the EPA as Local Authorities. Westbank First Nation and shíshálh Nation are self-governing, with the power to regulate public order, safety and emergency preparedness. Shíshálh Nation is a member of the Sunshine Coast Regional District Emergency Program and Westbank First Nation is a member of the Regional District of Central Okanagan Emergency Program.

The First Nations Health Authority (FNHA) coordinates activities in response to emergencies that may impact the health of BC First Nations community members. Since 2017, FNHA has strengthened its capacity to support First Nations communities to prepare for, respond to and recover from emergencies by establishing emergency management policies and procedures, developing an Emergency Operations Centre response mechanism, and creating additional staff positions focused on leading and supporting emergency management within its organization.

The First Nations Emergency Services Society (FNESS) works closely with First Nations communities, EMBC, Indigenous Services Canada (ISC) and other partners to support emergency management for First Nations communities in BC.

Modernizing BC's Emergency Management Legislation

Attachment # 5.5

. 5

\rightarrow First Nations as Partners

It is recognized that First Nations will have interests in all the legislative changes under consideration. In order to further strengthen First Nations as partners in the governance and operations of emergency management and improve communications before, during and after an emergency, the following changes are proposed.

It is proposed to:

- Expand the definition of "emergency" to include actions to protect community wellbeing, significant Indigenous cultural sites and the environment;
- Provide clear authority for the Minister responsible for emergency management and for Local Authorities to enter into emergency management agreements with First Nations or First Nations groups, including Treaty First Nations. Agreements could address issues such as collaborative hazard and risk assessment and/or planning; delivery of emergency management services or programs; mutual aid; and/or joint recovery activities;
- Introduce a requirement for Local Authorities preparing emergency management plans to consult with First Nations;

- Introduce a requirement for critical infrastructure owners/operators to provide non-sensitive information to First Nations upon request. (Note: information would also be provided to Local Authorities and/or the public upon request.);
- Require consideration of Indigenous and traditional knowledge in the development of hazard risk and vulnerability assessments by provincial entities and Local Authorities. The entity conducting the assessments could be encouraged to communicate the results to affected First Nations; and,
- Establish that provincial entities and Local Authorities must consider cultural safety and inclusiveness when developing and implementing emergency management plans. Specific requirements could be established in regulation and supported by policies and guidance material.

Critical Infrastructure Operators

Federal, provincial and territorial governments in Canada define critical infrastructure as the processes, systems, facilities, technologies, networks, assets and services essential to the health, safety, security or economic well-being of people and the effective functioning of government. There are ten recognized critical infrastructure sectors:

Critical Infrastructure Sectors

SECTOR	SUB-SECTOR
Energy & Utilities	Electricity; Petroleum and Crude Oil; Natural Gas; Other
Communications	Telecommunications; Radio; Broadcasting; Satellite
Transportation	Rail; Road; Marine; Air
Water	Potable Water; Wastewater; Dams
Health	Critical Care; Extended Care; Blood/Organ Facilities; Pharmaceutical Facilities
Safety	Police/Law Enforcement; Fire; Ambulance; Emergency Management
Government	Federal; Provincial; First Nations; Local Authority
Food	Farming/Production; Processing/Packaging; Storage/Distribution
Finance	Banking/Financial Institutions; Securities/Investments; Point of Sale/ATM Machines
Manufacturing	Defense Industrial Base Manufacturing*; Critical Manufacturing**

 Defense industrial base manufacturing consists of businesses and government organizations involved in research, development, production and service of military equipment and facilities.
 Critical manufacturing varies across five key areas: primary metals, machinery, electrical equipment, transportation and heavy equipment, and chemical manufacturing.

The EPA does not reference critical infrastructure; it is regulated at both the provincial and federal levels within legislation that is typically specific to a single sector or sub-sector. This means that the requirements for emergency management activities are not consistent across sectors and may not be integrated with provincial or Local Authorities' emergency management plans.

BRITISH

COLUMBIA

Modernizing BC's Emergency Management Legislation

33

In BC, many critical infrastructure operators already demonstrate exceptional emergency management practices, often going beyond existing regulatory requirements, as observed during the 2017 and 2018 flood and wildfire events as well as in many other instances. The proposals outlined below would serve to strengthen certain practices and close any gaps. It is recognized that the Province must respect federal jurisdiction over certain critical infrastructure sectors.

These recommendations are centered on adopting a cross-sector approach that defines expectations with respect to the development of four-pillar emergency management planning documentation that is registered provincially, exercised, subject to audit, and integrated with government emergency plans. The intention of these activities is to enhance the resilience of critical infrastructure in British Columbia, as well as those that rely on its services. The resilience of critical infrastructure assets and systems is essential to the functionality of critical supply chains such as food, water, fuel, shelter, and medical supplies, and is also a vital component of efficient and effective response and recovery efforts. Furthermore, awareness of downstream risks (i.e., scenarios that may result in critical service losses)

and interdependencies (where one critical infrastructure asset relies on another, or there is a mutual dependency) may also help the Province, Local Authorities, First Nations, and other critical infrastructure operators develop and update their emergency management planning documentation appropriately.

In addition, consistent emergency management planning documentation can help ensure effective and efficient resourcesharing, as critical infrastructure operators are often the source of specialized resources and personnel. Understanding the needs of critical infrastructure operators in greater depth may also allow the Province to explore additional opportunities to provide support in return before, during, and after emergency events.

A modernized approach to emergency management would:

- Improve information sharing and coordination between critical infrastructure operators, the Province, Local Authorities, and First Nations; and,
- Establish minimum standards for emergency management and business continuity plans for critical infrastructure operators.

Preparedness for Critical Infrastructure

A Cross-Sector Approach

Risk and Resource Needs

partners, the following is proposed.

To increase understanding of risk and resource

needs of critical infrastructure operators, and

increase coordination with other emergency

To build a foundation for a cross-sector approach that outlines expectations around emergency management planning, business continuity planning, information sharing, and exercising, the following is proposed.

It is proposed to:

- Establish a power to allow for creation of a registry that captures specific critical infrastructure assets and their respective emergency management planning documentation, which may include information on risks, contacts, operating procedures, resource requirements, and resource availability. This registry would also serve to clarify which critical infrastructure operators and respective assets are subject to the regulatory requirements, as it may include "tiers" to ensure appropriate attention is paid to the assets and systems with greater risk and/or consequence; and
- Establish cross-sector regulation for critical infrastructure emergency management activities to ensure consistency. This would include activities required for critical infrastructure sectors as defined by EMBC and include supplementary aspects to existing statutes and regulations with respect to their requirements related to emergency management activities. Attention will be paid to ensuring that existing requirements and efforts are not duplicated.

It is proposed to:

Require critical infrastructure operators to develop specific emergency management planning documentation, which would be inclusive of planning for hazards created by the critical infrastructure, business continuity planning for service disruptions, and considerations for downstream impacts of service disruptions.

Page 77 of 524

Modernizing BC's Emergency Management Legislation

Information Sharing and Security

To improve coordination and information sharing while respecting critical infrastructure operators' proprietary information and minimize information security issues, the following is proposed.

It is proposed to:

Require that emergency management planning documentation be developed into two parts:

- 1. Information such as risks to critical infrastructure, risks caused by the critical infrastructure, general operating procedures, consequence of loss, estimated restoration timelines, anticipated resource requirements, and primary contact information; and,
- 2. Sensitive information that exposes vulnerabilities and any additional details within the plan such as additional staff contact information, internal procedures, etc.

Require that Part 1 be provided to the Province, and/or made available upon request to Local Authorities, First Nations, and/or the public.

It is proposed to:

Quality Assurance

To increase quality assurance of emergency management planning documentation, the following is proposed.

- Require certain critical infrastructure operators to provide a "Statement of Assurance" that would advise of measures they have taken to ensure that their emergency management documentation is of adequate quality. The Province would have authority to engage an accredited subject matter expert to validate the "Statement of Assurance"; and,
- Conduct prioritized audits of emergency management planning documentation. These
 audits would be done by either EMBC alone, or with the assistance of ministries with
 leadership/ regulatory roles for a particular sector.

Testing and Integration of Plans

To ensure that critical infrastructure emergency management and business continuity plans are tested consistently and to provide opportunities to integrate plans with other emergency plans, the following is proposed.

Improving Information Sharing

To increase information sharing both during and outside of emergency events, and to enhance planning related to catastrophic events, the following is proposed.

It is proposed to:

- Require critical infrastructure operators to conduct mandatory exercises for specific assets as designated by the Province through regulation or policy at a defined frequency and level (tabletop, full-scale, etc.); and,
- Require critical infrastructure operators to invite provincial regulators and emergency management authorities, as well as local participants such as Local Authorities, First Nations, and local organizations, to the mandatory exercises.

It is proposed to:

 Require critical infrastructure operators to provide emergency management information beyond that identified in Part 1 (see above) as requested by EMBC (or another provincial agency at the request of EMBC) including sensitive event-specific information, additional contact information, or internal procedures.

Supporting Volunteers & Non-Governmental Organizations

People who offer their services without expectation of compensation are a critical component of the emergency management process and contribute to an all-of-society approach, along with the many non-profit organizations involved in all four pillars of emergency management.

Currently, Public Safety Lifeline Volunteers provide services in five distinct functions:

- Search and Rescue services to locate and retrieve injured, lost, or missing individuals;
- Road Rescue services to extricate motorists trapped by an accident;
- Emergency Support Services to meet the temporary accommodation, meals and incidental needs of individuals and families evacuated during an emergency;
- Provincial Emergency Radio Communications services to provide additional or alternate radio connections in support of managing an emergency; and,
- Provincial Emergency Program Air to enable searches from the air, conduct reconnaissance (i.e., damage assessment), communications relay or transport personnel and supplies.

The Province also provides a means for a Local Authority or First Nation to organize convergent volunteers for general service tasks such as filling sandbags.

The skills and experiences of volunteers often go beyond their core functions, such as ensuring that in an emergency, residents are notified and advised of actions to take, or as a member of an Emergency Operations Centre. The Province supports these volunteers by providing training, reimbursing operational costs and providing WorkSafe and liability coverage.

Beyond formal provincially organized lines, volunteers make invaluable contributions to emergency management through non-government organizations (NGOs), community service organizations and other mechanisms.

Strengthening Supports for Volunteers & NGOs

It is proposed to:

Helping Volunteers Help BC

To strengthen support for the thousands of volunteers essential to emergency management, the following is proposed.

- Increase support and formal oversight of volunteers;
- Increase access to broader resources, including volunteers affiliated with third parties such as NGOs, and continue the ability of NGOs, philanthropic organizations, societies, and other organizations to enter into agreements with BC;
- Create more equitable treatment between a person ordered to provide support in an emergency and one who willingly provides support; and,
- Recognize that service provider organizations can be impacted by emergencies and may need support during response and recovery.

🕑 🖹 端 🌽

Modernizing BC's Emergency Management Legislation

Preparedness for Volunteers & NGOs

New Definitions

To ensure consistent interpretation of new and existing laws and regulations related to volunteers and enable the Province to enter into agreements with third-party service providers, the following is proposed.

It is proposed to:

Have new definitions that would clearly distinguish the difference between a registered volunteer, convergent volunteer, and service provider:

Registered volunteers would be specialized disciplines prescribed by regulation and:

- Receive no remuneration for their service;
- Be provided with civil liability protection under the Act, workers' compensation and liability insurance;
- Obtain and retain registered status with the Province or other entities according to the regulation;
- Operate under Local Authority or direction of the requesting agency;
- May provide direction to convergent volunteers;
- Operate in all phases of
- emergency management; and,
- May receive time limited employment protection according to the Act.

Convergent volunteers would not be registered and would:

- Receive no remuneration for their service;
- Arrive on scene offering support and assistance;
- Be supervised by the Local Authority, the Province, or a registered volunteer to be able to receive workers' compensation and other benefits; and,
- Receive civil liability protection under the Act.

Service Providers may be a registered charity, philanthropic organization, society or other organization. The new legislation will include an explicit authority for the Minister (or designate) and Local Authorities to enter into agreements with Service Providers. Such agreements could:

Authorize the Service Provider
 to deliver emergency response
 or recovery services or arrange
 for the deployment of staff or
 affiliated volunteer personnel.
 For clarity, personnel deployed
 on behalf of a Service Provider
 will be protected under workers'
 compensation and insurance
 policies secured by the Service
 Provider.

40

Legal Certainty

To provide greater legal certainty around the process to access workers compensation for injured volunteers and clarify provincial support and governance related to volunteers, the following is proposed.

It is proposed to:

Ensure that the new legislation contains an authority to prescribe classes of registered volunteers, rules around supports for volunteers, and develop and implement a supporting regulation. Having the ability to prescribe classes of registered volunteers in a regulation allows for flexibility over time to accommodate new areas of specialized volunteer disciplines. Policy instruments would continue to be used for discipline-specific program rules and guidelines such as reimbursement rates and safety conditions.

It is proposed to:

Job-Protected Leaves

To provide job-protected leaves for persons ordered to provide assistance and for those registered volunteers specifically requested to provide support, the following is proposed. Carry forward the existing section 25 of the EPA that provides that persons ordered to assist during a declared Provincial State of Emergency or a State of Local Emergency cannot have their employment terminated for complying with that order.

 Establish job-protected leave without pay for "registered volunteers." This provision would be restricted to those registered volunteers specifically requested by a Local Authority or a BC agency to support emergency response. Job-protected leaves would not be conditional on a State of Local Emergency or Provincial State of Emergency being declared.

Page 83 of 524

Modernizing BC's Emergency Management Legislation

Ensuring Fairness to Employers

To ensure fairness to affected employers, the following is proposed.

It is proposed to:

- Require Local Authorities or a BC agency requesting the registered volunteer to:
 - Document their initial request for the volunteer;
 - Confirm the duration of the deployment;
 - Confirm that the volunteer was in fact present for the emergency response; and,
 - Make this documentation available on request of the employer.
- Provide a process by which an employer could dispute the ongoing deployment of the employee in a volunteer capacity with the responsible Local Authority or BC agency because the employee is critical to business continuity or other hardship.

It is proposed to:

- Include a civil liability protection provision for registered and convergent volunteers, boards of search and rescue societies, authorized persons offering support from another jurisdiction, persons authorized or ordered to provide assistance under a State of Local Emergency or Provincial State of Emergency, provincial government employees and officials, Local Authority employees and officials, the Minister and the Provincial government as a whole, similar to what is set out in the Wildfire Act;
- A new civil liability clause will clarify that no legal proceedings can be commenced or maintained against a protected person or entity because of anything done or omitted in the course of undertaking a power, duty or obligation resulting from the legislation or associated regulations. Including the BC government and Local Authorities as protected entities is intended to acknowledge that unavoidable property damage or losses can result from governments' response to a given hazard, and that climate change is increasing the overall frequency of events; and,
- Bad faith or grossly negligent actions or omissions will be exempt from civil liability protection, as is the case under the current EPA.

Protection from Civil Liability

To protect volunteers and others from civil liability, the following is proposed.

Supporting & Empowering Citizens, Visitors & Businesses

Citizens can be encouraged to participate in an all-of-society approach to emergency management through information, education, building codes, access to information about hazards, risk, preparedness and response (e.g., evacuation routes), purchasing adequate personal insurance, and taking active roles during recovery. It's also important to provide citizens and visitors with accurate and timely information before, during and after emergencies, and to ensure that public notifications and warnings are widespread and well-understood.

The Province is not contemplating legislative changes that would specifically address the role of citizens and businesses in emergency management. We will build on existing programs and actions by enhancing the promotion of citizen and business involvement across all four emergency management pillars — mitigation, preparedness, response and recovery. This would build on current education and promotional initiatives at the provincial and local levels, such as:

 Strengthening provincial education and preparedness and mitigation initiatives such as Partners in Preparedness, Master of Disaster, High Ground Hikes, and FireSmart;

- Making materials available in additional languages;
- Developing initiatives to better reach vulnerable people;
- Strengthening and expanding the role of business partnerships (e.g., with the real estate community and tourism sector);
- Expanding social media such as Twitter, Facebook and webpages;
- Encouraging local governments to undertake more education and promotion and to encourage citizen participation in emergency management planning; and,
- Increasing citizens' awareness and participation in emergency planning, at an individual and community level, through transparent access to hazard information.

Citizen Preparedness

There are no identified jurisdictions that legislate citizens to be prepared or to undertake mitigation measures. Even Japan — often characterized as the "most prepared country in the world" for disasters — does not appear to mandate citizen preparedness, favouring instead robust public awareness programs, including regular drills (some of which involve hundreds of thousands of citizens), guides and brochures, and access to hazard and response planning information.

43

Financial Considerations

The Province recognizes that not all of the financial elements required to support the modernization of the emergency management system will be enabled through changes to legislation.

Signalling a commitment to a modernized emergency management system will require new investment with the objective of ensuring all four pillars are supported by stable, responsive and transparent funding mechanisms while meeting the Province's fiscal mandate and maintaining the flexibility to invest year-end funds when available.

The resourcing implications for provincial government bodies, local governments, First Nations, other emergency management partners and stakeholders required to deliver on any new emergency management obligations will be considered as legislation is developed, recognizing the importance of supporting their capacity to deliver. The capacity of partners to deliver will also inform the phasing-in of any new obligations.

The Province will continue to work to maximize opportunities to partner with the federal

government to fund or co-fund emergency management activities as their support is essential in modernizing the emergency management system. The Province will also continue to advocate at the federal level for increased funding supports to meet the needs of British Columbians.

The Province continues work to improve its policies, procedures and administrative processes to ensure Local Authorities, First Nations, and service providers are transparently and efficiently reimbursed for response and recovery costs.

The Province recognizes that investments in mitigation and preparedness can reduce risk and reduce or avoid expenditures associated with emergency events.

In addition to traditional financial approaches currently being utilized, the Province will be guided in this consultation process with input on any new or emerging funding approaches, such as incentives to shift behaviour, as well as public and private partnerships that encourage disaster mitigation efforts.

Attachment # 5.5

. J

Compliance & Enforcement

Many of the proposed changes to BC's emergency management legislation involve obligations for emergency management partners to reduce risk and enhance resilience. The Province will work with partners on voluntary measures to enhance compliance with these requirements (e.g. training, guidance documents, phased implementation, planning assistance, etc.). Voluntary compliance is the preferred mechanism for reducing risk and improving resilience. At the same time, mechanisms are required to ensure that obligations under the Act are met where voluntary compliance is not achieved. The current EPA does not have an extensive compliance and enforcement regime. It includes a provision that creates an offence for any contravention of the Act or its regulations or for interference with the exercise of powers or performance of duties under the Act. The penalty for committing an offence is imprisonment for not more than one year or a fine of not more than \$10,000, or both. As part of modernizing the Act, consideration will be given to what additional compliance and enforcement provisions (e.g., fines or other penalties) may be appropriate.

Tell us more:

- What tools should be available (in legislation or otherwise) to ensure compliance with the new Act?
- What incentives may be useful or appropriate?
- What penalties or enforcement mechanisms may be appropriate for non-compliance with the new Act?

45

Page 87 of 524

Modernizing BC's Emergency Management Legislation

Next Steps & How to Participate

Comments on the proposals outlined in this discussion paper can be submitted online at **engage.gov.bc.ca/govtogetherbc/consultation/emergency-program-act-modernization**, or by email at **EmergencyProgramAct@gov.bc.ca**, until January 31, 2020.

Questions to consider include:

- Will the proposed legislative changes promote a shift to a focus on disaster risk reduction?
- Will the proposals encourage an all-of-society approach to emergency management?
- Are there other measures that could be considered to improve our approach to emergency response?
- Are the proposed new recovery tools useful and appropriate?

- Are there other ways to advance reconciliation and recognize First Nations as emergency management partners?
- What issues are important to consider with regard to critical infrastructure?
- What support would be needed to implement these proposals? Examples include training on the new requirements, templates for emergency management plans, and additional expertise and capacity.

Feedback will inform next steps regarding the proposed changes to ensure they successfully deliver a modernized emergency management framework. In the spring of 2020, we will release a What We Heard report that summarizes the feedback received. The feedback will be used to inform and shape the final legislative changes, culminating in a new emergency management Act planned to be introduced in the Legislative Assembly in the fall of 2020.

Modernizing BC's Emergency Management Legislation

46

What Will Change with Emergency Management Modernization? A Hypothetical Scenario

Scenario:

In December, a massive landslide occurs in BC's interior. Road access is cut off to a small municipality and a First Nations reserve. Several homes in a new subdivision within the municipality suffer major damage. A natural gas pipeline is damaged. Supply is interrupted, and service may need to be shut off to communities in the Lower Mainland. With a forecasted long-term cold spell, there are significant concerns about homes, businesses and critical infrastructure, such as schools and health care facilities, having heat during the winter.

The reason for the landslide is still being investigated, but slope instability due to a wildfire five years ago and associated deforestation are main contributors.

See the next page for an illustration of how this event could unfold under the current EPA, compared to under a modernized emergency management act.

Page 89 of 524

What Will Change with Emergency Management Modernization? A Hypothetical Scenario

How this hypothetical event could unfold under the current Emergency Program Act (EPA):

- As is the case with many emergencies, the landslide catches the impacted municipality and First Nation by surprise.
 - The risk of such a landslide was not assessed by the municipality, in part because its plan was not updated for post-wildfire risks.
 - Provincially-held post-wildfire risk data for previous years was not readily available to the municipality through a central location.
 - As a result, planning for alternate supply and egress routes for the municipality and the First Nation did not occur, resulting in significant challenges (e.g. transport of acute care patients to hospital, and delivery of food and fuel to the community).
- Landslide risk was not accounted for when the new subdivision was approved. Without a full risk assessment or mitigation strategies, some houses were constructed in a landslide hazard area.
- The municipality's emergency plan was not exercised, leading to confusion and delays in the early stages of response for both the municipality and the neighbouring First Nation.
- Response efforts by the Province are hampered by a lack of information regarding the gas line operator's emergency plan. While the gas line owner has plans in place, these plans have not been shared with EMBC, the municipality, or the First Nation.
- The Lower Mainland municipalities that may have their gas supply cut off are unaware that a shutoff strategy is included in the gas line operator's plan regarding pipeline breaches and are unaware that service may take up to three months to restore if it is shut off.
- The municipality's emergency plan does not address the recovery phase, hampering community recovery efforts in the coming weeks and months.

How this hypothetical event could unfold under a modernized emergency management act:

- The event creates challenges, but the impacted partners are not caught by surprise and are able to mount a quick and cohesive response effort.
- The risk of a landslide is identified in the municipality's mandated emergency plan. Risk identification and assessment are aided by simplified access to provincially-held risk data.
- The placement of several lots in the new subdivision was altered to account for the landslide risk, and no homes are significantly damaged in the landslide.
- Based on the identified landslide risk, the community has established access to an adjacent Forest Service Road to act as an alternate supply and egress route.
- The municipality and the First Nation recently held a small joint exercise of their mutually-shared emergency plans, which greatly improves response operations following the landslide.
- The Province, impacted municipality and First Nation, and Lower Mainland municipalities have access to key information about the gas line operator's emergency plan, allowing them to plan for gas line risks and interruptions. Lower Mainland municipalities work with the gas line operator to suggest customer prioritization (e.g. critical facilities and vulnerable populations) and shutdown procedures that will safeguard public safety. Emergency Management BC and the Ministry of Energy, Mines and Petroleum Resources have already worked with the gas line operator to complete provincial energy disruption planning.
- The municipality has a basic plan in place for the recovery phase, which speeds recovery in the weeks and months ahead.
- Overall, the partners can respond to and recover from this event, having
 previously identified the risks, engaged in mitigation where practical and
 cost effective, and shared and exercised plans together.

What Will Change with Emergency Management Modernization? A Hypothetical Scenario

A2

Modernizing BC's Emergency Management Legislation: Key Policy Shifts at a Glance

All four emergency management pillars (mitigation, preparedness, response, recovery) are recognized in legislation:

- Require provincial ministries, Crown corporations and agencies to:
 - Have programs and plans to deal with continuity of services;
 - Develop emergency management plans;
 - Exercise and review their plans; and
 - Carry out duties related to mitigation, preparedness, response and recovery as assigned by the Minister responsible for emergency management.
- Require Local Authorities to:
 - Meet clear requirements for the content and exercising of plans, and their review cycle;
 - Identify, understand and assess hazards, risks and vulnerabilities, and establish associated mitigation plans for high-risk hazards; and,
 - Develop post-disaster needs assessments and post-disaster recovery plans.
- Require Local Authorities and provincial subdivision approving officers to give greater consideration to current and future risk for development and building approvals, and require mitigation measures when development and building are approved in hazardous areas.

First Nations are recognized as emergency management partners:

- Expand the definition of "emergency" to include actions to protect community well-being, significant Indigenous cultural sites, and the environment;
- Provide clear authority for the Minister and Local Authorities to enter agreements with individual First Nations or First Nations groups;
- Require Local Authorities preparing emergency management plans to consult with First Nations:
- Require critical infrastructure operators to provide emergency management information to First Nations upon request;
- Require consideration of Indigenous and traditional knowledge in the development of hazard risk and vulnerability assessments by provincial entities and Local Authorities: and
- Establish that provincial entities and Local Authorities must consider cultural safety and inclusiveness when developing and implementing emergency management plans.

A3

Modernizing BC's Emergency Management Legislation: Key Policy Shifts at a Glance

Greater recognition of critical infrastructure as an integral part of emergency management:

- Enable creation of a registry of critical infrastructure to better understand both risk and the assets available during response and recovery and inform development of supply chain management strategies;
- Require critical infrastructure emergency plans to address all four pillars; and,
- Require specific emergency management planning documentation, which could include a "statement of assurance" for certain operators, to ensure information is readily available before, during and after events.

Better tools for response and recovery:

- Set the initial duration and renewal period for a provincial state of emergency at a maximum of 28 days (currently 14) and for a local state of emergency at 14 days (currently 7);
- Create a new provision to allow the Minister to grant a Local Authority the use of specific powers for a "transition period" between response and the end of the recovery phase of up to 90 days;
- Enable Local Authorities to make emergency amendments to Official Community Plans, Regional Growth Strategies, zoning, or bylaws;
- Enable, by regulation, standards for emergency public notifications and warnings; and,
- Clarify how existing provincial powers would apply during a catastrophic event.

Greater recognition and protection for volunteers:

- Define service providers and provide clear authority for the Minister to enter into agreements with them;
- Clearly define different types of volunteers;
- Modernize civil liability protection to better deter nuisance lawsuits; and,
- Establish job-protected leaves for volunteers with specialized skill sets.

Stronger coordination, collaboration and provision of information between emergency management partners:

- Require ministries, Crown corporations, agencies and other public sector entities (such as school districts, universities, colleges, and health authorities) to participate in the development of integrated plans for which they are not the lead;
- Enable Local Authorities and First Nations to enter into agreements to do integrated or joint planning and to voluntarily form unified Local Authorities to do some or all emergency management functions;
- Enable the Minister to direct Local Authorities to collaborate and coordinate at a regional scale for risk assessment, mitigation planning and mitigative works, and enable establishment of regulatory or non-regulatory incentives for collaboration and coordination;
- Require Local Authorities to provide plans to neighbouring jurisdictions (including First Nations), to the Province, and stakeholders such as critical infrastructure operators and consider any feedback; and,
- Require Local Authorities preparing emergency plans to consult with First Nations.

Greater confidence in the emergency management system:

- Establish a requirement for the Province to centrally house and provide transparent data on hazard, risk and vulnerability assessments or mitigation planning documents conducted or prepared by provincial ministries, Crown corporations and agencies, Local Authorities, and critical infrastructure operators;
- Require provincial ministries, Crown corporations and agencies and Local Authorities to register their emergency management plans with EMBC; and,
- Enable EMBC to audit emergency management plans and make the results public.

Modernizing BC's Emergency Management Legislation: Key Policy Shifts at a Glance

Grand Forks Community Action Team, Prevention and Education Sub-committee E-mail: gfbc.cat@gmail.com

December 18th, 2019

Greetings,

The Grand Forks Community Action Team (GFCAT) has been formed as a means to assist our community in addressing the opioid overdose crisis. Grand Forks has a high rate of overdoses. We are seeking your support to aid us in our prevention and educational endeavours within our community.

We are very lucky to have access to a video series called, "Beyond the Stigma of Drug Use" that was developed by ANKORS and the Nelson area's team. We invite you to view the videos, and assist us in the manner most fitting for your organization.

We recognize that it may not be feasible for your group to view, or share, the series in its entirety at one time. In this circumstance, we would suggest perhaps a video rotation with one per week to allow comprehension and discussion. We would welcome those who've digital signage or displays available, to utilize these for this purpose. Please note, closed captioning is available within the YouTube videos. There may be another format available for those requiring one. Please contact us if this is the case.

Organizations are also encouraged to distribute these with their staff, clients/programs, and members. This can be done in group settings, newsletters, posting on websites or Facebook pages, or e-mailed to individuals.

Everyone may also participate in the efforts to raise awareness by sharing the link with their families and friends.

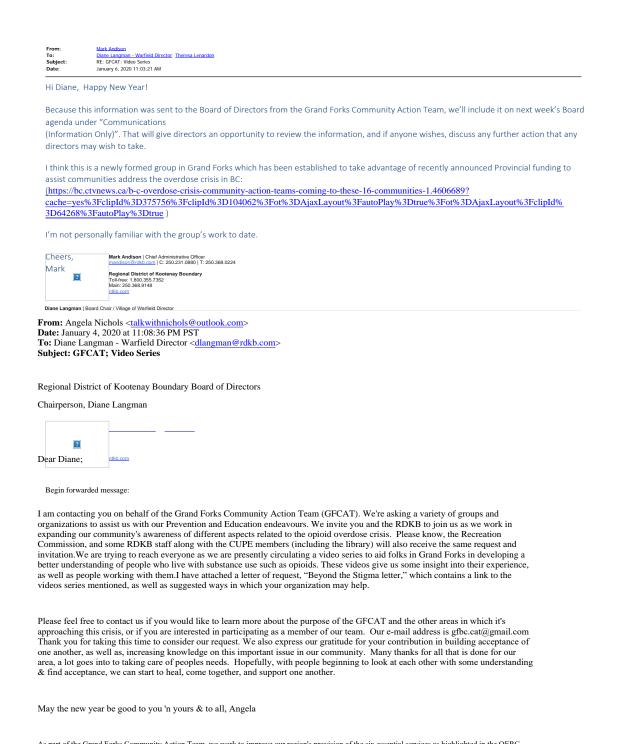

AIDS Network Kootenay Outreach and Support Society, ANKORS Beyond the Stigma of Drug Use Video Series: https://www.youtube.com/playlist?list=PLdpQAmZUr_nVNcvFfbafTWy4qSBYDa754

We are thankful to all the people that appeared in the video series and those who worked on its development. We acknowledge and honor the courage & wisdom shared in the expression of their experiences.

Thank you for considering your involvement. We appreciate all efforts made in this regard.

With gratitude,

Tanis Carson, Melissa Shulga, and Angela Nichols On Behalf of, the Grand Forks Community Action Team, Prevention and Education Sub-committee

As part of the Grand Forks Community Action Team, we work to improve our region's provision of the six essential services as highlighted in the OERC mandate: Naloxone, Overdose Prevention Services, Acute overdose risk case management, Treatment and Recovery, Social stabilization, Peer empowerment and employment, Cultural safety and humility, and Addressing stigma, discrimination and human rights. If you wish to learn more, I've provided the following link. Overdose Emergency Response Centre, Terms of Reference: https://www2.gov.bc.ca/assets/gov/overdose-awareness/terms_of_reference_nov_30_final.pdf

Boundary Community Development Committee

Minutes Friday, December 13, 2019 RDKB Board Room, Grand Forks, BC

Committee members present:

Director G. McGregor, Chair Director R. Russell Director V. Gee Director G. Shaw Alternate Director C. Korolek

Committee members not present:

Director R. Dunsdon

Staff present:

M. Andison, Chief Administrative Officer

- J. Chandler, General Manager of Operations/Deputy CAO
- F. Maika, Corporate Communications Officer

CALL TO ORDER

The Chair called the meeting to order at 2:00 pm.

ADOPTION OF AGENDA (ADDITIONS/DELETIONS)

The agenda for the December 13, 2019 Boundary Community Development Committee meeting was presented.

Moved: Alternate Director Korolek Seconded: Director Shaw

That the agenda for the December 13, 2019 Boundary Community Development Committee meeting be adopted as presented.

Carried

Page 1 of 4 Boundary Community Development Committee December 13, 2019

Page 1 of 4

ADOPTION OF MINUTES

The minutes from the December 4, 2019 Boundary Community Development Committee meeting will be provided at the January 2020 meeting.

GENERAL DELEGATIONS

There were no delegations present.

UNFINISHED BUSINESS

J. Chandler, General Manager of Operations/Deputy CAO Re: BC Transit Discussion

There was general discussion regarding the status of the transit service and current limitations for service based on costs. J. Chandler introduced the challenges to the Committee, relating to the budget, timing of the RFP for BC Transit service requests and the requirements for public consultation. Staff were seeking guidance on public engagement timing, content and budget levels for 2020.

From discussion, it was generally agreed that:

The 2020 budget will remain at the limit of taxation for the transit service and this will be communicated to BC Transit and likely lead to a reduction in service levels, following the request for proposals that will be issued early 2020 by BC Transit.

Staff will continue to work with BC Transit and report back to the committee in February.

A 'final draft' of the public engagement plan will be presented in January. Generally, it was agreed that the public engagement would be undertaken as soon as possible and be included on-line and at Town Hall meetings for Area 'C' and 'D'. Information will provided to present the current situation and options ahead for the service and may include the following questions for response"

- Maintain service level and increase the budget
- Increase the service levels and increase the budget
- Reduce the service to limit taxation / budget increase

Early feedback and public consultation will be considered for determining the next steps for the service and if there is interest in pursuing a referendum to increase the budget for the 2021 budget year.

Page 2 of 4 Boundary Community Development Committee December 13, 2019

Page 2 of 4

Discussion also included the need for a future fare box review with BC Transit and options for alternate service models that may include more than one transit service within the Boundary region.

NEW BUSINESS

J. Chandler, General Manager of Operations/Deputy CAO Re: 2020 Boundary Economic Development Service (008) Work Plan

The 2020 Boundary Economic Development Service (008) work plan was attached for information.

The Committee members discussed Imagine Kootenay, the Boundary Agriculture Food and Advisory Committee and Plan and a quote from Community Futures Boundary to manage and oversee Imagine Kootenay and Insiders App.

Projects were discussed as follows:

- Regional Trails Master Plan;
- Community Forests;

Agriculture Plan - contract, meetings, food/mileage and who manages and coordinates meetings.

Moved: Director Dunsdon Seconded: Director Shaw

That the 2020 Boundary Economic Development Service (008) work plan be received and referred to a future meeting.

Carried

LATE (EMERGENT) ITEMS

There were no late (emergent) items for discussion.

DISCUSSION OF ITEMS FOR FUTURE AGENDAS

A discussion of items for future agendas was not required.

QUESTION PERIOD FOR PUBLIC AND MEDIA

A question period for public and media was not required.

Page 3 of 4 Boundary Community Development Committee December 13, 2019

Page 3 of 4

CLOSED (IN CAMERA) SESSION

A closed (in camera) session was not required.

ADJOURNMENT

The meeting was adjourned at 3:45 pm.

Boundary Community Development Committee

Minutes Wednesday, December 4, 2019 RDKB Board Room, Grand Forks, BC

Committee members present:

Director G. McGregor, Chair Director R. Russell Director V. Gee Director R. Dunsdon Director G. Shaw Alternate Director C. Korolek

Staff and others present:

- J. Chandler, General Manager of Operations/Deputy CAO
- M. Forster, Executive Assistant/Recording Secretary
- P. Keys, Manager of Facilities and Recreation
- F. Maika, Corporate Communications Officer
- K. Anderson, Watershed Planner
- M. Mitchell, Commissionaires
- C. Mossey, Manager, Government Relations, BC Transit
- S. Elzinga, Community Futures Boundary

CALL TO ORDER

The Chair called the meeting to order at 10:00 am.

ADOPTION OF AGENDA (ADDITIONS/DELETIONS)

The agenda for the December 4, 2019 Boundary Community Development Committee meeting was presented.

The agenda was amended by a change in order of agenda items and the addition of late items:

1. Fringe Agreements

Page 1 of 7 Boundary Community Development Committee December 4, 2019

Page 1 of 7

2. Wild Fire Resilience Workshop

Moved: Director Dunsdon Seconded: Alternate Director Korolek

That the agenda for the December 4, 2019 Boundary Community Development Committee meeting be adopted as amended.

Carried.

ADOPTION OF MINUTES

The minutes of the November 6, 2019 Boundary Community Development Committee were presented.

Minor changes were made to Director Gee's discussion items.

Moved: Director Gee Seconded: Director Russell

That the minutes of the November 6, 2019 Boundary Community Development Committee be adopted as amended.

Carried

GENERAL DELEGATIONS

There were no delegations present.

OLD BUSINESS

There was no old business for discussion.

NEW BUSINESS

Simone Carlysle-Smith, Project Manager, TOTA Re: Boundary Country Update - November 30, 2019

The TOTA Monthly Update was presented for information.

Moved: Director Shaw Seconded: Director Dunsdon

Page 2 of 7 Boundary Community Development Committee December 4, 2019

Page 2 of 7

That the TOTA Monthly Update be received as presented.

Carried

S. Elzinga, Community Futures Boundary Re: Imagine Kootenay Update

Ms. Elzinga attended the meeting to provide the Committee members with an update and presentation on Imagine Kootenay activities. She highlighted a detailed breakdown of contractual obligations and the summary of outcomes.

Ms. Elzinga left the meeting at 10:40 am.

Mike Mitchell - Commissionaires Re: Village of Midway Proposal

Mr. Mitchell attended the meeting and provided the Committee members with a quote to provide animal control services for the Village of Midway. Discussion ensued around the billing rates for call outs and adding the Village of Midway to the existing contract. Director McGregor requested that Mr. Mitchell attend the BCDC meetings twice a year to provide the Committee with updates as well as providing a report on what calls are for.

Mr. Mitchell left the meeting at 10:30 am.

Chelsea Mossey - Manager, Government Relations - BC Transit Re: Presentation

Ms. Mossey provided the Committee members with a presentation on the Boundary Transit System with a review of operations, contracted operations and a proposed path forward. Discussion ensued around considerations for the future Boundary Transit System. Ideas included: not paying any more money towards the service, keeping the service and paying more money and improving the existing system and asking for more money. F. Maika, Corporate Communications Officer, spoke to communications issues around public engagement. The Committee members agreed to hold another BCDC meeting to discuss the Boundary Transit System. Staff will send out meeting requests for a BCDC meeting to be held on December 13, 2019.

Moved: Director Shaw Seconded: Director Russell

That the Boundary Community Development Committee hold another transit meeting in December 2019.

Page 3 of 7

Carried

Ms. Mossey left the meeting at 11:20 am.

K. Anderson, Watershed Planner Re: Boundary Integrated Watershed Service (BIWS) Monthly Update

The December 2019 report on activities of the BIWS was presented.

Moved: Director Dunsdon Seconded: Director Shaw

That the staff report regarding the BIWS progress for November 2019 be received as presented.

Carried

P. Keys, Manager of Facilities and Recreation Re: 2020 Grand Forks Curling Rink Service (031) Work Plan

The 2020 Grand Forks Curling Rink Service (031) work plan was attached for information.

Director Russell suggested that the proposed community centre having a negative impact on rink revenue should be added to the risk factors in the work plan.

Moved: Alternate Director Korolek Seconded: Director Russell

The 2020 Grand Forks Curling Rink Service (031) work plan be received and referred to a future meeting.

Carried

J. Chandler, General Manager of Operations/Deputy CAO Re: 2020 Boundary Economic Development Service (008) Work Plan

The 2020 Boundary Economic Development Service (008) work plan was attached for information.

Moved: Director Shaw Seconded: Director Dunsdon

Page 4 of 7 Boundary Community Development Committee December 4, 2019

Page 4 of 7

That the discussion of the 2020 Boundary Economic Development Service (008) work plan be deferred to the December 13, 2019 BCDC meeting.

Carried

P. Keys, Manager of Facilities and Recreation Re: 2020 Grand Forks Arena Service (030) Work Plan

The 2020 Grand Forks Arena Service (030) work plan was attached for information.

Moved: Alternate Director Korolek Seconded: Director Russell

The 2020 Grand Forks Arena Service (030) work plan be received and referred to a future meeting.

Carried

P. Keys, Manager of Facilities and Recreation Re: 2020 Grand Forks Aquatic Centre Service (040) Work Plan

The 2020 Grand Forks Aquatic Centre Service (040) work plan was attached for information.

Moved: Director Russell Seconded: Alternate Director Korolek

The 2020 Grand Forks Aquatic Centre Service (040) work plan be received and referred to a future meeting.

Carried

P. Keys, Manager of Facilities and Recreation Re: 2020 Recreation Program Service (021) Work Plan

The 2020 Recreation Program Service (021) work plan was attached for information.

Moved: Director Russell Seconded: Alternate Director Korolek

The 2020 Recreation Program Service (021) work plan be received and referred to a future meeting.

Page 5 of 7 Boundary Community Development Committee December 4, 2019

Page 5 of 7

Carried

The Committee recessed for lunch at 11:50 am and reconvened at 12:30 pm.

M. Andison, Chief Administrative Officer Re: Draft MOU with Community Futures Boundary for Provision of Grand Forks Area Economic Development Services

A staff report from Mark Andison, Chief Administrative Officer, presenting for review a draft Memorandum of Understanding with Community Futures Boundary (CFB) establishing an understanding between the parties regarding a contract to provide economic development services for the new RDKB Grand Forks Area Economic Development Service after the Rural Dividend Program funding has been depleted.

The Committee members reviewed the MOU and were supportive.

Moved: Director Russell Seconded: Alternate Director Korolek

That the draft MOU will be discussed with Community Futures Boundary staff before being finalized.

Carried

LATE (EMERGENT) ITEMS

Wildfire Resilience Workshop

Director Gee informed the Committee members of a Wildfire Resilience Workshop that she recently attended with Director McGregor. The workshop was attended by FLNRORD officials and other branches of the Ministry as well as a small number of communities' representatives. The Ministry informed the participants that wildfire resilience activities will no longer be proponent led but will be resource management led.

Fringe Agreements

Director McGregor explained the meaning of fringe agreements to the Committee.

Director Dunsdon informed the Committee members of a cannabis production business being built west of Midway of which the Village knew nothing about. Discussion ensued on the lack of zoning in the area. This issue will be discussed with the Planning Department and the Electoral Area Services Committee.

Page 6 of 7 Boundary Community Development Committee December 4, 2019

Page 6 of 7

DISCUSSION OF ITEMS FOR FUTURE AGENDAS

A discussion of items for future agendas was not required.

QUESTION PERIOD FOR PUBLIC AND MEDIA

A question period for public and agendas was not required.

CLOSED (IN CAMERA) SESSION

A closed (in camera) session was not required.

ADJOURNMENT

The meeting was adjourned at 12:42 pm.

LWMP Stage 3 Steering Committee

Minutes Monday, December 16, 2019 RDKB Boardroom, Trail BC

Committee members present:

Director R. Cacchioni, Chair Director A. Morel Director L. Worley Director D. Langman

Staff present:

J. Dougall, General Manager of Environmental Services

G. Denkovski, Manager of Infrastructure and Sustainability

M. Forster, Executive Assistant/Recording Secretary

G. Wiebe, Engineering and Safety Coordinator

CALL TO ORDER

The Chair called the meeting to order at 12:00 pm.

ELECTION OF THE VICE-CHAIR

Committee Chair Cacchioni called a first time for nominations for the position of Vice-Chair of the LWMP Stage 3 Steering Committee for the year 2020. Director Morel expressed his interest in the position. There were no other expressions of interest.

Moved: Director Cacchioni

That Director Morel be nominated as Vice-Chair of the LWMP Stage 3 Steering Committee for the year 2020.

Committee Chair Cacchioni called a second time for the position of Vice-Chair of the LWMP Stage 3 Steering Committee.

Page 1 of 5 LWMP Stage 3 Steering Committee December 16, 2019

Page 1 of 5

Committee Chair Cacchioni called a third and final time for the position of Vice-Chair of the LWMP Stage 3 Steering Committee.

Hearing no further nominations, Director Morel was declared, by acclamation, Vice-Chair of the LWMP Stage 3 Steering Committee for the year 2020.

CLOSED (IN CAMERA) SESSION

Proceed to a closed meeting pursuant to section 90 (1) (k) of the Community Charter.

Moved: Director Worley Seconded: Director Morel

That the LWMP Stage 3 Steering Committee proceed to a closed meeting pursuant to Section 90 (1) (k) of the *Community Charter* at 12:03 pm.

Carried

The LWMP Stage 3 Steering Committee reconvened to the open meeting at 12:21 pm.

ACCEPTANCE OF AGENDA (ADDITIONS/DELETIONS)

The agenda for the December 16, 2019 Steering Committee meeting was presented.

Moved: Director Morel Seconded: Director Langman

That the agenda for the December 16, 2019 Steering Committee meeting be adopted as presented.

Carried

ADOPTION OF MINUTES

The minutes for the Steering Committee November 7, 2019 meeting were presented.

Moved: Director Langman Seconded: Director Morel

That the minutes of the Steering Committee November 7, 2019 meeting be adopted as presented.

Carried

UNFINISHED BUSINESS

There was no unfinished business for discussion.

NEW BUSINESS

G. Denkovski

Re: Updated Estimate for the Columbia Pollution Control Center Secondary Treatment Upgrade

A Staff Report from Goran Denkovski, Manager of Infrastructure and Sustainability regarding the Columbia Pollution Control Center (CPCC) Secondary Treatment Upgrade grant opportunity.

Moved: Director Langman Seconded: Director Morel

That the Steering Committee recommend to the Board of Directors to give first, second and third readings to a loan authorization bylaw for \$17,000,000 to fund the RDKB portion of the CPCC Secondary Treatment Upgrade project.

That the Steering Committee direct Staff to request a letter of support for the CPCC Secondary Treatment Upgrade project from the 700 Sewerage Service participants and funder.

That the Steering Committee direct Staff to request that the 700 service participants provide water conservation plans that were endorsed in the last 5 years.

That the Steering Committee recommend to the Board of Directors to direct Staff to submit an application for grant funding application for the CPCC Secondary Treatment Upgrade through the ICIP – Green Infrastructure: Environmental Quality Sub-stream; and Further, that the Board of Directors supports the project and commits to its share of \$17,000,000 of the project.

Carried

Moved: Director Langman Seconded: Director Morel

That the LWMP Stage 3 Steering Committee directs Staff to invite the Cities of Trail and Rossland and Village of Warfield councils and Electoral Area B to an information session which would which would also include a tour of the existing plant.

Page 3 of 5 LWMP Stage 3 Steering Committee December 16, 2019

Page 3 of 5

Carried

The letter/invitation will come from the Committee and be endorsed by the Board of Directors.

Discussion of November 7, 2019 LWMP Stage 3 Steering Committee Minutes and "Discussion of Items for Future Agendas"

Discussion ensued on the "Discussion of Items for Future Agendas" whereby Director Cacchioni would be contacting MP Richard Cannings and request that he lobby on our behalf in Ottawa. Director Langman expressed her concerns about proposed communications with government officials over funding levels and pursuing funding limits and that energy should be focused on drawing attention to the project not the grant. The Committee expressed differing ideas on the level of funding. The Committee also discussed the timelines of invitations for government officials to visit the RDKB and providing more information to increase their level of understanding of the waterways in the area.

Director Morel suggested that the letter to MP Richard Cannings should inform him that the RDKB is pursuing this aggressively and would like the opportunity to sit down with government officials to bring the idea that RDKB is wondering if there is anymore funding beyond what the grant details are.

Moved: Director Langman Seconded: Director Morel

That the LWMP Stage 3 Steering Committee directs staff to write a letter to MP Richard Cannings, with cc's to Catherine McKenna, Ministry of Infrastructure, Selina Robinson, Minister of Municipal Affairs and Housing, and Katrine Conroy, MLA - Kootenay West, providing awareness and education of the project, discussion on the funding formula and possible change, location and information on the Columbia River Treaty and escalation of costs amounting to over \$20 million over five years.

Carried

The letter of invitation to government officials will be sent by the end of February 2020. Staff will also update and upgrade the briefing notes provided today and provide them to the Committee for review in advance of release.

November 21, 2019

To: ISPARC Healthy Living Activities Team Re: Honour Your Health Challenge

I am pleased to write this letter in support of Judy Letendre and her co-leader Ginette Wheeler to deliver and Honour Your Health Challenge and apply for funding for Boundary Métis Community Association.

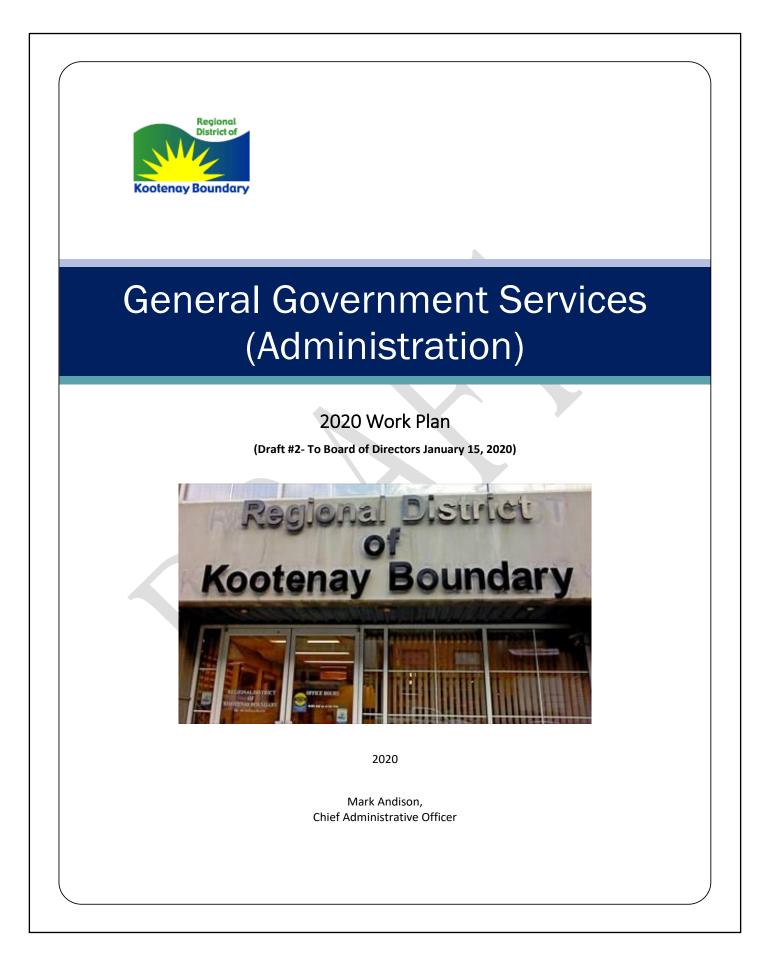

Judy has been a member of Boundary Métis Community Association since 2015. She has previously been a director and is now our Women's Rep. Over the last year she has coordinated and/or led three programs in the West Boundary area of our region. During the winter Judy and Ginette ran a snowshoe program, called Snowy Tribal Trails, on the trails in Kettle Valley Recreation area. In the spring Judy and Ginette held an after school program called Strengthening Our Spirit. At the end of June, Judy co-coordinated a one day cultural event called Healing Our Warrior Spirit. All programs were a success. She has recently or is currently involved in an Aboriginal Collaborative to help advise changes in our Primary Care Network, participated in a Rural Development Workshop, an Aboriginal Tourism Conference and a United Way Better at Homes meeting, in addition to some school activities.

This winter, Judy is planning to co-lead snowshoeing for Snowy Tribal Trails 2020 in a variety of areas in the West Boundary and they will be focusing on storytelling and warrior spirits through drumming, song and snowshoeing.

If you have any further questions, please do not hesitate to contact me at 250 442-7868

sincerely

Vice President – Boundary Métis Community Association djsioga@shaw.ca

General Government Services (Administration)

2020 Work Plan

Service Name: General Government Services

Service Number: 001

Committee Having Jurisdiction: Board

General Manager/Manager Responsible: Mark Andison, CAO

Description of Service:

This service provides legislative and administrative support to the Board.

The legislative of the service include:

- 1. Provision of broad legislative, legal and administrative support to the overall Board (001) and RDKB staff
- 2. Regional Districts must establish Statutory Officer positions (LGA 234 (1) (a)), including a position to manage legislative/corporate services
- 3. Corporate obligations are similar to those of a "clerk" and which are legislatively required for this position include the following powers, duties and functions:
 - a. ensure meeting agendas and minutes are prepared
 - b. keeping bylaws
 - c. acts as Commissioner for taking Oaths and Affidavits

- d. certifying documents and custody of the Corporate Seal
- e. processes and manages official documents related to land transactions and property transfers
- f. conflict of interest and ethics
- g. legal matters
- h. Freedom of Information Protection of Privacy Officer, and
- i. Paper and Electronic Records Management

This service also includes Finance, which is primarily responsible for compliance with the financial reporting requirements of various levels of government, including the budget and financial plan, the annual preparation of the audited Financial Statements, Statement of Financial Information Act and additional reporting required by the Ministry. Finance is also responsible for investments, risk management, insurance, asset management, payroll, accounts receivable, customer billings and supplier payments.

Also included is information technology which performs the primary functions of service desk, infrastructure, and mobile/wireless services for the organization.

The corporate communications function is also included under General Government Services, however the costs of corporate communications are shared between three services (General Government Services 55%; Electoral Area Services 35%; Emergency Preparedness 10%).

The RDKB's climate action and sustainability functions and initiatives also included under this service.

Other items included are legal support, liability insurance, consultant fees, etc.

Establishing Authority:

Local Government Act Sections 233, 234, 236, 263 RDKB Officer Establishment Bylaw No. 1050; 1999

Requisition Limit: Not Applicable

2019 Requisition / Budgeted Expenditures / Actual Expenditures:

\$251,509 / \$3,799,3379 / TBD

Regulatory or Administrative Bylaws: Proposed RDKB Procedure Bylaw No. 1616, 2016

Service Area Map

Service Area / Participants:

All Electoral Areas and Municipalities within the Regional District

Service Levels

- 1. Maintains Best Practices and protocols for Board and Committee meeting administration, keeping current with legislative changes that affect the RDKB
- 2. Committee and Board meeting scheduling and meeting notices (confirmation, cancellations etc.).
- 3. Committee and Board agendas.

- 12. Advice, information-sharing, training and coaching and support to staff as well as oversees staff administrative procedures, RDKB events, internal health and wellness matters.
- 13. Management of the Regional District's administrative facilities.
- 14. Management of the RDKB sustainability program.

- 15. Undertaking the Regional District's obligations to develop and manage an organization-wide occupational health and safety program.
- 16. AKBLG and UBCM Resolutions.
- 17. Oversees, manages and is first point of contact for employees regarding the RDKB Employee and Family Assistance Program (EFAP).

Human Resources:

Administration:

- CAO
- General Manager, Operations / DCAO (70%)
- Manager of Corporate Administration
- Executive Assistant
- Clerk Secretary/Receptionist
- Corporate Communications Officer (54%)
- Manager of Infrastructure and Sustainability (15%)
- Engineering Technician (25%)
- Manager of Facilities and Recreation (East End) (10%)
- Manager of Facilities and Recreation (Grand Forks) (5%)
- Senior Energy Specialist

Finance:

- General Manager of Finance
- Financial Services Manager
- Financial Analyst
- Financial Specialist
- Accounting Clerk/Receptionist

Information Technology:

- Manager of Information Services
- Network Infrastructure Analyst
- Web/Help Desk Analyst

2019 Accomplishments:

Since the recruitment of a new Corporate Communications Officer in late 2017, as a new position to the organization, the communications work over the past two years targeted at pursuing the core communications objectives of the organization, including:

• Ongoing communications and media relations in support of day-to-day operations and emergency operations;

- Work toward the development of a the Corporate Communications Plan to provide a roadmap for communications activities over the coming years;
- Work with Information Services to redesign and rebuild the RDKB website;
- Work with Emergency Management staff to develop an emergency communications plan that includes a separate web presence tied to the new RDKB website;
- Work on the 2019 RDKB Brand Refresh Project intended to ensure consistent and intentional visual representation of the RDKB to staff, the public and stakeholders;
- Work toward increasing the RDKB's capacity for online communication and engagement, including the development of an online engagement platform and a social media presence;
- Support to the Board and staff with ongoing internal and external communications needs ranging from media monitoring and development of plain language content to communicate about Board decisions; the 2018 Local Government Elections and Referenda; departmental projects and initiatives; and doing so using formats/media/channels suitable for a wide range of audiences.

The RDKB was successful in recruiting a new Chief Financial Officer in 2019. Having a new finance lead, combined with three of the other four positions in the department being filled by new staff to those positions in 2018, had a significant impact on the department due to the required recruitment efforts and training. It was a significant accomplishment for Finance Department staff to be able to maintain service levels to the organization, given the staffing disruptions experienced in 2019.

There was a significant increase in the number and complexity of Freedom of Information and Protection of Privacy Act requests from the public in 2019 and the volume of requests for records increased again in 2019 approximately 29% (76 requests in 2018 to 98 requests in 2019). The Manager of Corporate Administration and with the help of a new 80% FTE were able to respond to the requests well within the legislative deadlines. Managing requests for records is highly legislative and demanding. At different times, the work required uses all RDKB resources (especially Building Inspection in Grand Forks and Trail), Planning / land use and Fire for locating files, tabbing relevant records and submitting to the Corporate Officer/FOI Head for severing.

Recovery work associated with the 2018 Boundary flood event continues to consume a significant amount of staff resources.

The RDKB was successful in recruiting a new Senior Energy Specialist to implement the work identified in a funding agreement signed with FortisBC, the funding body for the new position. The work plan includes a range of both corporate and community energy and greenhouse gas reduction activities.

Staff worked with the Policy and Personnel Committee to review and update several RDKB policies as well as the current RDKB Procedure Bylaw. The policy reviews and the bylaw review and updates have been successful as the Committee and staff continue to move forward in a productive manner.

Continued support for the RDKB Occupational Health and Safety Program and the Joint Occupational Health and Safety Committee, consisting of four employer representatives and four worker representatives that steer the program, working together to identify and resolve potential health and safety risks in the workplace.

Significant Issues and Trends:

The cost of providing the administration service is distributed to services through a Board Fee. A review of the Board Fee is expected in the 2020 budget cycle.

Access to information requests continue to increase which has a significant time and resource impact on all departments. Requests are now processed on a weekly basis and with an additional 80% FTE.

Increasing involvement and partnership agreements with other local governments, non-profit and local community groups.

More public consultation, outreach required for special projects and legislative changes to respond to growing customer expectations.

Ongoing improvement in efficiency and effectiveness of action items, tasks, duties, etc.

The trend of increasing EOC activations of longer duration and complexity has the potential for significant impacts on staff resources and Work Plans. Staff involvement in Emergency Management, EOC training and activations will continue to be a growing responsibility for Regional District staff.

There will be a significant amount of time required of all management staff relating to Asset Management. It is expected that the plan will need to be developed, reviewed, and revised continuously moving forward.

With a new Senior Energy Specialist staff resource, and a signed agreement committing the RDKB to undertake specific work utilizing that resource, there will be considerable focus over the next two years on corporate and community energy and greenhouse gas reduction activities.

2020 Project Summary

2020 Projects:

Project: <u>Asset Management</u>

Project Description:

Implementation of asset management including establishing a baseline database, documentation of current practices and establishment of a decision process, model lifecycle strategies as well as establishing an asset management investment plan.

Project Timelines and Milestones:

Consultant has been engaged in the process 2018 & 2019 and is expected to be involved into 2020 working with RDKB staff.

Project Risk Factors:

There will be a significant amount of time required of all management staff. Risk is staff being able to devote time required which could mean delays in completion of project and possibly additional cost. A second risk factor is the availability of information. Legislation was introduced in 2009 with respect to recording tangible capital assets on the financial statements. The depth of data that was available prior to this is limited meaning that the asset management plan may be based at times on best estimates. This is expected that the plan will continue to be reviewed and revised.

Internal Resource Requirements:

Estimated 30% of GM of Finance time to be devoted to this initiative.

Estimated Cost and Identified Financial Sources:

A budget of \$60,000 was allocated in both the 2018 and 2019 financial plans. Similar funding levels are proposed for 2020.

Relationship to Board Priorities:

Cost Effective and Efficient Services - Having better information on assets will enable the Board to make informed decisions relating to capital planning. Board goal – cost effective services.

Project: Big White Community Issues Assessment

Project Description:

At its July 26, 2018 meeting, the Board of Directors received a request from the Big White Community Development Association to the initiate a municipal incorporation study for the Big White community. After reviewing subsequent staff reports on the issue, a number of steps have been undertaken leading toward a study being completed, including:

- a meeting with Ministry of Municipal Affairs and Housing staff at the 2018 UBCM Convention;
- a written request to the Ministry of Municipal Affairs and Housing requesting they provide the RDKB with written information and advice on how a governance review process might be designed for the community of Big White;
- a follow-up letter from the September 2018 UBCM meeting from Marijke Edmondson, Director, Governance Structures, Ministry of Municipal Affairs and Housing suggesting that the RDKB consider initiating a "community issues assessment" process rather than an incorporation study for Big White;
- A meeting members of the Big White Community Development Association to discuss the approach suggested by the Ministry;
- A formal request to the Minister of Municipal Affairs and Housing for Provincial funding to undertake the suggested Community Issues Assessment study;
- Work with Ministry of Municipal Affairs and Housing staff to develop a draft terms of reference document for the proposed study; and
- Receipt on November 20, 2019 of a letter from the Minister of Municipal Affairs and Housing confirming that \$30,000 in funding has been approved for the project.

With the recent receipt Provincial funding confirmation, the next step in the process will be to finalize the terms of reference for the project. When that step is complete, the RDKB will subsequently receive a letter and cost-share agreement specifying the terms and conditions of the grant, as well as the timelines for deliverables and payments. Once that agreement has been signed, the RDKB will be in a position to begin seeking a consultant to undertake the Community Issues Assessment work through a Request for Proposals process.

The work on this project will be coordinated by RDKB Administration staff, but input will be sought from various stakeholders, including other Regional District staff, regarding the issues identified and to be addressed in the course of the study.

Project Timelines and Milestones: Through 2020

Project Risk Factors:

The project is dependent upon \$30,000 in approved funding from the Ministry of Municipal Affairs and Housing. It is anticipated that the Community Issues Assessment process will require a considerable amount of community and stakeholder engagement to provide adequate information to assess the services that the RDKB provides to the community and any additional services that may be suggested through the process. Public engagement exercises are generally quite costly for consultants to undertake and there will need to be attention paid to the scoping of the project to ensure the work can be completed on budget.

Internal Resource Requirements:

Due to the number of services and stakeholders involved in the provision of Big White services, there will be a need for representation from several RDKB departments in the process of undertaking the Big White Community Issues Assessment.

Estimated Cost and Identified Financial Sources:

\$30,000 of funding has been approved by the Ministry of Municipal and Housing toward this project. RDKB costs for the project will consist primarily of staff time – primarily that of the Administrative staff, but also other staff will contribute to the project.

R ())	Improve and Enhance Communication – The Community Issues Assessment process will provide an opportunity for the RDKB to engage in two-way communication with community members and other stakeholders with respect to the types and adequacy of services provided at Big White.
	Cost Effective and Efficient Services – The process will provide an opportunity for a consultant, working with the RDKB and the community to assess the cost effectiveness and efficiency of current services provided to the Big White community, and potential new services.
•	Responding to Demographic / Economic / Social Change – with a changing demographic of residents at Big White, the RDKB has received requests for additional recreational services, etc. in the community. The process will provide a forum to assess those requests.

Project: Anaconda Community Water Service Establishment Review

Project Description:

The residents of Anaconda have a historic community water system through which 49 parcels and approximately 100 residents are provided water by the adjacent City of Greenwood. There is, however, no single legal entity responsible for the water system. The City of Greenwood is concerned about providing continued water service to the community without some form of legal agreement and/or entity to provide the basis for the service arrangement. The Ministry of Municipal Affairs and Housing has provided five options that may be pursued to allow the community continued access to water. One of those options entails the establishment of a Regional District of Kootenay Boundary community water service to assume ownership and operational responsibility for the system. WSP Canada Group (WSP) has provided the RDKB with an assessment of the capital and operating costs associated with the RDKB assuming control of the water system. Staff and Director Gee have been consulting with residents of Anaconda to determine whether the community is receptive to the RDKB establishing a community water service for Anaconda, considering the anticipated capital and operating costs associated with RDKB operation of the system.

Project Timelines and Milestones:

Currently, the RDKB is seeking initial input from residents of Anaconda through a "Preliminary Petition" process to determine whether there is a sufficient level of interest for the RDKB to engage in more detailed consideration of the service establishment. If more that 50% of Anaconda residents express an interest in the RDKB assuming ownership of the system, it is anticipated that the assessment and community engagement work on this project will continue through 2020 until a formal petition is presented to the residents for consideration.

Project Risk Factors:

The work associated with this project is dependent upon receiving a positive indication from residents that they are interested in the RDKB establishing a service and making the necessary capital upgrades to the water system.

Internal Resource Requirements:

This project will require involvement from various departments including: Administration to guide the petition process; Environmental Services to discuss management of the water system and capital implications; Planning to map the service area and discuss with residents parcel consolidation options; and Communications to lead the public engagement aspect of the project.

	sts associated with the project consist primarily of staff time.
	oject advances two of the Board's key strategic priorities:
	Exceptional Cost Effective and Efficient Services – This project provides an opportunity to deliver an improved level of water service to residents of Anaconda.
R ())	Improve and Enhance Communication – Engagement with Anaconda residents will allow them to make an informed decision as to whether they wish to have an RDKB water service, having considered all of the implications associated with the change.

Project: <u>Corporate Communications Plan Implementation</u>

Project Description:

Beginning in early 2018, the RDKB embarked upon the development of a corporate communications plan to guide and prioritize the work of the new position. A key deliverable of the Corporate Communications Officer was to develop and implement a Corporate Communications Plan to improve and enhance communication with those people we serve across the region.

The plan includes four focus areas:

- 1. Clear Brand
- 2. Digital Presence
- 3. Internal Expertise
- 4. Engagement

Each focus area includes corresponding strategic objectives, goals and sub-goals for the remainder of 2019 into 2020.

The plan guides the Regional District of Kootenay Boundary's communications priorities over the next year, and the Corporate Communications Officer will assess the plan each quarter and report to the Board on progress toward achieving each strategic objective and supporting goals.

Project Timelines and Milestones:

The plan was completed in summer 2019 when it received final Board approval, with implementation of the plan ongoing through 2019 and 2020.

Project Risk Factors:

The scope and nature of the work that the Corporate Communications Officer undertakes will be contingent upon budget allocations for communications initiatives in 2020.

Internal Resource Requirements:

Due to the broad corporate nature of the communications work that the Corporate Communications Officer will be engaged in, there will be a need for representation from all RDKB departments in the process of implementing the corporate communications plan.

Estimated Cost and Identified Financial Sources:

The cost of project planning consisted primarily of staff time –that of the Corporate Communications Officer, but also other staff contributed to completion of the plan. Plan implementation will require budget for ongoing major projects such as the Website Redesign Project, listed elsewhere in this work plan, as well as some costs related to Brand Refresh Project implementation including building signage and vehicle decals.

Relationship to Board Priorities:

This project primarily advances one of the Board's key strategic priorities:

Improve and Enhance Communication – The Corporate Communications role links directly to this strategic objective and exists to further it.

The Communications Plan also supports the other three strategic priorities:

२⋖୬

Ð

1

\$

Responding to Climate Change Impacts – the Communications Plan supports all RDKB departments and projects including those with outcomes related to climate change.

Responding to Demographic / Economic / Social Change – one of the Communications Plan's four focus areas is Digital Presence. Increasing the RDKB's digital presence through our online engagement platform <u>jointheconversation.rdkb.com</u>, a new website, an increased social media presence, and better audio-visual systems that allow for streaming of board meetings online respond directly to a changing demographic that expects digital access to government services and information and the ability to engage online with staff and the Board.

Exceptional Cost Effective and Efficient Services – one of the Communications Plan's four focus areas is Internal Expertise. The Corporate Communications Officer has been training staff in a variety of areas that allow for greater communications capacity within the organization and more effective and efficient communication and engagement including online engagement and consistent branding.

Project: <u>Completion of rdkb.com Website Redesign</u>

Project Description:

rdkb.com is being redesigned from the ground up with a modern version of the Content Management software and under the guidance of the Corporate Communications Plan.

Project Timelines and Milestones:

This work is ongoing and represents a significant effort on behalf of the Web Analyst and the Corporate Communications Officer (CCO). The CCO has hired a contractor specializing in user experience (UX) design who has developed a process to ensure staff, the Board and external website users are engaged in site design and navigation. As the contractor completes the engagement process and provides navigation and web page templates, the Web Analyst will execute the necessary changes. The contractor will also work with staff to develop new, plain language content, a web style guide, and design a website evaluation and measurement process so the website can be adjusted and improved through 2020. All new content will be delivered to the Web Analyst who inserts that content into the new web templates.

Project Risk Factors:

Delays due to spikes in workload of Web analyst who also provides Help Desk services. Ongoing multiple demands on the CCO's time due to the broad mandate of the position. Challenges balancing updates to the existing website while ensuring the focus is on developing content for the new site. Maintaining consistent messaging and branding is also a challenge while we transition to the news site.

Internal Resource Requirements:

IT and the CCO will work in close consultation with all internal RDKB stakeholders to ensure content on the new site is relevant and fresh.

Estimated Cost and Identified Financial Sources:

Much of the redesign and branding has been contracted to a small group of consultants in 2019 at a cost of roughly \$50,000. Further consulting services may be required in 2020, but the bulk of the work is now paid for.

	Exceptional Cost Effective and Efficient Services - Site redesign keeps rdkb.com fresh, relevant and better suited for mobile device use, thereby enhancing public communications and use of online services as developed.
२ ¶))	Improve and Enhance Communication – fresh Website design that reflects the Corporate Communications Plan and Brand Refresh promotes clear, consistent messaging and better public understanding of RDKB services. New CMS permits responsive design for a better user experience while using a mobile device.
	Responding to Demographic / Economic / Social Change – Site redesign keeps rdkb.com fresh, relevant and better suited for mobile device use, thereby enhancing public communications and use of online services as developed, especially as expected by a younger demographic.

Proi	ject:	Emergency	Communications Plan

(also included in 012 – Emergency Preparedness Service Workplan)

Project Description:

Many aspects of the response to major emergencies the past years, including the 2018 Boundary Floods, were very successful. However, one of the significant after action items recommended from these events was the development of an enhanced Emergency Communications Plan (ECP). Development of this plan will greatly assist RDKB staff in enabling best-management practices in regards to both internal and external communications during a major emergency event.

Project Timelines and Milestones:

The plan is now 90 per cent completed. The ECP is one component in the Regional Emergency Plan, included in the Emergency Preparedness Service Workplan.

Project Risk Factors:

Very few risk factors as the plan is nearing completion.

Internal Resource Requirements:

This project is a joint effort between the Manager of Emergency Programs and the Corporate Communications Officer. Effort will be required by the Fire & Emergency Services Administrative Assistant to help format, reproduce and disseminate the updated plan.

Estimated Cost and Identified Financial Sources:

No costs other than RDKB staff time and possible use of RDKB vehicles for meetings.

 Exceptional Cost Effective and Efficient Services – use of internal staff resources to develop the plan. Responding to Demographic / Economic / Social Change – includes use of an online Emergency/Evacuation Notification system, Emergency Website. Greater use of digital assets to communicate to a younger population that expects digital communication. Responding to Climate Change Impacts – increasing likelihood of emergency events related to climate change mean the need for better emergency communication is paramount. 	२ <)))	Improve and Enhance Communication – the plan's purpose is the same as this priority.

Project: Implementation of Online Engagement Platform - jointheconversation.rdkb.com

Project Description:

Fully integrate the RDKB's online engagement platform (standalone website) with the new RKDB website and incorporate this platform into all RDKB engagement processes in 2019

Project Timelines and Milestones:

In late 2018, the RDKB purchased an online engagement platform called EngagementHQ through provider Bangthetable Canada Ltd. The platform, <u>https://jointheconversation.rdkb.com</u>, now includes a total of 20 projects (16 external and 4 internal). The site has had about 3,000 site visits and 200 site registrations. The Corporate Communications Officer (CCO) will continue to work with all RDKB departments to ensure other projects and initiatives take advantage of the new platform so that the RDKB can expand its online engagement processes toward engaging with more stakeholders in the region.

Project Risk Factors:

Workload of CCO and other staff and ability to produce adequate content for all projects. Possible increased workloads for CCO and some other staff as more and more stakeholders begin to engage online.

Internal Resource Requirements:

The CCO will work in close consultation with all internal RDKB stakeholders to ensure content on the new site is relevant and fresh. The CCO will include online engagement in any departmental communication plans developed in 2019. The CCO will continue to train project administrators for the site, from among staff who engage with the public.

Estimated Cost and Identified Financial Sources:

Cost of renewing the online engagement platform for 2019/20 is \$12,000, the same rate as 2018/19. Additional funding will be required in 2020/2021 to pay for a fourth year of the platform subscription if the RDKB continues with the same platform as annual rates will increase.

२ ⋖३))	Improve and Enhance Communication – the plan's purpose is the same as this priority.
§	Exceptional Cost Effective and Efficient Services – use of internal staff resources to develop the plan.
1	Responding to Demographic / Economic / Social Change – includes use of an online Emergency/Evacuation Notification system, Emergency Website. Greater use of digital assets to communicate to a younger population that expects digital communication.

Project: Board Room Audiovisual Communications Technology Refresh

Project Description:

The audiovisual (AV) technology in the Grand Forks and Trail Board rooms is undergoing a refresh. Through late 2019 and early 2020, IT will be implementing a new video conferencing integration with the existing Crestron base system to permit meaningful video conferencing capacity. In the course of this integration, the touch interfaces in both rooms will undergo a small redesign to make the touch controls more useful and relevant.

The mic subsystem in Grand Forks is the last vestige of the original 2008 AV system and is being replaced in Q4 2019. Several RFP responses were received for this project and a successful contractor selected to install Sennheiser mics and add some more speakers around the room.

Project Timelines and Milestones:

November 2019 – March 2020

Project Risk Factors:

As always, RDKB has relatively limited access to technology integrators, which in turn limits viable technical options. Cost overruns are also always a possible consequence of the relative remoteness of RDKB facilities from larger markets.

Use of non-domestic Cloud based services, like a video conferencing subscription service, poses a risk with respect to FIPPA compliance, so any such use needs to be handled with some care and attention to mitigate the RDKB's exposure to that risk. IT has settled on a Cloud VC service that explicitly uses encrypted, domestic transit and storage and is therefore eligible for BC local government use.

Internal Resource Requirements:

Information Technology will be responsible for acquiring the services of an audio visual integrator, providing specifications and assisting the integration contractor with implementation details. Corporate Communications will work with IT to explore uses of the new system for online streaming of board meetings to further the RDKB's digital presence in the region.

Estimated Cost and Identified Financial Sources:

- Crestron / Zoom integration kits + professional services = roughly \$13,000 per Board room
- Monthly Zoom subscriptions = \$65 per Board room & \$27/mo/meeting organizer
- Mic / speaker subsystem for Grand Forks = roughly \$30,000

These costs are all accounted for in the 2019 capital budgeting.

Relationship to Board Priorities:

२ ⋖≫)	Improve and Enhance Communication - Improved video communications capacity in the Boardrooms provides more options for conducting Board, staff and community group collaborative functions. Possibility for online streaming of content responds to public expectations among for accessible, transparent government.
	<i>Responding to Climate Change Impacts</i> – effective video conferencing reduces the need for travel to meetings
	Responding to Demographic / Economic / Social Change – a younger workforce is accustomed to video conferencing as a standard communications tool, so corporate VC should aid in the retention of younger workers. Possibility for online streaming of content responds to public expectations among for accessible, transparent government, especially among younger demographics.
?	Exceptional Cost Effective and Efficient Services - Video conferencing capacity has the potential to substantially decrease meeting costs, travel costs, energy use, and GHG emissions.

20

Project: Infrastructure Handoff

Project Description:

With the hiring of a dedicated Network Infrastructure Analyst (NIA) comes a period during which responsibility for various sections of infrastructure will be incrementally handed off to the NIA. As of this writing, this handoff is largely complete. The NIA has assumed responsibility for most technical subsystems and has acquired training and vendor certification for some of those systems.

Project Timelines and Milestones:

September 2017 – February 2020

Project Risk Factors:

At this point, the RDKB has a significant investment in the current NIA staffing, so the risk of retaining this staff becomes greater as his skills become more marketable. Skilled IT workers are in short supply, and local governments have to compete with all other industries for these workers at all times.

Internal Resource Requirements:

This is mostly an intra-departmental project but will involve all members of the Information Technology (IT) team. This change also somewhat affects primary services like GIS and Finance, who tend to have a closer technical relationship with IT.

Estimated Cost and Identified Financial Sources:

Minimal financial impact. If any, only some vendor training to bridge any training gaps for the NIA. Estimated training costs for 2019 are around \$4000, with perhaps slightly more planned for 2020 as the NIA's training requirements become more specialized.

Relationship to Board Priorities:

Exceptional Cost Effective and Efficient Services - Handing off infrastructure to a dedicated NIA greatly improves the capacity of IT to deliver technological innovation in the primary services so that they operate more efficiently.

Project: Document Management System

Project Description:

Implementation of corporate document management strategy. Electronic Document Management represents a critical milestone along the path to corporate information maturity.

Project Timelines and Milestones:

At this time, the RDKB has implemented a Document Management System (DMS) for a small group of pilot participants. Initial adoption is going slowly, but as that pilot generates success, it should pave the way for further adoption by other functional groups.

Project Risk Factors:

The third party DMS in use is from a relatively small and unknown player in the DMS space, but it fit the needs and resources of the RDKB nicely. Support is delivered by a small group in Europe, so is delivered on a next-business-day basis. There's also the risk that the software developer might be bought by a larger group or fold entirely.

Internal Resource Requirements:

IT will continue to provide administration and, to the extent that it can, user support for users of this DMS.

Estimated Cost and Identified Financial Sources:

This particular DMS costs US\$3770 to license initially, with an ongoing maintenance cost of 22%, so is a very good value.

२ ब))	Improve and Enhance Communication – the initial DMS pilot group is the Emergency Operations group, which is now much more effectively able to collaborate with external agencies in the event of an EOC activation
	Responding to Climate Change Impacts – an effective DMS program reduces the amount of paper required to conduct the business
9	Exceptional Cost Effective and Efficient Services - DMS supports primary services allowing them to operate more efficiently.
1	Responding to Demographic / Economic / Social Change – Younger workers from other environments will expect digital workflows as the standard, so an effective DMS

service for corporate documents will become increasingly critical in retaining those workers.

Project: Electronic and Paper Records Management (RDKB Internal Filing Systems) (2019-2020)

Project Description:

Records management is part of the RDKB's wide-ranging functions of governance, managing risk and compliance. At this time, this project concerns the filing of electronic records and electronic filing naming conventions only at the RDKB Trail office as well as reorganizing the Administration Department's paper file folders. The project is ongoing and as part of the broader RDKB "document management" piece, Administration will work with Information Services. The work includes creating electronic folders and sub-folders on the RDKB's internal common network drive for some of the RDKB's common records that all employees need access to, organizing all future Administration Department's general files as electronic records, scanning and filing important historical paper files, studies, consultant reports into the network drive and creating a records retention schedule.

Given the uniqueness of some of the RDKB's services, not all departments wish to file in an overall corporate system. This results in the project shifting to a records management system (paper and electronic), using the Local Government Management Association (LGMA) model, for only the Administration Department's general files and the overall Corporation's contracts, leases agreements, etc.

Project Timelines and Milestones:

This project will be work in progress for a few years and includes several elements. At this time, it is difficult to determine a date for completion.

Began January 2019 and Continues Beyond 2020

- February 2019 to September 2019 Begin process to simplify and clean up Electronic Filing on the RDKB Trail office network. Complete.
- February 2019 to April 2019: Reorganize and create additional space for the Administration Department's paper file folders. Complete.
- May 2019-Fall 2019 Add extensions to both paper file folders and the electronic files (e.g. as per the LGMA Records Management model). Complete.
- Fall 2019 and Ongoing into 2020 Where appropriate, look ahead to organizing other Trail office departmental paper files into the overall organizational file folder system. This part of the project has been removed.

2020

- January 2020 March 2020 Continue to identify which current historical paper records should be digitized and begin the duplication process onto the network drive.
- March-May 2020 Continue to research and review a Records Retention Schedule(s) and bylaw.
- June-Fall 2020 Move towards adoption of a records retention bylaw. Consult with solicitors and records management professional.
- Fall 2020 Work with Information Systems Department in the overall RDKB document management system (microfishe). Consult with professional.

Project Risk Factors:

This project continues to require a fairly significant amount of time from Administration and Information Technology Staff. The timelines and milestones targeted for 2020 could possibly be delayed with unforeseen and or other emergent work that may arise. The work to completion will be ongoing in 2020 and beyond. Staff are discussing a temporary term-position (e.g. librarian, records management specialist) to assist and funds have been included in the 2020 General Government -Administration budget

Internal Resource Requirements:

Manager of Corporate Administration, Manager of Information Services and Clerk/Secretary/Receptionist (Administration).

Estimated Cost and Identified Financial Sources (2020):

- > Approximately \$1,500 for solicitor's opinions and legal work on the records retention bylaw.
- The proposed 2020 Budget includes funds for a temporary, term-position to work with the Corporate Office to move towards completion.
- Staff resources and time.

Relationship to Board Priorities:

- RDKB Mission Statement: "...to provide a professional level of governance and advocacy both responsive an accountable to the needs of our regional community:
 - Records management ensures the RDKB's records of critical historical, legal and fiscal value are organized, identified, easily accessible and preserved resulting in the Board having timely access to information and assisting the Board to be transparent, accountable and open with the public and government.

RDKB Strategic Objectives:

1 4 1	

Exceptional Cost Effective and Efficient Services -

Records Management provides for more *efficient and effective management* of the organization's documents keeping records filed and organized in a systematic manner. Electronic filing reduces the cost for storage equipment, paper and other stationary supplies and provides benefits for staff time management as a proper system should reduce the time it takes to search for, and locate records. Records management allows information-sharing with the public, the Board and the overall internal corporation to become more efficient.

Environmental Stewardship/Climate Preparedness -

The electronic component of records management reduces the volume of paper, file-folders and other stationary from going into our landfills.

Project: <u>CityView Upgrade</u>

Project Description:

Update of the 2006 era Building Inspection (BI) software called CityView with the latest version of CityView. Despite bearing the same names, these are fundamentally different products, separated by more than a decade of development and innovation.

Project Timelines and Milestones:

Specifying and configuring a new BI software suite will encompass enterprise considerations, so may take much of 2019/20. At this time, the scope and schedule of the Building Inspection module replacement project has been defined such that a fully operational, modern Building Inspection service shold be in place by Q2 of 2020. However, CityView 2018 is a full-featured municipal software suite, so implementing further modules for other administrative functions like bylaw enforcement and development permit management is the logical next phase of this project to more fully leverage the core investment and diversify costs.

Project Risk Factors:

There's always a risk of scope creep and inconsistent buy in from stakeholders. Mitigating these risks is the function of the project champion. As always, there's also the risk of cost overruns and underestimation of IT cycles required for new software systems to succeed.

Internal Resource Requirements:

IT will work in close consultation with Building Inspection staff and management to ensure implementation meets the needs of the department.

Relationship to Board Priorities:

\$

Exceptional Cost Effective and Efficient Services - New software will permit BI staff to operate more efficiently and mitigates the risk of running outdated software. As more CityView modules put into service, other Administration functions will operate more efficiently.

29

Project: Primary Corporate Storage Replacement

Project Description:

The primary corporate storage device is from 2014, so is due for replacement as a normal capital replacement.

Project Timelines and Milestones:

RDKB was an early adopter of Nutanix hyperconverged storage devices and remains committed to this specific technology. Since 2014, several neighboring organizations have also purchased Nutanix storage devices, the presence of which adjacent install base strengthens the case for continuing to use this storage vendor. By the next storage replacement capital cycle in 2025, it may even be practical to pool storage devices with some of these neighbors, which exponentially strengthens the robustness of this particular technology beyond the simple sum of the storage devices.

Project Risk Factors:

Storage in any one data centre poses a risk, irrespective of its individual robustness. IT will be abating this risk to a reasonable extent by locating a backup of crucial storage in a secondary location.

Internal Resource Requirements:

This project will fall largely on the Network Infrastructure Analyst (NIA) who, by Q2 of 2020 will have acquired Nutanix Engineer certification from the vendor.

Estimated Cost and Identified Financial Sources:

\$140,000 is budgeted in the IT capital financial plan for 2020.

Relationship to Board Priorities:

Ş

Exceptional Cost Effective and Efficient Services – The existing storage device will be 6 years old by the time of its replacement and will no longer be eligible for vendor support by 2021, so this replacement is good capital planning. The new device has also roughly twice the capacity of the outgoing, which should accommodate all the necessary growth of the business through to 2025.

Responding to Climate Change Impacts – Nutanix hyperconverged appliances are exceeding efficient of power, cooling and rack space vs. traditional storage design

Project: Procedure Bylaw Review-Revised Bylaw (2019-2020)

Project Description:

The general procedures to be followed by Regional District Boards and Municipal Councils and their respective committees in conducting business must be established by a "procedure" bylaw (S. 225 LGA). It is a lengthy and comprehensive bylaw that acts as a guide for the Board, public and staff. The bylaw must specify the details for giving the elected officials and the public notices of meetings and general meeting and electronic meeting procedures. The procedure bylaw must also set out the agenda delivery timelines and the rules for closed meetings.

Based on Board and the Policy and Personnel (P&P) Committee's direction from 2016-2017, the main objective of this project was to: include additional elements to the current procedures and rules for RDKB electronic meetings and to provide staff an opportunity to assess how, and the timelines for, the delivery and posting of meeting notices and agendas.

Through the initial work in early 2019, Staff identified several areas of the bylaw that were out of date and which needed to be resolved to reflect the names of current Committees, the addition of new Committees, updates to staff titles and removal of Committees that no longer exist. Staff worked on incorporating housekeeping updates and changes to the order of the bylaw sections to make the content more streamlined/organized. Inclusion of a consent agenda and removing the names of movers and seconders from the record were also brought forward for discussion by the P&P Committee and already approved by the Board.

Parts 1-8 have now been reviewed and the changes proposed by the P&P Committee have been incorporated into the draft bylaw. Some specific parts of the bylaw, including electronic meetings, closed meetings and delegations were reviewed attentively and the Committee's proposed changes have been made in the draft version.

In 2020, Staff and the Policy and Personnel Committee will continue to move forward with assessment of the remaining pieces of the bylaw (Parts 9-14). The work is tedious and discussions for the Committee members are involved and take a significant amount of time. The proposed draft procedure bylaw will be presented to the overall Board for review and feedback before it is represented for adoption.

Project Timelines and Milestones:

Commenced February 2019 with completion initially targeted for fall 2019. As of November 2019, the project is not complete. The Policy and Personnel Committee has dedicated a large volume of time reviewing the bylaw throughout 2019. Discussions have been thorough and productive. Both staff and the Committee require more time in order to complete the work and present a final revised bylaw to the Board for adoption in 2020.

- February 2019 to April 2019 Staff research bylaw compliance with provincial requirements, research other local government procedure bylaws, complete the "housekeeping" amendments and assemble example bylaws and background materials to present to the Policy and Personnel Committee's review in March or April. Staff present research material and examples regarding consent agendas and removing the names of movers and seconders Complete.
- April-May 2019 Staff research consent agendas and Eli Mina re. removing the names of elected officials who move and second motions from the record incorporate in draft bylaw and present to both the P&P Committee and the Board of Directors. Complete.
- June 27, 2019 The Board approved the proposed streamlining edits and the reorganization of the bylaw as recommended by staff and the P&P Committee. The Board also approved the addition of consent agendas and agreed to removing the names of movers and seconders from the record.
- September 2019 Staff provides the Committee with focus areas for review in Parts 3-5 (Board and Committee agendas, meeting details, notices of meetings, agenda delivery and electronic meetings). Complete.
- October November 2019 Staff work through electronic meeting sections to include the P&P Committee's changes from September into the draft byaw. Complete.
- November 2019 The Committee continued its review of electronic meeting procedures and rules. Staff provided further focus areas in Parts 6-8 (attendances at meetings, order of business, meeting procedures) and the Committee provided several edits, which staff is currently working to include in the proposed bylaw. **Ongoing.**

2020

- January-March 2020– Staff provide the P&P Committee focus areas and discussion points for a review of Parts 9-14 to complete the overall Committee review.
- April-May 2020 Bylaw review by staff for any ommissions, spelling, grammar and formatting. Staff to determine whether the P&P Committee needs to consdier any other legislative or important procedural matters that may have been missed during 2019.
- June Present the proposed draft procedure bylaw to the P&P Committee for final review and further possible edits.
- June-July 2020 Present proposed draft bylaw to Board of Directors for discussion and feedback and possible referral back to staff and P&P Committee for further edits.
- July-August Present bylaw to the Board of Directors for adoption.

Project Risk Factors:

This project will require a significant amount of research and preparation from the Manager of Corporate Administration/Corporate Officer. The milestones and completion of the project will depend largely on the discussions and decisions of the Policy and Personnel Committee and Board of Directors. Adoption of a revised bylaw is critical in order to make the RDKB's meeting and notice procedures compliant with the legislation, timely, and to incorporate the current internal procedures and processes that are not captured in the current bylaw.

Internal Resource Requirements:

Manager of Corporate Administration

Estimated Cost and Identified Financial Sources:

- Administration human resources.
- > At this time, it does not appear that any financial resources will required.

Relationship to Board Priorities:

- In 2016, the Board directed staff to begin work on a framework and policies and procedures for electronic meetings. Direction was also given for to staff to assess how, and the timelines for, the delivery and posting of meeting notices and agendas.
 - RDKB Mission Statement: "...to provide a professional level of governance and advocacy both responsive an accountable to the needs of our regional community:

Improve and Enhance Communication-
A local government procedure bylaw is a legislative requirement and as such, must comply with the <i>Local Government Act</i> and <i>Community Charter</i> , regardless of the other procedures that the local government wishes to include in the bylaw. The draft RDKB bylaw does include sections that are additional to the required/legislative content and which should be reviewed every few years to ensure they fit with the present Board's strategic priorities.
Given the bylaw acts as a "guide" or reference document, it communicates with staff, the Board and the public about the RDKB's meeting arrangements and details as well as procedures and policies that should be recognized and understood by all of the aforementioned groups during a meeting.
\$ Exceptional Cost Effective and Efficient Services
The inclusion of electronic meetings in the RDKB procedure bylaw, provides an alternative for staff, the Board and Committee members having to drive to attend meetings. If used, electronic meetings could result in an opportunity for the RDKB to spend less financial resources on gas, driving time and meals for both staff and elected officials.
Environmental Stewardship/Climate Preparedness
When used, electronic meetings would result in less greenhouse gas emissions as staff and the elected officials will be able to participate in the meeting without having to drive a vehicle.

30

Project: Freedom of Information and Protection of Privacy (2019-2020)

Project Description:

The Office of the Information and Privacy Commissioner for British Columbia enforces the *Freedom of Information and Protection of Privacy Act* (FoIPPA) which sets out the access and privacy rights of individual's as they relate to the public sector. The Act establishes an individual's rights to access to records, including access to a person's own personal information and records in the custody and or control of a public body. The Act also sets out the terms under which a public body can collect, use and disclose personal information of individuals, how much can be charged for the local government's work and the timeline for the local government to reply to requests. Public bodies are accountable for their information practices as they are required to take reasonable steps to protect the privacy of personal information they hold while balancing transparency and individuals' rights to access records.

In most BC local governments, the Corporate Officer is usually the *Freedom of Information and Protection of Privacy Act* Head or Coordinator. The head relies heavily on staff from other departments such as building inspection, fire and planning/land use to search, locate and identify the records that are requested. The Act is large (6 parts) and the work to release records, if that is the case can be complex, takes a significant amount of staff time and requires attention to details to process the different types of requests for records.

The FOIPPA Head responded to 42 more requests for records in 2018 (76) than in 2017 (34) and the number of requests increased from 76 in 2018 to 98 to date in 2019 (increase in volume of approximately 29%). The strain of working through the volume of requests while managing other corporate work, and ensuring that the FOIPPA Head replies to requests within the legislative deadline has largely been offset with the addition of an 80% FTE (4 days per week) position. This position assists the FOIPPA Head with managing the requests within the deadline and also assumes procedures for clerical and duplication work as well as providing the Corporate Officer with a review of the proposed records for disclosure. This position has mad a positive and large difference for RDKB FOIPPA Head's work in FOIPPA.

To provide better service to those requesting records and to reduce the amount of time for all RDKB staff with their contributions to the process, the RDKB FOIPPA Head worked with Civic Legal LLP to create a list of routinely released documents, which was provided to Managers and staff. The RDKB FOIPPA bylaw will be presented as well once it has been revised and updated.

The RDKB's current FOIPPA Bylaw is old and needs work to modernize legislative references and other pieces. The Bylaw has also been referred to the RDKB Solicitors for a legal review to ensure compliance with the FOIPP *Act* as well as with RDKB policies. Staff has not received the legally reviewed version back yet.

In 2020, staff propose to provide the members of the RDKB Board of Directors with some training under the FoIPPA as well as providing them with the list of routinely released records, which also includes guidance as to when to turn over requests to the Head. Records that are not routinely released must be referred to the Head for review and disclosure processes as it is illegal for any other position to reply to, disclosure records and redact if necessary.

Project Timelines and Milestones:

Commenced April 2019 and may take to October-November 2019 and perhaps beyond.

- March-April 2019 create list of routinely released documents and refer to solicitors for review. Complete.
- May to August 2019 Staff review current RDKB FOIPPA Bylaw to ensure it fits with RDKB policies such as the Use of Surveillance Cameras at RDKB Facilities Policy. Complete.
- June 2019 FoIPPA Head meet face to face with Solicitors re. the final draft of the routinely released records. Complete.
- September 2019 FoIPPA Head meet fce to face with Solicitors re. the RDKB FoIPPA Bylaw. Complete.
- October- Bylaw referred to RDKB solicitors to ensure compliance with the FoIPPA. Complete. Legal review still underway.
- November 2019 List of routinely released records distributed to RDKB Managers and staff.

Project Risk Factors:

This project will require a significant amount of research and preparation from the Manager of Corporate Administration/Corporate Officer. Until mid-2019 and with limited resources to assume and assist with other administration/corporate work until summer 2019, the 2019 project timelines and milestones have had to be adjusted.

Internal Resource Requirements:

Manager of Corporate Administration, Manager of Information Services and Administration Clerk/Secretary/Receptionist

Estimated Cost and Identified Financial Sources:

- Time and human resources.
- > \$1,600 (2019)
- Approximately an additional \$1,500 for the legal review on the bylaw will need to be allocated in the 2020 budget.

2020

- February-March 2020 Once the solicitors have completed the legal review on the RKDB FoIPPA bylaw, the Corporate Officer/FoIPPA Head will present it to the Board of Directors for adoption.
- ➤ March-April 2020 The FoIPPA Head will present to, and review the Bylaw with staff.
- May-July 2020 Develop content for an FoIPPA page on the RDKB website and other communications pieces that will assist staff, elected officials and the public understand the legislation as well as the RDKB FoIPPA practices and procedures.

Page 149 of 524

Relationship to Board Priorities:

- Local governments have a duty to create, receive and use records as a normal part of conducting business. The manner in which the RDKB manages requests for records and ensures compliance with the *Freedom of Information and Protection Privacy Act* directly affects the Board's ability to operate effectively and to remain transparent.
- RDKB Mission Statement: "...to provide a professional level of governance and advocacy both responsive an accountable to the needs of our regional community:

33

Improve and Enhance Communication -

Ensuring that the current RDKB FoIPP records processes and practices are communicated to the public in a clear and informative manner so that the public understands the rules around the release of records will provide timely access to requested records and assist the Board of Directors to be seen as transparent and open with the public.

Project: <u>Continuation of Property Transfers – Grand Forks Rural Firehalls (2019-2020)</u>

Regulatory Bylaws and Regulations:

- Provincial Letters Patent-October 16, 1956
- Leases Commencing November 25, 1978 and expiring November 24, 2077 (99 years) Option to renew for additional 99 Years
- > Order in Council No. 379-September 12, 2013-Revoking the Letters Patent
- RDKB Grand Forks Rural Fire Protection District Service Area Establishment Bylaw No. 1541, 2014

Staff:

Chief Administrative Officer Manager of Corporate Administration Clerk, Secretary, Receptionist (Administration)

The Grand Forks Rural Fire Protection District was incorporated by Letters Patent on October 16, 1956. An Order in Council, revoking the Letters Patent was issued to the RDKB on September 12, 2013 and the rights, property and assets of the Grand Forks Rural Fire Protection District were transferred to and vested in the RDKB. The RDKB also assumed the obligations of the Order in Council including Leases with the registered owners. RDKB Bylaw No. 1541 established the RDKB Grand Forks Rural Fire Protection District on January 30, 2014.

There are 4 rural firehalls within the service:

- 1. Station 1-George Evans Hall (Northfork Road/Grandby Road)
- 2. Station 2-Carson/Reservoir Road
- 3. Station 3 Big Y Hall Carson Road
- 4. Station 4 Nursery Starchuck Road

Work began in January 2017 and in 2019, Staff will continue to work with the RDKB Solicitor. It is difficult to determine when this work will be completed. However, Staff's work will continue throughout 2020 once the RDKB solicitors have completed working with the private landowners' legal teams.

The process includes entering into four separate Assignment and Landlord Consent Agreements between the RDKB (assignee), the City of Grand Forks (Assignor) and the current registered owners of the four properties (landlords).

Relationship to Board Priorities:

Exception Cost Effective and Efficient Services -This initiative is part of larger plan to rationalize the Grand Forks Rural Fire Service, which is intended to result in long-term savings to residents

Project: <u>Energy and Climate Change Project - FortisBC Agreement</u>

Project Description:

The implementation of the Senior Energy Specialist (SES) Services work plan as documented in the RDKB and FortisBC Funding Agreement. The work plan covers both corporate and community energy and greenhouse gas reduction activities, specifically demand side management, transport, renewable natural gas and natural gas for remote communities.

Key deliverables within the work plan include:

- Regional Residential Energy Efficiency Program (REEP) develop a plan that reduces energy cost and improve living conditions for residences in our communities, and reduce greenhouse gas emissions.
- Preparing for the 2022 Building Code (Step Code) develop a region wide transition plan to prepare the building industry and trades, municipalities and regional district for the construction of new homes and commercial building to the update 2022 Building Code.
- Low Carbon Fleet Management Plan Report on a low carbon fleet management plan options for the Regional District of Kootenay Boundary.
- Build energy retrofit plans for top 5 energy consuming facilities Review current energy consumption at the RDKB facilities, undertake energy assessments to identify energy reduction opportunities and to develop energy retrofit plans for the top 5 energy consuming facilities.

Service Levels

New: Management of the RDKB corporate and community energy and climate change programs.

Human Resources: Senior Energy Specialist (100%)

Project Timelines and Milestones:

August 2019 – August 2021

Project Risk Factors:

The key risks to the project are:

- the municipalities are not willing or unable to engage in the development of the program due to limited resources and different priorities. This could result in a fragmented approach across the region and some communities not included.
- resources are diverted from this project to other priorities or new projects resulting in the work not being completed and losing FortisBC funding.
- service and other manages are not available or interested in supporting the review of existing fleet usage and requirements, or participating in the energy assessments resulting in either delay in project or gaps within the project deliverable.

 funding to undertake the energy assessments at these top 5 energy consuming facilities is not available due to grant funding not being obtained and FortisBC no longer providing their energy assessment program.

Internal Resource Requirements:

Development of REEP & the Transition Plan for 2022 Building Code - There will be a need for involvement from planning, building inspection and corporate administration (communications) departments.

Low Carbon Fleet Management Plan - There will be a need for involvement of managers to understanding their fleet vehicle usage and requirements, development of the RDKB travel profile and the review of the Fleet Vehicle Replacement Policy.

Facilities Energy Retrofit Plan - There will be a need commitment and involvement from Service Managers and key staff managing and running the operations.

Estimated Cost and Identified Financial Sources:

The cost of the project will consist primarily of staff time – primarily the time of the Senior Energy Specialist who's position is funded through FortisBC 2 year SES Funding Agreement. It will also involve staff to contribute.

In addition, there will be a cost associated with undertaking the Energy Assessments at the different facilities. Previously FortisBC charged \$300 per site.

Potential funding sources:

- FortisBC funding and rebates for Energy Assessments,
- Columbia Basin Trust Grant opportunities,
- CARIP reserve fund, and
- Gas Works.

Relationship to Board Priorities:

	Environmental Stewardship/Climate Preparedness This project advances one of the Board's key strategic priorities for Environmental Stewardship/Climate Preparedness and commitment that we will plan for climate change mitigation.
	<i>Exceptional Cost Effective and Efficient Services</i> - This program will advance this strategic priority of the Board by proactively analyzing opportunities for better efficiency opportunities associated with energy use and climate change mitigation.
२ <)))	Improve and Enhance Communication - This project will allow an opportunity for the RDKB to communicate with the community the various initiatives associated with climate change mitigation and energy efficiency

GENERAL AD	MINISTRATION		
Initiation Date	Action / Issue	Staff Resources	Comments
Mar. 2018	<u>Community Group Use of Fire Halls:</u> That the use of RDKB fire halls by external	Administration Staff	
	community groups be referred to the Policy and Personnel Committee for further discussion around the development of a policy that would set out guidelines for the use of the local halls by external community groups and the role of the Regional Fire Chief.		
May 2018	RDI Research Project: That the RDKB Board of Directors approve the allocation of \$40,000 to the General Gov't/Administration (001) Budget over two years (\$20,000/yr) for the Columbia Basin Rural Development Institute (RDI) – RDI for Local Government Regional Research Project SUBJECT TO approval of equivalent funding commitments from the Regional Districts of Central Kootenay and East Kootenay in return for \$60,000 in direct research support (50% ROI) and joint access to \$25,000 strategic investment (SEED funding) and \$20,000 training and workforce development. Big White Solid Waste Management

2020 Work Plan

Big White Solid Waste Management 2019 Janine Dougall, General Manager, Environmental Services

Big White Solid Waste Management

2020 Work Plan

Service Name: Big White Solid Waste Management

Service Number: 064

Committee Having Jurisdiction: Board of Directors

General Manager/Manager Responsible: Janine Dougall, General Manager of Environmental Services

Description of Service:

Provides solid waste management services to Big White.

The Big White Refuse Disposal (BWRD) function provides garbage handling services to all properties in the specified area. The function is unique in that all commercial facility solid waste services are provided by the RDKB contractor which is why the function is separate from the Regionalized Solid Waste Management Function (RSWM). The BWRD function only manages Big White garbage; collecting and transporting recyclables is funded by the RSWM function.

BWRD pays the contractor collecting from commercial facilities and the Big White Transfer Station (BWTS). The garbage and recyclable materials from non-commercial sources, generally single-family dwellings or townhouse type facilities is self-hauled by residents to the BWTS.

The BWTS contains a compactor for garbage and a compactor for recycling. The compactors are operated by Big White residents and hauled to Kelowna by the RDKB hauling contractor. The BWTS is maintained under a separate service contract.

Establishing Authority:

Service is established by Bylaws 330 dated June 25, 1981 and Big White Refuse Disposal Service Conversion, Establishment and Amending Bylaw No. 1587, 2015.

Requisition Limit:

As outlined in Bylaw No. 1587, 2015, the maximum tax requisition is the greater of:

- a) Two Hundred and twenty thousand dollars (\$220,000); or
- b) An amount equal to the amount that could be raised by a property value tax of forty four point three cents (\$0.443) per one thousand (\$1,000.00) dollars applied to the net taxable value of land and improvements (calculated maximum is \$321,111).

2019 Requisition / Budgeted Expenditures / Actual Expenditures:

Requisition - \$262,588 / Budgeted Expenditures - \$281,004 / Actual Projected Expenditures - \$259,257

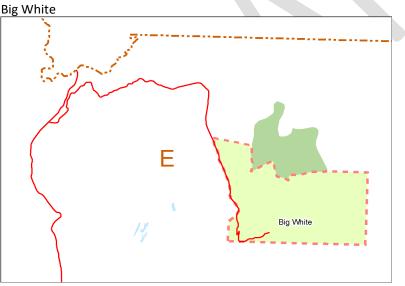

Reserve Balance Projections:

	2019	2020	2021	2022	2023	2024
Opening Balance	\$0	\$0	\$5,000	\$10,050	\$10,150	\$10,252
Closing Balance	\$0	\$5,000	\$10,050	\$10,150	\$10,252	\$10,354

Regulatory or Administrative Bylaws:

Not Applicable

Service Area / Participants:

Service Levels Weekly collection from commercial operators, transfer station open 24/7.

Human Resources:

GM of Environmental Services (3.5% FTE), Solid Waste Program Coordinator (3%), contracted collection and transfer station maintenance.

2019 Accomplishments:

RDKB staff completed a review of the current solid waste collection services provided to businesses/buildings in Big White. This review was required due to questions being fielded from community members regarding a perceived discrepancy in service levels (le. why do some buildings have garbage/recycling rooms in the buildings while others do not). Fundamentally, the provision of service to buildings is tied to the requirements outlined in the Big White Official Community Plan, Bylaw 1125 which specifies that for multi-family buildings with ten or more units and commercial buildings garbage/recycling infrastructure (waste room) is required. For those buildings that do not trigger the waste room requirements, the expectation has been for the residents to self-haul their garbage and recycling to the transfer station facility.

RDKB staff have also been engaging with Stewards representing provincially regulated extended producer responsibility programs to see if improved access to recycling can be achieved for items such as beverage containers, large appliances, small appliances and household hazardous waste. The intent behind the conversations has been to obtain a commitment from the Stewards to pick up collected products and determine what infrastructure upgrades would be required at the Big White Transfer Station. To date positive conversations have been had with representatives of the large appliance, small appliance, lighting and household hazardous waste programs.

Encorp has initiated an Express and Go pilot program in Tofino which entails the placement of a customized container (along with power) in which can be stored bags of collected beverage containers. At a separate attended location a kiosk exists to which people interested in collecting beverage containers sign up for an account and then are printed labels that can be attached to the bags. A local Bottle Depot then removes the collected bags from the container, processes the bottles and distributes the deposit refund to the account holder through electronic means. This type of collection program is seen as a model with significant potential for implementation at Big White. Further conversations with representatives of Encorp and the Brewers Distributors will continue into 2020.

2019 Projects Not Completed:

Planned project work for addressing on-site drainage issues were not completed in 2019, due to the ongoing assessment for potential infrastructure upgrades to the facility. This project is now planned for completion in 2020.

Significant Issues and Trends:

Recycling Contamination Rates:

The BWTS is currently an unattended transfer station which is open 24/7. This operational model creates challenges with inappropriately dumped materials as well as maintaining a clean and tidy facility that meets the expectations of local area residents. To properly screen waste and recyclables the transfer station would need to be controlled which means restricting open hours and having an attendant on duty when the site is open.

An audit of the composition of the recycling stream collected in the unattended bin at the Big White Transfer Station as well as from buildings/commercial business with waste rooms was completed in February 2019. The audit material was gathered between January 31st, 2019 and February 25th, 2019. The audit occurred on February 28th, 2019. The total weight of audited material was 23,082 kgs. The composition of the material in the recycling stream is indicating significant amounts of non-recyclable materials (garbage) are being placed in the bin. Although signs are located at the facility to try and educate residents on what is to go into the bins, the fact that the site is unattended is not helping matters.

The results from the 2019 recycling stream audit are as follows:

Material Type	Percentage Based on Weight
Cardboard (OCC)	40
Garbage	21
Mixed Paper	20
PCF Plastics	11
Glass	4
Tin	3
Plastic Film	1

For the years from 2013-2018 the garbage percentage was between 15-17%. The increase to 21% is seen as a significant issue. There is concern that should contamination rates remain at levels greater than 20%, the service is at risk of the recycling processing contractor refusing loads which would then be ultimately directed to landfill, or the cost of processing the recycling product will increase substantially.

Bear Aware:

Another emerging challenge is the increased use of the mountain during the summer months, which is changing the needs for solid waste collection in the community. In 2018, a "pilot" program was initiated by Big White to provide cart collection for garbage and recyclables during a major mountain biking event. Future conversations will need to be had regarding bear proofing the community and having more Bear Aware public education programs.

2020 Proposed Proj	ects:				
Strategic Priority	Project name	Days to Complete	Internal/External	Budget (Est)	Risk/priority
9	Drainage Upgrades	10	Both	\$24,000	Medium
9	Big White Transfer Station Maintenance Contract Renewal	10	Internal	N/A	High
	Community Issues Analysis	15	Internal	N/A	High

Project: Drainage Upgrades

Project Description:

There are existing areas at the Big White Transfer Station facility where water pools primarily during the spring snow-melt period. The project will entail regrading and installing where required appropriate drainage infrastructure.

Relationship to Strategic Priorities:

This project is directly related to the provision of "Exceptional Cost Effective and Efficient Services".

Project: Big White Transfer Station Maintenance Contract Renewal

Project Description:

The contract for conducting maintenance activities at the unattended Big White Transfer Station facility expires at the end of June 2020. Work associated with the current contract includes:

- Attending the site on a regular basis to conduct clean-up activities;
- Liaising with building managers, Big White Staff and collection contractor;
- Transporting stewardship and bulky items to Kelowna for appropriate recycling or disposal.

As such a project identified is the conducting of a procurement process for renewal of this contract.

Relationship to Strategic Priorities:

This project is directly related to the provision of "Exceptional Cost Effective and Efficient Services".

Project: Community Issues Analysis

Project Description:

It is planned that RDKB Environmental Services staff will be active participants in a community issues analysis for Big White. It is anticipated that solid waste services will be a topic of interest for the community.

Relationship to Strategic Priorities:

Participation in this project will allow for a greater understanding of community concerns and needs which will contribute to the potential future development of solid waste infrastructure to support the goal of landfill extension by "zero waste" under the "Environmental Stewardship/Climate Preparedness" strategic priority area.

This project is also directly related to the provision of "Exceptional Cost Effective and Efficient Services" as well as "Responding to Demographic/Economic/Social Change".

Given that direct communication will take place with community stakeholders, the strategic priority area of "Improve and Enhance Communication" is also related to this project.

Action Item List

BIG WHITE S	OLID WASTE SERVICE		
Initiation Date	Action / Issue	Staff Resources	Comments
Feb. 2016	Solid Waste Removal Policy: That the Committee of the Whole (Environmental Services) direct Staff to carry out community consultation and create a Draft Big White Solid Waste Removal Policy. FURTHER, that the draft policy be presented to the COW at a future meeting for consideration, approval, and incorporation into the tender documents for the Big White Solid Waste Service.	Environmental Services Staff	Big White waste management service has since been tendered and contracted for a 5-year term. The overall policy regarding service levels is under development.

Regional Solid Waste Management

2020 Work Plan

REGIONAL SOLID WASTE MANAGEMENT

2019 Janine Dougall, General Manager, Environmental Services

Regional Solid Waste Management

2020 Work Plan

Service Name: Regional Solid Waste Management

Service Number: 010

Committee Having Jurisdiction: Board of Directors

General Manager/Manager Responsible: Janine Dougall, General Manager of Environmental Services

Description of Service:

Regionalized Solid Waste Management Services is one of the few fully integrated region-wide services in the RDKB providing solid waste management services to every person, business or organization in the RDKB daily, either directly or indirectly.

Solid waste disposal services are provided to all residents and businesses through landfills and transfers stations. The RDKB operates three regional landfills, three staffed transfer stations, 4 unstaffed transfer stations, as well as curbside organics and garbage collection in the Boundary.

Disposal facilities are regulated by the province and the RDKB must comply with operating certificates and permits that specify responsibilities including but not limited to environmental monitoring, types and quantities of materials buried and site security.

Waste diversion programs, which are an integral component in achieving "zero waste", include curbside collection, depot operations and partnerships with Extended Producer Responsibility (Stewardship) programs such as RecycleBC and Product Care Recycling.

Establishing Authority:

Bylaw 1090, the service establishment bylaw that created the fully regionalized integrated solid waste management service area states that the purpose of the function is to, "undertake and carry out, or cause to be carried out solid waste management in and for the local service area (the entire RDKB including all municipalities and electoral areas) and do all things necessary or convenient in connection therewith including, but not limited to, collection, removal, recycling, treatment and disposal of waste and noxious, offensive or unwholesome substances".

Bylaw 1090 was established in 2000 to regionalize solid waste management services partly in response to provincial legislation adopted in the early 1990's which delegated responsibility for solid waste management to regional districts.

Requisition Limit:

Bylaw 1090 limits the annual tax requisition to the greater of either \$1,000,000 or \$0.50 of net taxable value of land and improvements in the RDKB, which calculated out sets the current tax requisition ceiling at \$2,546,018.

2019 Requisition / Budgeted Expenditures / Actual Expenditures:

Requisition - \$1,310,420 / Budgeted Expenditures - \$4,705,420 / Projected Actual Expenditures - \$4,289,277

The majority of revenue is generated from user fees. In 2019, user fee revenue is projected to be approximately \$2,600,000.

Reserve Balance Projections:

	2019	2020	2021	2022	2023	2024
Opening Balance	\$2,122,083	\$1,656,804	\$2,277,672	\$229,202	\$259,794	\$292,392
Closing Balance	\$1,656,804	\$2,277,672	\$229,202	\$259,794	\$292,392	\$325,316

Regulatory or Administrative Bylaws:

RDKB Bylaw 1605 - A Bylaw to regulate and set fees for the use of Solid Waste Management Facilities in the Regional District of Kootenay Boundary.

Service Area / Participants:

Electoral Area 'A', Electoral Area 'B'/Lower Columbia/Old Glory, Electoral Area 'C'/ Christina Lake, Electoral Area 'D'/Rural Grand Forks, Electoral Area 'E'/West Boundary, Fruitvale, Montrose, Trail, Warfield, Rossland, Grand Forks, Greenwood and Midway.

Service Levels:

The RDKB operates six staffed disposal facilities as follows:

Facility	Location	Hours of Operation	Total Number of Hours Open Per Week
Beaverdell Transfer Station	40 Beaverdell Dump Rd.	Open: Wednesday, Sunday: 10am to 2pm.	
Station	Dump Ku.	Closed: Monday, Tuesday,	8
		Thursday, Friday, Saturday and	0
		Statutory Holidays.	
Rock Creek Transfer	1610 Rock	Open: Monday, Thursday,	
Station	Creek Dump	Saturday: 10am - 3pm, Sunday:	
	Rd.	10am - 5pm.	22
		Closed: Tuesday, Wednesday,	
		Friday and Statutory Holidays.	
Christina Lake	834 Cascade	September-June:	
Transfer Station	Dump Rd.	Open: Saturday to Monday,	
		Thursday: 10am to 3pm.	20
		Closed: Tuesday, Wednesday,	20
		Friday and Statutory Holidays.	
		July-August:	
		Open: Saturday to Tuesday,	
		Thursday: 10am to 3pm.	25
		Closed: Wednesday, Friday and	25
		Statutory Holidays.	
West Boundary	2050	Open: Tuesday, Friday,	
Regional Landfill	Motherlode	Saturday: 9am to 4pm.	
	Rd.	Closed: Monday, Wednesday,	21
		Thursday, Sunday and Statutory	
		Holidays.	
Grand Forks	8798 Granby	Open: Tuesday to Saturday:	
Regional Landfill	Rd.	8:30am to 4pm,	
		Sunday: 12pm to 4pm.	41.5
		Closed: Monday and Statutory	
		Holidays.	
McKelvey Creek	1900 Hwy 3B,	Open: Monday to Friday: 7am-	
Regional Landfill	Trail	5pm	64
		Saturday, Sunday: 10am-5pm	
		Closed: Statutory Holidays	<u> </u>

Unattended RDKB transfer stations are located at:

- Big White
- Idabel Lake
- Christian Valley garbage only
- Mount Baldy

In addition, green bin (organic food waste) and garbage collection is provided across all electoral areas and municipalities in the Boundary region with the exception of Greenwood. Small business curbside recycling collection service is provided in Rossland and Beaver Valley communities.

Residential packaging and printed paper recycling is provided by RecycleBC, which is a non-profit stewardship organization that was formed and is funded by brand holders in response to packaging and printed paper being added to the BC Recycling Regulation. RecycleBC provides recycling collection programs bi-weekly to about 95% of households in the RDKB. Recycling depots funded by RecycleBC and operated by the RDKB provide recycling services to those households not serviced by curbside and are also utilized by households serviced by curbside collection. The RDKB operate recycling bins at 6 staffed facilities plus provide 3 unattended recycling bins (see table below).

Location	Residential Drop Off	Residential Funded by RecycleBC	ICI Drop Off
Rock Creek Transfer Station	Yes	Yes	Yes
Christina Lake Transfer Station	Yes	Yes	Yes
Beaverdell Transfer Station	Yes	No	Yes
Big White Transfer Station (Unattended)	Yes	No	Yes
Idabell Lake Transfer Station (Unattended)	Yes	No	Yes
Mount Baldy Transfer Station (Unattended)	Yes	No	Yes
West Boundary Landfill	Yes	Yes	Yes
Grand Forks Landfill	No*	No*	Yes
McKelvey Creek Landfill	Yes	Yes	Yes

Packaging and Printed Paper Depot Facilities Operated by the RDKB:

Note: *The Grand Forks residential depot was transitioned to the Grand Forks Bottle Depot in October 2018.

Human Resources:

Staff: GM of Environmental Services (80% FTE), Operations Coordinator, Landfill Supervisor, Program Coordinator (95%), Engineering and Safety Coordinator (50% FTE), Clerk (50% FTE), Chief Operator, 2 Drivers, Landfill Operator, 11 Site Attendants.

Contractors: Collections in the Boundary, heavy equipment operations in Trail, various consulting firms retained (groundwater monitoring, volume measurements).

2019 Accomplishments:

Planning Projects

Organics Composting Infrastructure:

Region-wide organics diversion is a RDKB strategic priority. Organics diversion is successfully implemented across the Boundary (excluding Greenwood) with the focus on materials generated from the residential sector. Remaining goals are establishment of residential organics diversion for the eastern communities and region-wide commercial organics diversion. As there are a number of options regarding location of infrastructure and technology selection, the development of an Organics Management Strategy for the RDKB is seen as a key step in the process.

In the development of the Organics Management Strategy a number of scenarios were investigated including upgrading of existing RDKB composting operations, siting and construction of new composting infrastructure as well as the potential partnership with the Regional District of Central Kootenay. Following a thorough review of available scenarios, the RDKB Board of Directors indicated that the upgrading of the organics processing facility in Grand Forks as well as partnering with the Regional District of Central Kootenay for organics generated in the McKelvey Creek Wasteshed was the preferred option in moving forward.

Given this, the RDKB submitted an application under the Organics Infrastructure Program to upgrade the existing Grand Forks facility to take additional organic waste materials generated in the Boundary portion of the RDKB.

With respect to the food waste generated in the McKelvey Creek Wasteshed, at the April 10, 2019 Regional District of Kootenay Boundary Board meeting, the following resolution was passed: "196-19

That the Regional District of Kootenay Boundary Board of Directors approve, In Principle, the partnership with the Regional District of Central Kootenay in that the RDKB will supply and/or direct collected organic food waste from the McKelvey Creek Wasteshed to the Central Landfill facility once the organics processing infrastructure is constructed and operations and by no later than the end of 2022."

Although it was originally indicated that successful projects under the Organics Infrastructure Program would be announced in mid 2019, to date no formal announcements have been made.

Update of Landfill Closure/Post Closure Liability:

It is recommended that a qualified consultant be hired every three years to complete an analysis of the landfill lifespan and closure/post closure funding requirements for the McKelvey Creek, Grand Forks and West Boundary Landfills. A consultant for this work was secured and the work completed in early 2019 with results included in the 2019-2022 approved budget.

Landfill Design Operations Closure Plan Updates:

Planned for 2019 was the completion of updates to the Design, Operation, Closure Plans for the West Boundary, Grand Forks and McKelvey Creek Landfill. The RDKB did proceed with the updating of the DOC Plan for the West Boundary Landfill. The project is anticipated to be competed by the end of 2019.

Capital Projects

Weigh Scale Upgrades:

Works were also completed at the Rock Creek Transfer Station in 2018 to allow for the installation of the weigh scales that were removed from the Grand Forks facility. In 2019, the scale was put into place, calibrated and operational.

Excavator Purchase:

6

A new excavator was purchased to replace an existing piece of equipment in the fall of 2019. Delivery of the new excavator is anticipated for early 2020.

McKelvey Creek Landfill – Additional Property Purchase:

In 2019 an opportunity presented itself to the RDKB to purchase a 130 acre (53 hectare) property within the City of Trail and located above the McKelvey Creek Landfill. Securing the property will create additional buffer between the landfill and other properties, and ensure that the existing trail network between Miral Heights and Sunningdale remains intact and available for local recreation. The RDKB used \$170,000 in reserve funds to pay for the property.

Grand Forks Landfill – Paving:

In 2019, paving work at the Grand Forks Landfill was completed to finish areas around the weigh scale that was previously installed in 2018. Following a procurement process, Selkirk Paving Ltd. was contracted and the work was completed in early November.

2019 Projects Not Completed:

There were a number of projects planned for 2019 that were not completed for various reasons. These projects included:

- Design, Operation, Closure Plan Updates for Grand Forks and McKelvey Creek Landfills As the success of the grants for the development of organics composting infrastructure at the Grand Forks and McKelvey Creek sites will impact DOC Plan development, these projects are being held off until grant application results are known.
- Purchase of Service Truck Once in the process of initiating the process for purchase of a new service truck, it was determined that the original budget of \$55,000 was insufficient. A more appropriate budget allocation of \$95,000 has been included in the draft budget for 2020 along with a trade-in value of \$20,000.

Significant Issues and Trends:

Vandalism and Theft:

Incidences of vandalism and theft from Solid Waste facilities continued 2019 with multiple occurrences. The primary target of thieves was auto batteries from the heavy equipment in the Boundary. For each incident, the RCMP was contacted and where possible, camera footage was provided. Additional steps are being taken such as installation of additional lights and cameras as well as blocking roads that provide perimeter access to the sites.

At the McKelvey Creek Landfill site, beverage containers that were dropped off for collection by a nonprofit group have been targeted by thieves. It is anticipated that the occurrence of theft of beverage containers will continue and potentially increase as the deposit value is increasing from \$0.05 to \$0.10 per container.

Increasing Regulatory Requirements:

The Province of BC continues to impose stricter operating requirements on disposal facilities. There is the potential for these new regulatory requirements to significantly change the design and development requirements for landfills operated by the RDKB. At minimum, these requirements will require greater utilization of third-party qualified professionals for design, testing, analysis and reporting and will increase costs in future years.

In 2019, the Ministry of Environment, Compliance and Enforcement Branch began conducting site visits at RDKB Solid Waste Management Facilities. The last time these types of inspections were conducted was in 2012. The results of the inspections have shown some deficiencies at RDKB facilities, primarily associated with annual reporting and has also highlighted that some of the language in the existing Operational Certificates are outdated and ideally will be changed in the future.

Marketability of Recyclable Materials:

There are new export restrictions on mixed recyclables. Most of the recyclable material collected in BC is the responsibility of RecycleBC however the materials collected from small business and the few unstaffed depots in the RDKB will have a very difficult time meeting the low contamination levels demanded. Efforts to minimize contamination rates or sort products after collection will increase the cost of these programs.

2020 Projects:

At this time, formal announcements under the Organics Infrastructure Program have not yet occurred, however the project list for 2020 does outline further work on implementation of the RDKB Organics Management Strategy. The proposed work assumes that both the RDKB and RDCK are successful in the grant applications and as such infrastructure would be constructed at both the Grand Forks and McKelvey Creek Landfills.

Strategic Priority	Project name	Days to Complete	Internal/External	Budget (Est)	Risk/Priority
	Boundary Service Truck Replacement	10	Both	\$95,000.00	High
(P)	Fuel/Oil Storage Upgrades - Grand Forks Landfill	10	Both	\$25,000	High

	Grand Forks Landfill – Organics Infrastructure Upgrade	25	Both	\$155,000	High
	McKelvey Creek Landfill - Upgrades	25	Both	\$80,000	High

Project: Boundary Service Truck Replacement

Project Description:

The RDKB owns a 2008 service truck that that was scheduled for replacement in 2018. The purchase was deferred and is now planned as a 2020 project. The service truck is a critical piece of equipment used to maintain and repair RDKB equipment at all facilities in the Boundary and allows for solid waste management services to be provided in an efficient and cost effective manner.

Relationship to Board Priorities:

This project is directly related to the provision of "Exceptional Cost Effective and Efficient Services".

Project: Fuel/Oil Storage Upgrades – Grand Forks Landfill

Project Description:

The current fuel/oil storage infrastructure requires upgrading to meet current regulatory standards such as double wall liners and spill containment system. Due to the regulatory need, the project is considered as high priority.

Relationship to Board Priorities:

Having appropriate storage/spill containment for hazardous waste products is related to the strategic priority areas of "Environmental Stewardship/Climate Preparedness" as well as "Exceptional Cost Effective and Efficient Services".

Project: McKelvey Landfill Truck Replacement / Environmental Services Truck Replacement

Project Description:

The RDKB owns a 2004 mid-size truck with approximately 202,000 km that is used at the McKelvey Creek Landfill. Required repairs to the truck have increased in the last year, resulting for the need to replace the truck.

As the use of the truck at the McKelvey Creek Landfill is limited, the 2015 full-size truck that is currently being utilized by the Operations Supervisor (Boundary) will be transferred for use to McKelvey Creek. A new vehicle will then be purchased for the Operations Supervisor.

Currently the Environmental Services Department owns a 2016 full-size truck that is utilized by utilities and other services. The use of the truck is increasing to a point that a second truck is required to meet the needs of the department.

The currently existing full-size truck will be primarily used by the utilities component of the department while the newly purchased mid-size truck will be primarily solid waste. The second truck will also reduce the demands on the RDKB fleet vehicles as the General Manager of Environmental Services will now be able to access an ES truck when required.

Relationship to Board Priorities:

This project is directly related to the provision of "Exceptional Cost Effective and Efficient Services".

Project: Boundary Processing Recycling Contract Renewal

Project Description:

The Agreement for the Processing of Certain Materials (Recyclables) contract with Cascades Recovery is set to expire on June 30, 2020 and will require renewal. The RDKB provides the opportunity for businesses to drop off their cardboard, rigid plastic, tin cans and office paper for free at all our staffed Boundary facilities: Christina Lake Waste Transfer Station, Grand Forks Landfill, West Boundary (Greenwood) Regional Landfill, Rock Creek Waste Transfer Station, and Beaverdell Waste Transfer Station. The RDKB also provides drop off through bins at three other unstaffed locations: Mt. Baldy Waste Transfer Station, Big White Waste Transfer Station and Idabel Lake resort community. Materials from the Boundary (except for Big White) are transported by RDKB staff to Cascades Recovery in Kelowna for processing and marketing.

Relationship to Board Priorities:

Continuation of recycling products directly supports the goal of landfill extension by "zero waste" under the "Environmental Stewardship/Climate Preparedness" strategic priority area.

This project is also directly related to the provision of "Exceptional Cost Effective and Efficient Services".

Project: McKelvey Creek Wasteshed Recycling Contract Renewal

Project Description:

The Recycling Services Provision Contract - McKelvey Creek Wasteshed is set to expire on April 30, 2020. This work presently includes the provision of a drop off bin at the McKelvey Creek Landfill, the weekly curbside collection services for approximately 50 businesses in Beaver Valley and 80 businesses Rossland and the processing/marketing of the materials (cardboard, rigid plastic, tin cans and office paper). As the commodities market have changed significantly over the five years of the term, a procurement process will be initiated in early 2020 to ensure service provision is not interrupted.

Relationship to Board Priorities:

Continuation of recycling products directly supports the goal of landfill extension by "zero waste" under the "Environmental Stewardship/Climate Preparedness" strategic priority area.

This project is also directly related to the provision of "Exceptional Cost Effective and Efficient Services".

Project: Big White Transfer Station Recycling Infrastructure Upgrades

Project Description:

Current recycling opportunities for items such as large appliances, small appliances and lighting products are limited at Big White. Generators of these products are requested to return these items to depots in Kelowna. Unfortunately, many of these items are inappropriately left at the Big White Transfer Station. Due to this, RDKB staff have been working with Stewardship Organizations for products covered under the BC Recycling Regulation to improve recycling opportunities at the Big White Transfer Station. These discussions have progressed to a point that the addition of recycling infrastructure is planned for 2020. The proposed infrastructure currently includes the installation of modified sea containers for the collection and storage of products. As similar recycling infrastructure is located at other solid waste management facilities, this project has been included in the Regional Solid Waste Management Service.

Relationship to Board Priorities:

Continuation of recycling products directly supports the goal of landfill extension by "zero waste" under the "Environmental Stewardship/Climate Preparedness" strategic priority area.

This project is also directly related to the provision of "Exceptional Cost Effective and Efficient Services".

The project is anticipated to result in the need for additional education and engagement at Big White to ensure appropriate use of the infrastructure.

Project: Mount Baldy Transfer Station General Infrastructure Upgrades

Project Description:

The RDKB has unattended garbage and recycling bins located to serve Mount Baldy. Currently the bins are on gravel pads that are impacted when the bins are picked up and replaced. The result is bins that are constantly shifting and tilting. A project that has been identified for a number of years is the construction of a concrete pad to place the bins onto.

Relationship to Board Priorities:

This project is also directly related to the provision of "Exceptional Cost Effective and Efficient Services".

Project: Asset Management Planning

Project Description:

Participation in the corporate-wide asset management planning process.

Relationship to Board Priorities:

Due to the high costs of solid waste infrastructure such as landfill phase development, leachate collection and treatment, landfill closure and heavy equipment replacement, long term visioning of anticipated costs is critical in the provision of "Exceptional Cost Effective and Efficient Services". Appropriate long term visioning will also take into consideration changes to demographics as well as environmental and regulatory changes.

Project: Grand Forks Landfill Organics Infrastructure Upgrade

Project Description:

For the Boundary Wasteshed the chosen project is to upgrade the Grand Forks facility to accept additional food waste, biosolids and septage waste to produce a Class A compost product and meet the Organic Matter Recycling Regulation. This is a multi-year project that would be fully implemented over three years.

A preliminary design was established for the facility. The basic design included:

- Allowance for the production of two end-products to give greater flexibility in marketing of end-product. One from food waste/yard/garden/wood waste and the other from food/yard/garden/wood waste/biosolids/septage.
- Provide required leachate collection given that the Grand Forks Landfill facility is located on/or adjacent to an identified vulnerable aquifer.
- The use of Gore cover to minimize odor, maintain moisture levels.
- Construct "permanent" infrastructure in areas outside of power line ROW's.

The total costs for the project were estimated at \$3,546,020. This is at a class D level and a 20% contingency had been assumed.

In 2020, should the RDKB receive a grant under the Organics Infrastructure Program, work associated with the project would include:

- Stakeholder consultation including First Nations;
- Detailed design, permitting and tender development.

Relationship to Board Priorities:

The expansion of organic waste collection and composting operations is a significant opportunity for the RDKB to minimize green house gas emissions from landfill. In addition, the upgrades to the Grand Forks Composting facility will result in improvements to leachate collection and management, as well as odour management.

The project will entail significant public and stakeholder engagement in infrastructure development as well as initiating curbside collection programs. Communications will also be required in the marketing of finished compost products.

The projects have implications to cost effective and efficient services as the benefits will include extending landfill life and minimizing regulatory requirements surrounding landfill gas emissions.

Project: McKelvey Creek Landfill Upgrades

Project Description:

The Board has provided direction that for the organic waste generated in the McKelvey Creek Wasteshed a partnership with the RDCK was the preferred option. As such a letter of support and commitment to supply/and or direct collected organic food waste to the Central Landfill facility once the organics processing infrastructure is constructed and operational and by no later than the end of 2022.

Assuming the RDCK is successful in receiving the OIP grant, this will require the RDKB to construct a transfer station facility at the McKelvey Creek Landfill to collect food waste from residential and commercial collection programs.

As the current layout of existing infrastructure may have to be relocated to accommodate transfer station construction, it would be prudent to consider in the design process other upgrades to the facility that would result in better traffic flow (eg. second scale), minimizing safety issues, and the provision of water and sewer services. This is a multi-year project that would be fully implemented over three years.

In 2020, should the RDCK receive a grant under the Organics Infrastructure Program, work associated with the project would include:

- Stakeholder consultation;
- Preliminary design work including geotechnical assessment, water/sewer option evaluation;
- Detailed design, cost estimates and tender development.

Relationship to Board Priorities:

The initiation of food waste collection and diversion from landfill is a significant opportunity for the RDKB to minimize green house gas emissions from landfill.

The project will entail significant public and stakeholder engagement in infrastructure development as well as initiating curbside collection programs. Communications will also be required in the marketing of finished compost products.

The project has implications to cost effective and efficient services as the benefits will include extending landfill life and minimizing regulatory requirements surrounding landfill

gas emissions. In addition, changes to traffic flow and the addition of a second scale will improve wait times and reduce congestion.

Action Item List

16

REGIONAL	SOLID WASTE MANAGEMENT	SERVICE	
Initiation Date	Action / Issue	Staff Resources	Comments
Oct. 2016	Solid Waste Management Plan: That staff proceed with the Solid Waste Management Plan (SWMP) process with the new Provincial Guidelines in place. As part of the planning process, the Solid Waste Management Plan Steering Committee (SWMPSC) is requested to look at ongoing collection systems and a plan for the introduction or organics recovery in the east end, the problem of illegal dumping, and the possibility of developing prevention programs.	Environmental Services Staff	On-going work, eastern communities organic diversion planning activities underway. The matter is being considered by the SWMP Steering Committee. No change to status, longer term project, should refer action item to Solid Waste Management Plan Steering Committee.
May 2017	Organics Collection: Analyze existing collection programs and determine steps to add organics.		Work in progress.

REGIONAL DISTRICT OF KOOTENAY BOUNDARY FIVE YEAR FINANCIAL PLAN EXHIBIT 010 REGIONALIZED WASTE MANAGEMENT SERVICES

Emergency Preparedness Service

2020 Work Plan

Service Name: Emergency Preparedness

Service Number: 012

Committee Having Jurisdiction: Board of Directors – Protective Services Committee

General Manager/Manager Responsible:

James Chandler, General Manager Operations / DCAO Reporting to Mark Andison, CAO

Dan Derby, Kootenay Boundary Regional Fire Rescue, Regional Fire Chief reporting to James Chandler, General Manager Operations / DCAO

Mark Stephens, Interim Manager of Emergency Programs reporting to Dan Derby, Regional Fire Chief

Description of Service:

The Emergency Preparedness Service has been established to provide an integrated and effective approach to emergency preparedness, response, recovery, and mitigation within all municipalities and electoral areas of the Regional District of Kootenay Boundary (RDKB). An Emergency Management Program Agreement has been implemented to facilitate the cooperation between the Regional District and participating municipalities. The Agreement outlines the process by which resources are shared and how joint or Regional Emergency Operation Centers are established. Under the agreement, everyone adheres to one Regional Emergency Plan (the Plan).

The Plan provides the policies and procedures as the framework to guide Regional District activities before, during and after an emergency event. Based on the BC Emergency Management System, the plan is intended to meet the requirements of all applicable Provincial legislation and regulations. The RDKB works cooperatively with other internal and external Emergency Plan Holders, Agency Partners and Emergency Responders to ensure a state of readiness should an emergency or disaster occur. In addition to reviewing the Plan along with its policies and procedures on an on-going basis, Emergency

Program staff participate in annual exercises and training to further advance the ability of the RDKB and partner municipalities to effectively coordinate the response to any emergency or disaster that occurs within the Region. Additionally, individuals and families within the Regional District must also take the necessary steps to prepare for emergencies and disasters.

A strong, well-resourced and well-supported Emergency Preparedness Service will ensure that the RDKB's response to, resiliency during, and recovery from emergency events within the District will be greatly enhanced.

Establishing Authority:

Section 332, Local Government Act, RSBC 2015 (formerly Section 796, LGA, RSBC 1996, ch. 323)

Bylaw No. 1256 Electoral Areas 'A', 'B', 'C', 'D' & 'E' for the purpose of establishing an Emergency Response and Recovery Plan(s) for the RDKB, adopted January 27, 2005.

Bylaw No. 1286 amending Bylaw No. 1256 to include all municipalities within the RDKB, adopted November 24, 2005.

Bylaw No. 1613 RDKB Emergency Planning Service Establishment Amendment Bylaw approving the City of Rossland's re-entry to the service as a participant.

Requisition Limit: Not Applicable

2019 Requisition / Budgeted Expenditures / Actual Expenditures: \$259,111/\$564,158 / \$3,161,905

Regulatory or Administrative Bylaws:

Bylaw No. 1312 A bylaw to regulate the RDKB Emergency Management Organization as a service of the RDKB, adopted May 4, 2006.

Service Area / Participants: All Electoral Areas and Municipalities within the Regional District.

Service Levels

Emergency planning, response, mitigation, and recovery services.

Human Resources:

2020 Staffing				
EM Staff	🔽 Operational FTE 💌	Operational Day	💌 Project FTE 💌	Project Days 🔽
Interim manager of Emergency Programs	76%	171	24%	54
Fire & Emergency Services Administrative	e			
Assistant	50%	112.5	0%	0
Regional Fire Chief / Fire Dispatch				
Manager	25%	56.25	0%	0.

The staffing table above shows the configuration of staffing for 2020. Chris Marsh, Deputy Flood Recovery Manager will remain working on the Boundary Flood Recovery file full time until at least October 2020. Funding has been confirmed for the backfilling of his position until Late October 2020. The Interim Manager of Emergency Programs will continue to be the sole staff member in the emergency program until such time. Events over the last number of years have demonstrated a need to develop both the Policy Stream and an Operational Stream of Emergency Management. The Policy Stream is needed for program development and documentation, whereas the Operational Stream relates to the Response and Recovery functions of emergency events.

2019 Events:

In 2019, the RDKB was fortunate to have less active freshet and wildfire seasons. Although the EOC was not officially activated during the 2019 Freshet, a level one response was necessary while monitoring precipitation events during times of high water. Similarly, during the wildfire season, a number of smaller, less than one-hectare fires started within the RDKB. These fires were monitored and updates were provided to Area Directors, staff and the general public. Additionally, the Eagle Bluff Fire that burned outside of Oliver BC required monitoring as it burned within 7 km of the RDKB Area 'E' boundary and within 10 km of Mt Baldy Ski Resort. Below is a list of events within the RDKB in 2019.

- Salmo River Fuel Spill, March 2019, 2 Days, Level 1 Activation
- Severe Weather, April 2019, 2 days, Level 1 Activation
- Freshet, April-May 2019, 10 days, Level 1 Activation
- Wildfire, July 2019, 10 days, Level 1 Activation
- Teck Acid Spill, July 2019, 2 Days, Level 1 Activation

A ratio of response to recovery work that is widely used in the Emergency Management field is 1:50. This means that for every one day the EOC is active, there will be 50 days of recovery work. A response is defined as an event that requires the activation of the EOC with an EMBC task number.

In 2019 the following projects were completed.

- Flood Response plan Complete
- New Dedicated RDKB Emergency Website Complete
- Evacuation Alerting System Complete
- EOC Technology Upgrades, grant Complete
- Implementation of Cloud Base storage for Emergency Management files Complete
- Emergency Communication Plan complete
- Boundary ESS/ Canadian Red Cross Mobile Office and Storage, grant 40% Complete
- Evacuation Route Planning, grant 50% complete
- CRI FireSmart Project, grant 30% complete

Significant Issues and Trends:

In general, disasters of increasing frequency and magnitude are affecting BC communities. Two significant flooding seasons concurrent with the two worst wildfire seasons on record, followed by a moderate freshet and fire season epitomize the instability and unpredictability of our environment due to climate change. This pattern highlights the need for significant application of resources to Emergency Management functions within local government.

Recently released reports such as the *Climate Action Initiative* are pointing to rising temperatures in all seasons as well as decreased precipitation in the summer and increased precipitation in the fall-

winter and spring. The report also notes that we will experience more severe weather events with day-to-day heavy rain expected to increase by 25% and rain events will be 30% more likely to be heavy rain. By all accounts, the RDKB will face an increase in both the number of events and the intensity of events. These events pose a challenge to staff as severe weather often manifests with little to no warning. Current alerting systems in place at Environment Canada and the Province of British Columbia are not set up to provide notice of these rapidly developing weather events. The current systems often need 24 hours or more of weather data and modeling to provide useful notice.

An ongoing focus on relationship building and interagency cooperation are crucial for the effective delivery of the Emergency Management program throughout the RKDB and for a successful EOC activation. Priority needs to be given in future years to service delivery over projects if the current staffing model is not adjusted. Although grants are an innovative way to fund projects and consultants can take the main bulk of the workload, there is always a staff time component and this needs to be taken into consideration. On average a small grant, less than \$30,000, takes roughly 10 days of staff time to see through from application to final report, as the reporting requirements are increasing. Larger grants can see staff time needs as high as 40 days. The time needed to manage these grants and projects can take valuable time away from running the Service and can affect interagency relationships, for example leaving volunteer groups feeling unsupported.

In recent months, there has been a large turnover of staff at a number of our municipal partners, along with new staff at both our municipal partners and the RDKB. The Emergency Management program looks to develop a training and exercise program to help ensure that there are trained EOC team members able to respond to activations when they are needed.

In late 2020 the funding to backfill the Deputy Flood Recovery Manager will run out, the Emergency Program will start the transition conversation during the first part of the year to map out this transition. This does not mean that the recovery from the 2018 freshet is complete, there will be some recovery items and project remaining, this will become clearer as we get closer to the transition time.

The Work Plan projects as detailed below represents roughly 438 days of staff time to complete. Given the five-year average event workload and Emergency Program administrative workload of 171 days, the total time available in 2020 for Work Plan projects is **54 days**.

The discussion will need to take place in 2020 on how the Emergency Management program will be staffed as it pertains to program development, grant opportunities, response and recovery activities, and the impact this will have on the list of projects.

The list of projects below is roughly ordered based on what the Emergency Management staff see as Board priorities, funding availability and best use of staff time.

Project time cutoff line

Normal Activation	54 day project time given 5 year EOC activation average.
No Activation	If 2020 has no EOC activations an additional 68 days will be avaiable for project work. The Emerngecy Program will update the Board of Driectors as to this status during the quarturly updates.

RDKB BUILDING INSPECTION DEPARTMENT

Brian Champlin, Manager of Building Inspection Services

Building Inspection Services

2020 Work Plan

Service Name: Building Inspection Services

Service Number: 004

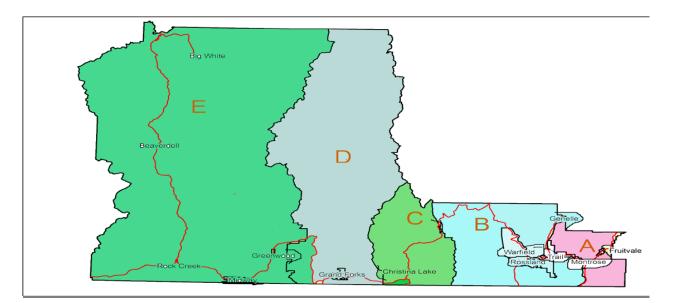

Committee Having Jurisdiction: Committee of the Whole – Finance

General Manager/Manager Responsible:

J. Chandler, General Manager, Operations/DCAO / B. Champlin, Manager of Building Inspection Services

Description of Service:

Building Inspection Services provides building and plumbing inspection throughout all electoral areas. The service also provides building and plumbing inspection services to six municipalities on a contract basis.

Structure of Building Inspection Services

RDKB Building Inspection Services is considered to be an electoral area service. It was one of the RDKB's first services established upon incorporation, under Letters Patent. RDKB Bylaw No. 1, 1966 was the original regulatory building bylaw for the electoral areas. It has since been replaced by Bylaw No. 449, 1985 and amendments thereto, as the regulatory bylaw that currently applies to all of the electoral areas. The service was converted in 1989 to an extended service established by bylaw (Bylaw No. 619, 1989).

Municipal Contracts

Over the years, the RDKB established contracts with several member municipalities for the purpose of providing building inspection services to municipal partners. This contract arrangement recognizes the economies of scale associated with sharing building inspection service among the participating jurisdictions. The current contracts with the municipalities were originally developed in 1994. At that time each of the eight municipalities signed contracts for building inspection service. Since then, two municipalities have used the termination provisions in the contract to withdraw from the contractual arrangement. The City of Rossland terminated its contract with the Regional District in 2008; but has since approached the Regional District to engage in a new contract to provide vacation relief services for the City of Rossland's Building and Plumbing Official. Discussions are underway, but the details of the contract have not been finalized. The City of Grand Forks terminated its contract in 2013.

The contracts with municipalities have been reviewed twice since they were originally signed in 1994 with no resulting changes to the structure of the service or the contracts themselves.

The contract outlines the elements of the building inspection service for which each party is responsible. Each participating municipality contributes to the costs of operating the service based upon a formula that is contained within the contract. The formula for determining each participant's financial contribution to the service utilizes three methods of apportionment:

- Each participating member municipality and electoral area contributes a basic service fee determined by apportioning the costs of the Manager of Building Inspection Services salary plus a 40% administration fee among the participants, on the basis of population;
- 2. Based upon the actual value of permits issued two years previous, each member municipality and electoral area pays an additional fee as follows:
 - i. \$5.00/\$1,000 of residential permit value;
 - ii. \$2.00/\$1,000 of commercial permit value;
 - iii. \$1.00/\$1,000 of industrial permit value;
 - iv. \$1.00/\$1,000 of institutional permit value;
- 3. Additional funding requirements for the operation of the service after the above-described fees have been allocated are apportioned among the participating municipalities and electoral areas on the basis of Hospital District Assessment.

Under the terms of the contract, all building permit fees generated from within a municipality are returned to that municipality.

Because one of the apportionment considerations is the actual value of permits issued two years previous (i.e. apportionment in 2019 is based upon each participant's respective construction values in 2017), there has been some variability in the requisition paid by participating members from year to year. Significant requisition increases in any given year have generally been associated with increased construction values within that municipality, so building permit fee revenues returned to the municipality tend to offset requisition increases - to varying degrees.

Establishing Authority:

Section 332, *Local Government Act, RSBC 2015* (formerly Section 796, LGA, RSBC 1996, Ch. 323) Building and Plumbing Inspection Extended Service Establishment Bylaw No. 619, 1989

Requisition Limit: No requisition limit

2020 Requisition / Budgeted Expenditures / Actual Expenditures:

\$1,115,132 / \$1,115,132 / TBD

Regulatory or Administrative Bylaws:

RDKB Building and Plumbing Amendment Bylaw No. 449, 1985, and amendments thereto

Service Area / Participants:

Throughout all electoral areas; and the following municipalities, on a contract basis:

- City of Trail
- City of Greenwood
- Village of Fruitvale
- Village of Montrose
- Village of Warfield
- Village of Midway

Human Resources:

The Manager of Building Inspection Services is responsible for operational management of the Building Inspection Service, along with the other services within his mandate. The department is currently staffed with eight employees. All employees report directly to the Manager of Building Inspection Services.

Staffing for the department is composed of:

- Two Building and Plumbing Officials Grand Forks
- Three Building and Plumbing Officials Trail
- 1 Clerk/Secretary/Receptionist Grand Forks
- 1 Clerk/Secretary/Receptionist Trail
- Manager of Building Inspection Services Trail

• 2 (Relief coverage/casual Clerk/Secretary/Receptionists) – Trail and Grand Forks

The Building Inspection Department's staff contingent is split between two work sites. In the Trail office, there are currently two Level 1 Building and Plumbing Officials, 1 Level in training, and 1 Level 3 Building and Plumbing Official (Manager) and 1 full time Clerk/Secretary/Receptionist, with 1 Vacation Relief Clerk/Secretary/Receptionist that serve all of the Lower Columbia communities in Electoral areas A and B, except Rossland.

In the Grand Forks office there is 1 Level 3 Building and Plumbing Officials, 1 full-time Clerk/Secretary/Receptionist, 1 Vacation Relief Clerk/Secretary/Receptionist, and recruitment in progress (November 2019) to hire the second Building and Plumbing Official position, vacant due to retirement in September 2019, serving Electoral Areas 'C' - Christina Lake, 'D' – Rural Grand Forks and 'E' – West Boundary.

2019 Accomplishments:

Building Permit Applications

The primary goal of the Building Inspection Service is to provide the most effective and efficient building inspection service possible on a day-to-day, operational basis to the communities and clients that the department serves, given the resources available. Accordingly, one of the goals of the 2019 departmental work plan was to: *"Continue to provide prompt and effective building and plumbing inspection services to property-owners and contractors throughout the RDKB."* Comments from our industry stakeholders regarding our customer service, promptness of inspections and issuance of building permits has been very positive, as our building department staff are very conscious about customer service and meeting the needs of homeowners, contractor and other industry shareholders in the building community. Inspections are conducted on the day they are requested, unless the day is full, then they are conducted on the following day. Building Permits are issued within 10 working days once all the information has been submitted by the homeowner or contractor.

The operations of the department are largely reactive in nature, responding to applications for building projects with professional plan reviews, a series of inspections for each project, and required documentation.

For 2019, the number of building permit applications processed by the department over the year was similar to the 2018 numbers. The total number of building permits issued by the end of December 2019 decreased slightly by 0.418% to 481, from a total of 502 in 2018. While the number of building permits is down for 2019, the value of construction also decreased below 2018 by \$8,269,625. The detailed statistics, with building permit numbers and values to December 2019 are broken down by electoral area and municipality and are shown in the tables on the next page.

The final year end numbers are in up to the end of December , as follows:

Total Permits in 2019 = 481 versus 502 in 2018. (21 Permit less than 2018) **Revenue in construction value of permits 2019 = \$49,560,661** versus \$57,830,286 in 2018 A difference of \$8,269,625 less than in 2018

Property Management Software System

The Building Inspection Department is using an outdated, unsupported version of CityView software to manage its building permitting system and documentation. The software is being replaced with a new version to avoid an inevitable software failure that could have a significant impact upon the department's productive capacity. Staff will be trained on this new version in the coming months, once the final logistics have been worked out.

New Inspection Checklist Procedures

During 2019, the Building Inspection Department refined the building and plumbing inspection checklists that we have been using to ensure that each inspection on a project is conducted and documented uniformly and consistently with the requirements of the respective building bylaws.

One of the goals identified in the 2019 department work plan was to ensure that all building officials are consistently using these checklists while conducting inspections.

During the course of the year it was identified that the inspection checklist is being used more consistently by all inspectors and ongoing consistency is imperative to our operations in order to reduce our risk of liability. Moving forward, our goal for 2020 is still 100% compliance which is achievable once we move to an electronic inspection software program, such as City view mobile coming online in 2020, which includes a checklist that each building inspector must complete in full before they can file the inspection report.

The benefits of electronic inspection software in addition to being simple and easy to use, is the consistency that is automatically achieved when a user enters data into the inspection program; leaving no room for complacency. In addition to this, once the report is filed, a copy of the inspection is automatically sent to the Contractor, Owner or both, and Building Department along with any photographs of deficiencies that were taken during the inspection.

Building Bylaw Review

Another goal identified in the 2019 departmental work plan was to review and develop a new building bylaw. The Building Inspection Department has revised the current building bylaw that applies to the electoral areas (Bylaw 449, 1985) as the Municipal Insurance Association of BC has now produced an updated "Core Building Bylaw" for local governments to use as a model bylaw to minimize their liability exposures. It was expected that the new building bylaw would be ready for adoption by the Board in late February or early March of 2019; however, we chose to delay the adoption of this bylaw until the province introduced some additional legislation into the to the BC Building Code that may have affected our proposed building bylaw. The bylaw has been vetted by our solicitors and will be presented to the Board of Directors in early 2020.

Asbestos Exposure Control Safe Work Procedure Implementation

Another goal identified in the 2019 departmental work plan was to monitor the process for the recent implementation of the new Asbestos Exposure Control Safe Work Procedures program, developed to ensure that all workers were following these regulations on a day to day basis to ensure employee safety. A new safe work procedure was established through the RDKB's Occupational Health and Safety Committee in late 2016 which has impacted upon the operation of the service. Based on a September 2016 WorkSafe BC inspection and a subsequent requirement imposed by WorkSafe BC, the RDKB has developed a new Asbestos Exposure Control Plan and some safe work procedures associated with that plan. One of the safe work procedures relates directly to the work of Building and Plumbing Officials. The new procedure applies to renovation and demolition work on pre-1990 buildings. It requires owners or contractors to retain a gualified person to perform a hazardous materials survey prior to conducting work where hazardous materials may be disturbed. The inspection report and any abatement requirements must be posted at the site. Any required abatement must be undertaken by qualified hazardous materials abatement workers. Witten confirmation that any required abatement has been completed must be provided before any work on the building commences. While these are generally considered to be WorkSafe BC regulatory requirements, the RDKB Building Inspection Department has been enforcing these requirements through the new safe work procedure to protect RDKB inspection staff from potential exposure to hazardous materials in the course of their inspection work. There have been a number of impacts associated with the new safe work procedure. For those owners and contractors who previously had not been retaining gualified persons to perform hazardous materials surveys, this additional requirement has added to the cost of projects. Based upon staff's discussions with prospective applicants about the newly imposed requirements, the new requirements had an impact on property-owners decisions as to whether they will begin a new project. The new requirements have very likely resulted in an increase in the number of projects that proceed without a required building permit, to avoid the additional costs associated with having a hazardous materials survey completed and any subsequent abatement work. The ultimate benefit of the new procedure is greater assurance that RDKB inspection staff, construction workers, and other workers that may be exposed to hazardous materials downstream (eg: landfill site workers) are better protected from exposure to hazardous materials. Our review throughout the year has revealed that all of our employees are in compliance with the hazardous materials regulations.

Enforcement

"**C**ontinued enforcement of the various building bylaws administered by the department throughout the RDKB" was also a goal of the 2019 work plan and will continue to be a departmental goal from year-to-year. Staff reports to the Board recommending enforcement action against property-owners in contravention of the Building Bylaw were prepared and acted upon throughout the year relating to rural properties. Similar reports were prepared and sent to municipal staff for properties located within the participating municipalities for Council consideration. Our ultimate goal for 2019 and future years is 100% voluntary compliance.

Significant Issues and Trends:

Staffing

The Building Inspection Services department once again faced a major staffing issue in 2019 that points to a longer term issue that will initially impact the department moving forward for the next couple of years, as the department lost a Level 3 Building and Plumbing Official due to retirement and the department was only able to recruit a Level 1 replacement. In addition to this, at the beginning of October 2019 our Senior Level 3 Building and Plumbing Office moved to another City and his position is currently vacant. Recruitment is currently in progress. Two of our building officials from the Trail office are covering off, the inspections in Grand Forks and the surrounding areas one to two days per week, until a replacement can be found to fill this position. It is important to note, that we have only one Level 3 Building and Plumbing Officials in addition to the Manager. Our goal is to recruit or develop internal staff to the Level 3 qualification.

With the new statutory regime that has been enacted by the provincial government relating to Building Inspection, there are mandatory qualification requirements applying to local government building inspection staff which takes effect on February 28, 2021. It will be necessary at that time for any work undertaken by a local government on complex buildings (commercial, industrial, multi-family residential, etc.) to be processed by a building inspector that has achieved Level 3 status.

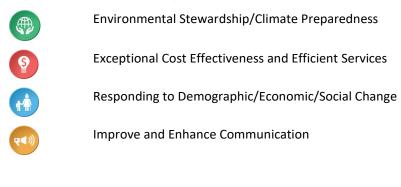

The challenges faced by local governments across the province recruiting qualified building officials is significant and will increase over the next few years in light of the new regulatory requirements.

Building Activity

While the increased building activity over the past couple of years, economic projections, and local anecdotal information, are now showing that building activity in 2020 will decline slightly at the beginning of the year and may continue with lower permit numbers and revenue throughout the year.

2020 PROJECTS

Legend – RDKB Board Strategic Priorities

Project: Development and Implementation of the Step Code

Project Description:

Include a new section in the Building Bylaw to allow inclusion of various "Steps" of the step code, to be introduced into the electoral areas, based upon the "Revised Core Building Bylaw" which has been produced by the Municipal Insurance Association following the enactment of the *Building Act* and associated regulations.

Project Timelines and Milestones:

The proposed new Building Bylaw is currently underway and being vetted by our Lawyers and is expected to be ready for Board review and adoption by March 2020.

Project Risk Factors:

Timeline dependent upon review and updating the new core bylaw which may include one of the 5 steps for residential buildings and 4 steps for larger complex buildings, regulated by the energy step code to address specific requirements within the RDKB, prior to adoption by the board.

Internal Resource Requirements:

The project will be administered by the Building Inspection Department without resource requirements from other departments.

Estimated Cost and Identified Financial Sources:

Approximately \$5,000 for legal review.

Relationship to Board Priorities:

This project supports the following categories for the RDKB's strategic plan:

Responding to Demographic/Economic/Social Change

Environmental Stewardship/Climate Preparedness

Project: Continuation of the Mentorship Program for RDKB Building Officials to achieve Level 3 Qualifications.

Project Description:

This program is for all RDKB Building Officials who currently do not meet all of the requirements for Provincial Qualification, as the new statutory requirements enacted by the provincial government related to building inspection come into force on February 28, 2021. After this date, Building Officials will only be able to conduct plan reviews and building inspections for the level of inspection they have qualified for, such as level 1 – "Houses and Duplexes", level 2 – "Small Commercial Buildings, plus level 1 buildings" or level 3 – All buildings. The program consists of in-house Building Inspection Training Modules and inter-departmental work experience in the planning and mapping, environmental services, administration and Public Safety

departments, supplemented by online Building Code courses from BCIT and examinations from ICC/BOABC and has a program duration just over one year.

Project Timelines and Milestones:

Ongoing from mid-February 2019 with completion in December of 2020.

Project Risk Factors:

There is a significant risk to the ability of the department to conduct plan reviews and building inspection after February 28, 2021 if these goals are not achieved.

Internal Resource Requirements:

The project will be administered by the Building Inspection Department and an interdepartmental training component of shared work experience resources will be the only requirement from other departments. No monetary resources will be required from other departments.

Estimated Cost and Identified Financial Sources:

The primary source of funding would be the annual tax requisition and it is anticipated that no additional revenue will be required over and above those resources previously allocated in 2019 budget, as much of this training will be in-house. This training allowance is taken from Page 10 "Travel Expenses" and includes Technical Seminars, Technical Conferences, and Training and Examinations.

Relationship to Board Priorities:

This project supports the following categories for the RDKB's strategic plan:

Exceptional Cost Effectiveness and Efficient Services

Project: Asset Management Planning

Project Description:

Participation in the corporate-wide asset management planning process.

Project Timelines and Milestones:

Throughout 2019/2020.

Project Risk Factors:

Departmental work will be guided by external sources (Corporate/Board plans for completion of Asset Management Plan)

Internal Resource Requirements:

The corporate asset management plan is being led by the Finance Department, with participation by all other departments.

Estimated Cost and Identified Financial Sources: N/A

Relationship to Board Priorities:

This project supports the following categories for the RDKB's strategic plan:

Exceptional Cost Effectiveness and Efficient Services

Project: Labor Reserve for 2 Building Official Positions

Project Description:

The Goal is to implement a labor reserve for a two year period to offset labor costs during slow times.

Project Timelines and Milestones:

Throughout 2020/2022

Project Risk Factors:

With construction trends slowing currently, labor costs could impact the number of Building Official positions required to continue the services that we provide the general populous over the next couple of years.

Internal Resource Requirements:

Labor Reserve - Goal 2 years wages for 2 Building Officials

Estimated Cost and Identified Financial Sources:

The goal is to budget \$50,000 annually, with the funds allocated from our year end surplus until accumulations reach \$200,000. Financial Sources will be from annual surplus revenues, as applicable.

Relationship to Board Priorities:

This project supports the following categories for the RDKB's strategic plan:

Exceptional Cost Effectiveness and Efficient Services

Thank you for the opportunity to submit this work plan for $2020\,$

9-1-1 Emergency Communications Service

2020 Work Plan

Service Name: 9-1-1 Emergency Communications Service

Service Number: 015

Committee Having Jurisdiction: Board of Directors – Protective Services Committee

General Manager/Manager Responsible:

James Chandler, General Manager Operations / Deputy CAO Dan Derby, Regional Fire Chief / Fire Dispatch Manager

Description of Service:

The RDKB's 9-1-1 Emergency Communications service provides both public safety answering point (PSAP) and secondary service answer point services. Our PSAP service are provided by E-Comm 9-1-1 in Vancouver under contract in partnership with the Regional District Central Okanagan (RDCO). They provide PSAP services for 25 regional districts and communities across British Columbia. A PSAP call center is responsible for answering calls to an emergency telephone number (9-1-1) for police, fire and ambulance services, where they are transferred to the requested agency. Our secondary service answering point services are provided by Kelowna Fire Dispatch, under contract between the City of Kelowna and the Regional District Kootenay Boundary. Their dispatchers are supported by a computer aided dispatch system that allows for swift and easy access to a wide range of information critical to efficient dispatch of fire rescue services.

Establishing Authority:

Section 332, Local Government Act, RSBC 2015 (formerly Section 796, LGA, RSBC 1996, ch. 323)

Bylaw No. 1152 adopted 26th day of July, 2001

Requisition Limit: N/A

2019 Requisition / Budgeted Expenditures / Actual Expenditures: \$323,966 / \$369,691 /

Regulatory or Administrative Bylaws: Not Applicable

Service Levels: E-COMM 9-1-1(public-safety answering point) and Kelowna Fire Dispatch (secondary safety answering point)

Human Resources:

- General Manager Operations / Deputy CAO
- Regional Fire Chief / Fire Dispatch Manager
 - 1 Fire & Emergency Services Administrative Assistant
- Kelowna Fire Dispatch
 - o Deputy Chief, Communications and Emergency Management
 - o Fire Dispatch Supervisor
 - o 12 Fire Dispatchers (minimum staffing of 2 at all times)

2

2019 Accomplishments:

In May 2018, Trail Fire Dispatch closed and fire dispatch services were transitioned to the City of Kelowna's Fire Dispatch, under a 5-year contract (April 30, 2018 – December 31, 2022) . In September the RDKB, board approved the extension of 9-1-1 agreement with the Regional District Central Okanagan (November 18, 2019 – December 31, 2020).

Operationally all repeater sites had preventative maintenance and repairs completed in 2019. Our Granite Mountain repeater west of Rossland suffered radio signal interference because of landlord improvements. Working with contractors, regulators and co-location tenants' solutions were identified to restore communications to normal levels.

Renewal of repeater site and network agreements continues to be a priority to ensure the long-term reliability of our fire dispatch network.

Significant Issues and Trends:

The transition to Kelowna Fire Dispatch has taken far longer than forecasted by the City of Kelowna in their proposal. This is a result of their underestimating the scope and complexity of the services provided by Trail Fire Dispatch and management staffing changes within the Kelowna Fire Department. Transition projects that were scheduled to be completed by the first quarter of 2019 are still ongoing in December. Additionally, the time and effort to address operational issues with the dispatch services has continued to utilise department staff time in excess of the anticipated level of effort and continued throughout 2019, effecting staff resource and time for other work plan projects.

While four of the seven departments serviced by our dispatch network upgraded to a fibre network connection through the transition process in 2018. The other three fire departments (Greenwood, Midway & Beaverdell) will need to be upgraded to a fibre connection when fibre connectivity is available to Kelowna.

Upgrades to our repeater site and dispatch centres radio networks will provide significant cost pressures moving forward (2022) to meet federal Next Gen911 standards.

2020 Projects:

Project #1: Fire Dispatch Network Radio Coverage Assessment

Project Description: A comprehensive review of repeater site locations and equipment to determine communications coverage requirements for future improvements.

Project Timelines and Milestones: Based on communications consultants availability and site access the project is anticipated to take four months with completion in time for the 2021 budget cycle.

Project Risk Factors: The project timeline could be affected by external factors that include contractor availability and access to repeater sites during wildfire season.

Internal Resource Requirements: N/A

Preliminary Cost and Identified Financial Sources: The 2020 budget includes \$10,000 for consulting services to coordinate the technical and operational requirements of our fire dispatch repeater site network.

Relationship to Board Priorities: It meets the strategic priorities of the RDKB's strategic plan which is "We will continue to focus on good management and governance" & "We will ensure we are proactive and responsible in funding our services".

Project #2: Asset Management Planning

Project Description: Participation in the corporate-wide asset management planning process.

Project Timelines and Milestones: Throughout 2020.

Project Risk Factors: Departmental work will be guided by external sources (Corporate/Board plans for completion of Asset Management Plan)

Internal Resource Requirements: Asset management planning work will require significant input, direction and assistance from RDKB administrative staff. The corporate asset management plan is being led by the Finance Department, with participation by all other departments.

Estimated Cost and Identified Financial Sources: N/A

Relationship to Board Priorities: It meets the strategic priorities of the RDKB's strategic plan which is "We will continue to focus on good management and governance" & "We will ensure we are proactive and responsible in funding our services".

Remaining Board Action Items:

Initiation Date	Action / Issue	Staff Resources	Comments
Jan 2017	<u>Greenwood Area Communication Gaps:</u> With the installation of a new repeater tower in the Roderick Dhu Mountain Area of Grand Forks, Staff will follow- up regarding communication coverage to include the Greenwood communication gaps from the North Boundary Road.	Emergency Communications Staff	Include Greenwood communications gaps in Fire Dispatch Network Radio Coverage Assessment.

STAFF REPORT

Date:07 Jan 2020To:Chair Langman and Board of
DirectorsFrom:Brian Champlin, Manager of Building
Inspection ServicesRe:Building Bylaw Contravention

Issue Introduction

A staff report from Brian Champlin, Manager of Building Inspection Services, regarding a Building Bylaw Contravention for the property described as:

File

2284 Old Salmo Road, Fruitvale, B.C. Electoral Area 'A' Parcel Identifier: 010-363-947 Lot 1 District Lot 1236 Kootenay District Plan 8462 Owners: Patrick and Patricia Doyle

History/Background Factors

The Building Official confirmed that there have been no changes concerning the above referenced property. The owners, Patrick and Patricia Doyle, have made alterations to a single family dwelling without a valid building permit.

Implications

Should the Regional District not file a Notice on Title against the above mentioned property pursuant to Section 302 of the *Local Government Act* and Section 57 of the *Community Charter*, future purchasers of the property would not be aware that the building(s) are in contravention of the B.C. Building Code and/or Building Bylaw.

Advancement of Strategic Planning Goals

Not applicable.

Background Information Provided

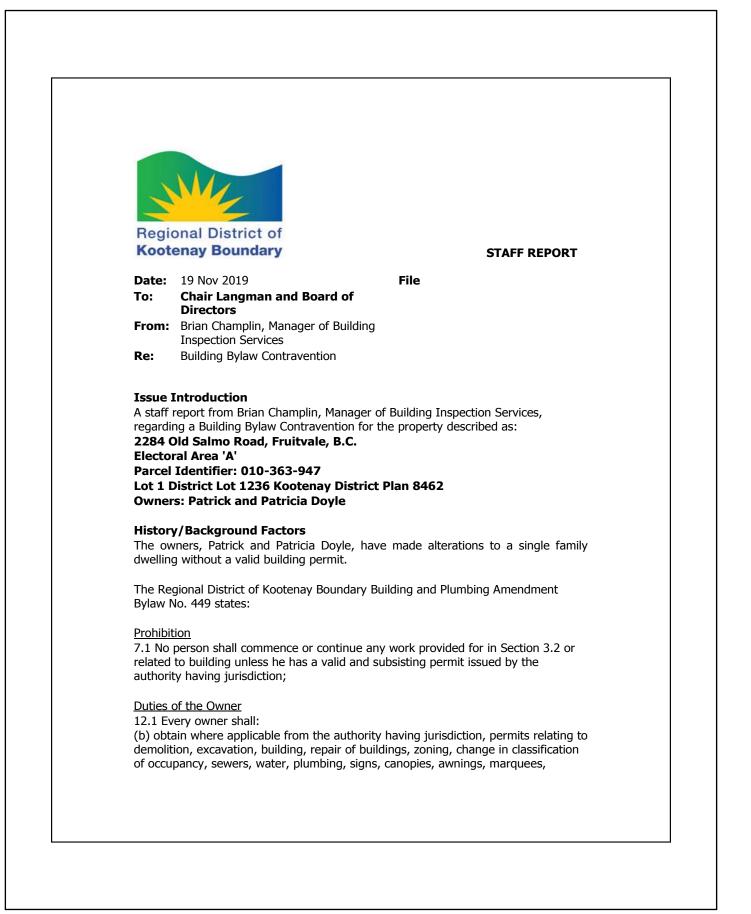

- Staff Report dated November 19, 2019 submitted to the Board regarding the building bylaw contravention;
- Letter dated December 19, 2019 inviting the Owners to the January 15, 2020 Board Meeting.

Alternatives

1. Once all deficiencies are rectified, the Owner may request that that Regional District of Kootenay Boundary Board of Directors remove the Notice on Title upon receipt of \$200.00 (Administration fee for removal of the Notice).

Recommendation(s)

That the Regional District of Kootenay Boundary Board of Directors direct the Chief Administration Officer to file a Notice in the Land Title Office pursuant to Section 302 of the *Local Government Act* and Section 57 of the *Community Charter* against the property legally described as Lot 1, District Lot 1236, Kootenay District, Plan 8462.

blasting, street occupancy, electricity, buildings to be moved, and all other permits required in connection with the proposed work prior to the commencement of such work.

Implications

The Regional District of Kootenay Boundary Board of Directors has dealt with a number of Bylaw Contraventions by Filing a Notice on Title. The effect of this Notice is to alert future Purchasers of the property that the building(s) are in contravention of the B.C. Building Code and/or regulatory bylaws. The above action does not preclude the Regional District of Kootenay Boundary from taking such steps as may be further authorized by Bylaw, *Local Government Act* and *Community Charter* to enforce compliance with regulations.

Advancement of Strategic Planning Goals

Not applicable.

Background Information Provided

- History / Background Factors;
- Registered letter dated October 18, 2019;
- Registered letter dated September 19, 2019;
- Registered letter dated August 16, 2019;
- Inspection report dated August 15, 2019.

Alternatives

1. Once all deficiencies are rectified, the Owner may request that the Regional District of Kootenay Boundary Board of Directors remove the Notice on Title upon receipt of \$200.00 (Administration fee for removal of the Notice).

Recommendation(s)

1. That the Regional District of Kootenay Boundary Board of Directors invite the owners, Patrick and Patricia Doyle, to appear before the Board to make a presentation relevant to the filing of a Notice in the Land Title Office pursuant to Section 302 of the Local Government Act and Section 57 of the *Community Charter* against the property legally described as Lot 1, District Lot 1236, Kootenay District, Plan 8462.

Rotemay Boundary STAFF REPORT ATTACHMENT Date: November 19, 2019 File: To: Chair Langman and Board of Directors From: Brian Champlin, Manager of Building Inspection Services Re: BUILDING BYLAW CONTRAVENTION 2284 OLD SALMO ROAD, FRUITVALE, BC. Patrick and Patricia Doyle 4549 Mapleridge Drive North Vancouver, B.C. V7R 4M7

> Re: Alteration SFD without a Building Permit 2284 Old Salmo Road, Fruitvale, B.C. Electoral Area 'A' Contravention of Building Bylaw No. 449 Lot 1 District Lot 1236 Kootenay District Plan 8462

On November 28, 2019 the Board of Directors reviewed the attached report regarding the above referenced property. As a consequence, the Board will, at its next regular meeting, be considering a resolution to direct the Chief Administrative Officer to file a formal Notice in the Land Title Office regarding this contravention. Pursuant to Section 302 of the *Local Government Act* and Section 57 of the *Community Charter*, you are to be afforded the opportunity to be heard by the Board of Directors before such a Notice is filled. The Board has therefore, adopted the following resolution.

"That Patrick and Patricia Doyle be invited to appear before the Board to make a presentation relevant to the filing of a Notice in the Land Title Office pursuant to Section 302 of the *Local Government Act* and Section 57 of the *Community Charter* against the property legally described as Lot 1, District Lot 1236, Kootenay District, Plan 8462".

This hearing before the Board of Directors is scheduled for Wednesday, January 15, 2020 at approximately 6:00 p.m. This meeting will be held at the Regional District of Kootenay Boundary office, 202-843 Rossland Avenue, Trail, B.C. Please advise Sara Bradley at the address noted below in advance, whether you or a representative will be present at this hearing. If you will be attending this hearing, we would request a written submission from you relating to this matter by January 8, 2020. This will provide sufficient time for your report to be distributed to the Board of Directors.

Please be advised that, in order to avoid registration of this Notice, the Board of Directors requires a written confirmation from the Building Inspection staff that the property is now in compliance. You are encouraged to acquire that confirmation before the hearing date.

Enclosed for your information is a copy of Section 302 of the *Local Government Act* and Section 57 of the *Community Charter*. The effect of this Notice is to remove liability from the Regional District of Kootenay Boundary and warn future purchasers of the property that the building(s) or construction on the property may have been in violation of the B.C. Building Code and/or Regulatory Bylaws of the Authority having Jurisdiction.

Yours truly

Mark Andison, CAO

Ð

STAFF REPORT

Date: 07 Jan 2020
To: Chair Langman and Board of Directors
From: Brian Champlin, Manager of Building Inspection Services
Re: Building Bylaw Contravention

Issue Introduction

A staff report from Brian Champlin, Manager of Building Inspection Services, regarding a Building Bylaw Contravention for the property described as:

File

305 12th Avenue, Genelle, B.C. Electoral Area 'B' / Lower Columbia-Old Glory Parcel Identifier: 015-426-238 Lot 31 District Lot 2404 Kootenay District Plan 2066 Owners: Jeremy Cook and Melissa Chapman

History/Background Factors

The Building Official confirmed that there have been no changes concerning the above referenced property. The owners, Jeremy Cook and Melissa Chapman, have constructed an accessory building without a valid building permit.

Implications

Should the Regional District not file a Notice on Title against the above mentioned property pursuant to Section 302 of the *Local Government Act* and Section 57 of the *Community Charter*, future purchasers of the property would not be aware that the building(s) are in contravention of the B.C. Building Code and/or Building Bylaw.

Advancement of Strategic Planning Goals

Not applicable

Background Information Provided

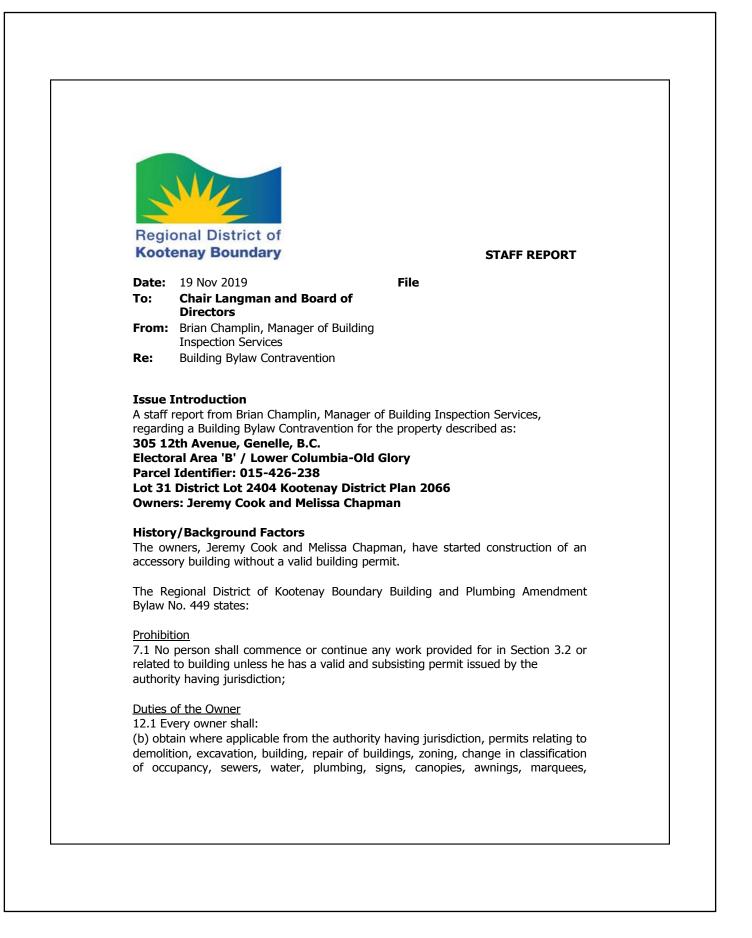

- Staff Report dated November 19, 2019 submitted to the Board regarding the building bylaw contravention;
- Letter dated December 19, 2019 inviting the Owners to the January 15, 2020 Board Meeting.

Alternatives

1. Once all deficiencies are rectified, the Owner may request that that Regional District of Kootenay Boundary Board of Directors remove the Notice on Title upon receipt of \$200.00 (Administration fee for removal of the Notice).

Recommendation(s)

That the Regional District of Kootenay Boundary Board of Directors direct the Chief Administration Officer to file a Notice in the Land Title Office pursuant to Section 302 of the *Local Government Act* and Section 57 of the *Community Charter* against the property legally described as Lot 31, District Lot 2404, Kootenay District, Plan 2066.

blasting, street occupancy, electricity, buildings to be moved, and all other permits required in connection with the proposed work prior to the commencement of such work.

Implications

The Regional District of Kootenay Boundary Board of Directors has dealt with a number of Bylaw Contraventions by Filing a Notice on Title. The effect of this Notice is to alert future Purchasers of the property that the building(s) are in contravention of the B.C. Building Code and/or regulatory bylaws. The above action does not preclude the Regional District of Kootenay Boundary from taking such steps as may be further authorized by Bylaw, *Local Government Act* and *Community Charter* to enforce compliance with regulations.

Advancement of Strategic Planning Goals

Not applicable.

Background Information Provided

- History / Background Factors;
- Registered letter dated October 18, 2019;
- Registered letter dated September 19, 2019;
- Registered letter dated August 16, 2019;
- Inspection report dated July 26, 2019.

Alternatives

1. Once all deficiencies are rectified, the Owner may request that the Regional District of Kootenay Boundary Board of Directors remove the Notice on Title upon receipt of \$200.00 (Administration fee for removal of the Notice).

Recommendation(s)

1. That the Regional District of Kootenay Boundary Board of Directors invite the owners, Jeremy Cook and Melissa Chapman, to appear before the Board to make a presentation relevant to the filing of a Notice in the Land Title Office pursuant to Section 302 of the *Local Government Act* and Section 57 of the *Community Charter* against the property legally described as Lot 31, District Lot 2404, Kootenay District, Plan 2066.

Jeremy Cook and Melissa Chapman PO Box 14 Genelle, B.C. V0G 1G0

> Re: Accessory Building without a Building Permit 305 12th Avenue, Genelle, B.C. Electoral Area 'B' / Lower Columbia-Old Glory Contravention of Building Bylaw No. 449 Lot 31 District Lot 2404 Kootenay District Plan 2066

On November 28, 2019 the Board of Directors reviewed the attached report regarding the above referenced property. As a consequence, the Board will, at its next regular meeting, be considering a resolution to direct the Chief Administrative Officer to file a formal Notice in the Land Title Office regarding this contravention. Pursuant to Section 302 of the *Local Government Act* and Section 57 of the *Community Charter*, you are to be afforded the opportunity to be heard by the Board of Directors before such a Notice is filled. The Board has therefore, adopted the following resolution.

"That Jeremy Cook and Melissa Chapman be invited to appear before the Board to make a presentation relevant to the filing of a Notice in the Land Title Office pursuant to Section 302 of the *Local Government Act* and Section 57 of the *Community Charter* against the property legally described as Lot 31, District Lot 2404, Kootenay District, Plan 2066".

This hearing before the Board of Directors is scheduled for Wednesday, January 15, 2020 at approximately 6:00 p.m. This meeting will be held at the Regional District of Kootenay Boundary office, 202-843 Rossland Avenue, Trail, B.C. Please advise Sara Bradley at the address noted below in advance, whether you or a representative will be present at this hearing. If you will be attending this hearing, we would request a written submission from you relating to this matter by January 8, 2020. This will provide sufficient time for your report to be distributed to the Board of Directors.

Please be advised that, in order to avoid registration of this Notice, the Board of Directors requires a written confirmation from the Building Inspection staff that the property is now in compliance. You are encouraged to acquire that confirmation before the hearing date.

Enclosed for your information is a copy of Section 302 of the *Local Government Act* and Section 57 of the *Community Charter*. The effect of this Notice is to remove liability from the Regional District of Kootenay Boundary and warn future purchasers of the property that the building(s) or construction on the property may have been in violation of the B.C. Building Code and/or Regulatory Bylaws of the Authority having Jurisdiction.

Yours truly

Mark Andison, CAO

STAFF REPORT

Date: 08 Jan 2020

File

To: Chair Langman and Board of Directors From: Brian Champlin, Manager of Building

- From: Brian Champlin, Manager of Building Inspection Services Inspection Services
- Re: Cancellation Building Bylaw Contravention

Issue Introduction

A staff report from Brian Champlin, Manager of Building Inspection Services, regarding the cancellation of a Building Bylaw Contravention for the property described as:

10565 Niagara Townsite Road, Grand Forks, B.C. Electoral Area 'D' / Rural Grand Forks Parcel Identifier: 030-939-852 Parcel C (Being a Consolidation of Lot 9 to Lot 16, See CA7847542) Block 9 District Lot 1261 Similkameen Division Yale District Plan 53 Owners: William Walton and Donna Thibeault

History/Background Factors

A Notice on Title was registered against the above referenced property for constructing an accessory building without first obtaining a building permit, contrary to the Building Bylaw by the Regional District of Kootenay Boundary. All circumstances that required the registering of the Notice on Title have been rectified to the satisfaction of the Regional District of Kootenay Boundary. A written request to have the Notice removed from the property and a payment in the amount of \$200.00 for Administration fees has been received from the owner.

Implications

The owner has met all requirements of the Regional District of Kootenay Boundary to have the Notice on Title removed from the property.

Advancement of Strategic Planning Goals

Not applicable.

Background Information Provided

- Memo dated December 20, 2019 from Robert Silva, RBO;
- Staff Report dated May 17, 2011 from Sig Dreher, Chief Building and Plumbing Official.

Alternatives

1. None.

Recommendation(s)

That the Regional District of Kootenay Boundary Board of Directors cancel the notice registered in the Land Title Office pursuant to Section 302 of the *Local Government Act* and Section 58 of the *Community Charter* against the property legally described as Parcel C (Being a Consolidation of Lot 9 to Lot 16, See CA7847542), Block 9, District Lot 1261, Similkameen Division Yale District, Plan 53.

Implications (Financial, Policy/Practice, Interdepartmental or Intergovernmental)

The Regional District of Kootenay Boundary Board of Directors has dealt with a number of Bylaw Contraventions by filing a Notice on Title. The effect of this Notice is to alert future Purchasers of the property that the building(s) are in contravention of the B.C. Building Code and/or regulatory bylaws.

The above action does not preclude the Regional District of Kootenay Boundary from taking such steps as may be further authorized by Bylaw, Local Government Act and Community Charter to enforce compliance with regulations.

Advancement of Strategic Planning Goals

Not applicable.

Background Information Provided

- Registered letter dated November 12, 2010;
- Registered Letter dated December 14, 2010;
- Registered Letter dated January 17, 2011.

Alternatives

1. Once all deficiencies are rectified, the Owner may request that the Regional District of Kootenay Boundary Board of Directors remove the Notice on Title upon receipt of \$200.00 (Administration fee for removal of the Notice).

Recommendation(s)

1. That the staff report from Sig Dreher, Chief Building Official be received AND FURTHER that the Regional District of Kootenay Boundary Board of Directors invite the owners, Robert Dennison and Josephine Davies to appear before the Board to make a presentation relevant to the filing of a Notice in the Land Title Office pursuant to Section 695 of the Local Government Act and Section 57 of the Community Charter against the property legally described as Lots 12, 13,14, Block 9, District Lot 1261, SDYD, Plan 53.

Respectfully submitted:

Concurrence: (Dept. Head) Concurrence: (C.A.O.)

Re: STOP WORK ORDER 10565 Niagara Townsite Rd., Grand Forks, B.C. Lots 9-16, Block 9, Plan 53, DL 1261

This letter confirms the posting of a **Stop Work Order** on August 24, 2010 for construction of an **accessory building** at the above referenced property without a building permit.

No building permit has been issued as required by the Regional District of Kootenay Boundary Building Bylaw No. 449,

Section 7.1

No person shall commence or continue any work provided for in Section 3.2 or related to building unless he has a valid and subsisting permit issued by the authority having jurisdiction.

Section 12.1 b)

Every owner shall: obtain where applicable from the authority having jurisdiction, permits relating to demolition, excavation, building, repair of buildings, zoning, change in classification of occupancy, sewers, water, plumbing, signs canopies, awnings, marquees, blasting, street occupancy, electricity, buildings to be moved, and all other permits required in connection with the proposed work prior to the commencement of such work;

To apply for a permit, please fill out the enclosed application form and submit the relevant documentation listed on the "How to Obtain a Building Permit" checklist to our office by December 13, 2010. Failure to comply may result in legal action.

If you have any questions, please contact the undersigned.

Yours truly,

Don Lepitre Building and Plumbing Official

Re: STOP WORK ORDER 10565 Niagara Townsite Rd., Grand Forks, B.C. Lots 9-16, Block 9, Plan 53, DL 1261

A review of the above referenced file indicates that we have not received the documentation requested in our letter dated November 8, 2010 and December 14, 2010. A Stop Work Order was posted on August 25, 2010 for construction of an accessory building without a building permit.

To date, no response has been received by this office as requested.

We will now be recommending to the Regional District of Kootenay Boundary Board of Directors that a notice be registered on title pursuant to Section 695 of the Local Government Act and Section 57 of the Community Charter (copies attached). This notice will refer to a building bylaw contravention on the above referenced property and does not limit further action being taken.

If you have any questions or wish to discuss this notice, please contact the undersigned by February 17, 2011.

The above action does not preclude the Regional District of Kootenay Boundary from taking such steps as may be further authorized by Bylaw, Local Government Act and Community Charter to enforce compliance with regulations. Your attention to this matter is appreciated.

Yours truly,

Don Lepitre

April 26, 2011

Robert Dennison & Josephine Davies 10565 Niagara Townsite Road Grand Forks, B.C. VOH 1H8

Re: Lots 12,13,14, Block 9, D.L. 1261, SDYD, Plan 53 10565 Niagara Townsite Road, Electoral Area 'D' Contravention of Building Bylaw No. 449 Construction of an Accessory Building without a Building Permit

On April 21, 2011 the Board of Directors reviewed the attached report regarding the above referenced property. As a consequence the Board will, at its next regular meeting, be considering a resolution to direct the Chief Administrative Officer to file a formal Notice in the Land Title Office regarding this contravention. Pursuant to Section 695 of the Local Government Act and Section 57 of the Community Charter you are to be afforded the opportunity to be heard by the Board of Directors before such a Notice is filed. The Board has, therefore, adopted the following resolution:

"That Robert Dennison and Josephine Davies be invited to appear before the Board to make a presentation relevant to the filing of a Notice in the Land Title Office pursuant to Section 695 of the Local Government Act and Section 57 of the Community Charter against the property legally described as Lots 12,13,14, Block 9, D.L. 1261, SDYD, Plan 53".

The hearing before the Board of Directors is scheduled for Thursday, May 26, 2011 at approximately 6:00 p.m. This meeting will be held at the Regional District of Kootenay Boundary Board Room, 843 Rossland Avenue, Trail, B.C. Please advise Sheila Moro at the address noted below in advance, whether you or a representative will be present at the meeting. If you will be attending this hearing, we would request a written submission from you relating to this matter by May 16, 2011. This will provide sufficient time for your report to be distributed to the Board of Directors.

Please be advised that, in order to avoid registration of this Notice, the Board of Directors requires written confirmation from the Building Inspection staff that the property is now in compliance. You are encouraged to acquire that confirmation before the hearing date.

Enclosed for your information is a copy of Section 695 of the Local Government Act and Section 57 of the Community Charter. The effect of this Notice is to remove liability from the Regional District of Kootenay Boundary and warn future purchasers of the property that the building(s) or construction on the property may be in violation of the B.C. Building Code and/or Regulatory Bylaws of the Authority having Jurisdiction.

Yours truly,

CIM

Elaine Kumar Director of Corporate Administration

Hello

Please accept the attached application to provide Grant-in-Aid support for ONA's 2019-2020 Fish in Schools program.

Funds will go towards hardware maintenance and supplies (tank and chiller set-ups), fish-food, technical support (person time and mileage), biological preparation and transport, and a visit and information session with a syilx knowledge keeper (typically in April [2020]; honourarium, mileage from Penticton, per diems and accommodations), and program administration.

More information can be found here: https://www.syilx.org/events/fish-in-schools-fins/

The RDKB has supported this program in the past and we continue to be grateful for their contribution. Additional confirmed funders for this salmon-year's program include SD51, SD20, SD8 and SD19, Teck, Christina Lake Stewardship Society. Concurrent asks are in review with Columbia Basin Trust and RDCK.

2019-2020 will see the program grow from 11 Columbia Region schools in 2018-2019, to 17 schools and organizations this salmon-year. RDKB schools and organizations for this year include:

Fruitvale Elementary (Fruitvale) **NEW** Glenmerry Elementary (Trail) St Michaels School (Trail) **NEW** Webster Elementary (Warfield) **NEW** Rossland Summit Elementary (Rossland) **NEW** Christina Lake Stewardship Society (Christina Lake) **NEW** Christina Lake Elementary (Christina Lake) Hutton Elementary (Grand Forks)

Thank you very much for your consideration.

Sincerely, Michael

Director Roly Russell Area D – Regional District of Kootenay Boundary Grand Forks, BC

FAMILY DAY FESTIVITIES 2020

Roly,

I have been contracted to coordinate Family Day 2020 festivities for the three-day event of February 15 to 17, 2020.

As I am going over some of the paperwork from last year's event, I see that there was a wide array of free events for families in the Boundary. I will meet with businesses and organizations early to engage their support and ensure that planning runs smoothly.

Last year Area D made a donation of \$2,000.00 which was a huge contribution toward supporting free activities for families in our community. All sponsors will be well recognized on any marketing and promotional material developed for this Family Day event.

I hope that you see value in supporting this event once again and that you are able to contribute to Family Day 2020. I thank you for your consideration and look forward to hearing back from you.

Yours truly,

Erinne Allen Events Manager City of Grand Forks eventsmanager@grandforks.ca

Subject:	Okanagan Nation Alliance - 2019-2020 Fish in Schools Program - Grant in Aid - Email
	from GIA page on www.rdkb.com
Attachments:	Grant-in-AidForm-Oct2016-final - ONA RDKB 2019-2020.pdf

Hello

Please accept the attached application to provide Grant-in-Aid support for ONA's 2019-2020 Fish in Schools program.

Funds will go towards hardware maintenance and supplies (tank and chiller set-ups), fish-food, technical support (person time and mileage), biological preparation and transport, and a visit and information session with a syilx knowledge keeper (typically in April [2020]; honourarium, mileage from Penticton, per diems and accommodations), and program administration.

More information can be found here: https://www.syilx.org/events/fish-in-schools-fins/

The RDKB has supported this program in the past and we continue to be grateful for their contribution. Additional confirmed funders for this salmon-year's program include SD51, SD20, SD8 and SD19, Teck, Christina Lake Stewardship Society. Concurrent asks are in review with Columbia Basin Trust and RDCK.

2019-2020 will see the program grow from 11 Columbia Region schools in 2018-2019, to 17 schools and organizations this salmon-year. RDKB schools and organizations for this year include:

1

Fruitvale Elementary (Fruitvale) **NEW** Glenmerry Elementary (Trail) St Michaels School (Trail) **NEW** Webster Elementary (Warfield) **NEW** Rossland Summit Elementary (Rossland) **NEW** Christina Lake Stewardship Society (Christina Lake) **NEW** Christina Lake Elementary (Christina Lake) Hutton Elementary (Grand Forks)

Thank you very much for your consideration.

Sincerely, Michael

Boundary Métis Community Association Box 1215, Grand Forks, BC VOH 1H0 boundarymetiscommunity@gmail.com

November 21, 2019

To: ISPARC Healthy Living Activities Team Re: Honour Your Health Challenge

I am pleased to write this letter in support of Judy Letendre and her co-leader Ginette Wheeler to deliver and Honour Your Health Challenge and apply for funding for Boundary Métis Community Association.

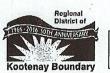

Judy has been a member of Boundary Métis Community Association since 2015. She has previously been a director and is now our Women's Rep. Over the last year she has coordinated and/or led three programs in the West Boundary area of our region. During the winter Judy and Ginette ran a snowshoe program, called Snowy Tribal Trails, on the trails in Kettle Valley Recreation area. In the spring Judy and Ginette held an after school program called Strengthening Our Spirit. At the end of June, Judy co-coordinated a one day cultural event called Healing Our Warrior Spirit. All programs were a success. She has recently or is currently involved in an Aboriginal Collaborative to help advise changes in our Primary Care Network, participated in a Rural Development Workshop, an Aboriginal Tourism Conference and a United Way Better at Homes meeting, in addition to some school activities.

This winter, Judy is planning to co-lead snowshoeing for Snowy Tribal Trails 2020 in a variety of areas in the West Boundary and they will be focusing on storytelling and warrior spirits through drumming, song and snowshoeing.

If you have any further questions, please do not hesitate to contact me at 250 442-7868

incerely;

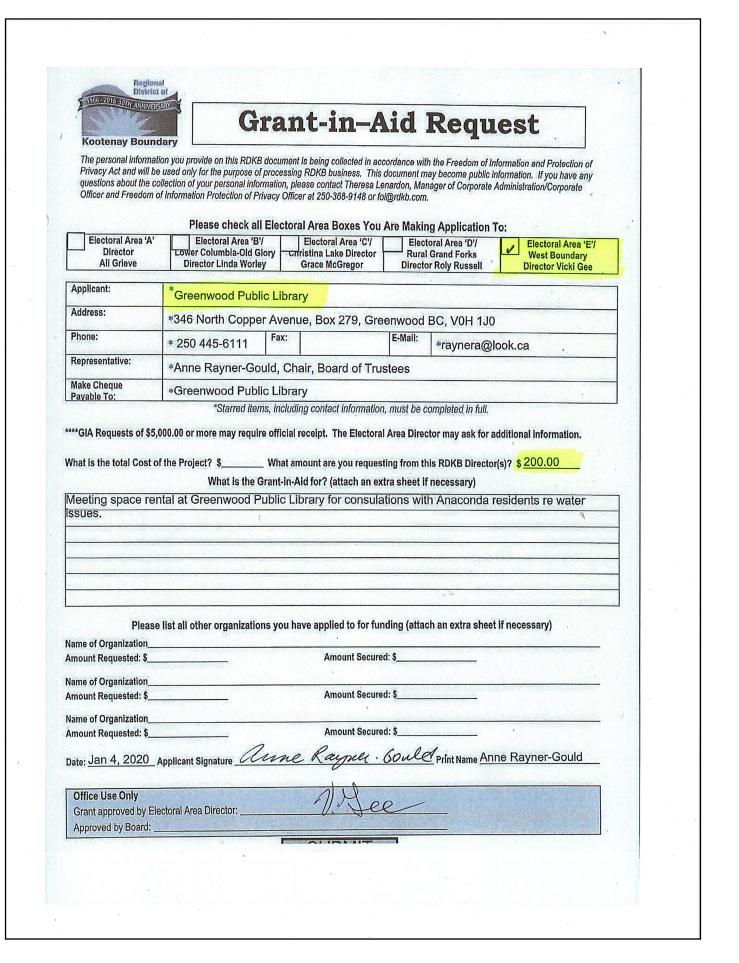

Vice President – Boundary Métis Community Association djsloga@shaw.ca

Finance/CFOFinance/CFO

Re: Financial Plan Amendment Bylaw 1734

Issue Introduction

A staff report from Barb Ihlen, General Manager of Finance/CFO, presenting Financial Plan Amendment Bylaw No. 1734.

History/Background Factors

Financial Plan Bylaw 1715 was adopted March 20, 2019 for the 2019 - 2023 Five Year Financial Plan. Throughout the year, the Board has made amendments to the financial plan. The Financial Amendment Bylaw 1734 reflects the changes made to the budget throughout the year.

Implications

Formalizing changes to budget made throughout 2019.

Advancement of Strategic Planning Goals

Not applicable

Background Information Provided

Financial Plan Amendment Bylaw 1734, 2020 Financial Plan Bylaw 1715, 2019 Listing of budget changes

Alternatives

1. Approve

Recommendation(s)

That the Regional District of Kootenay Boundary Board of Directors adopt Bylaw -Financial Plan Amendment Bylaw 1734, 2020.

REGIONAL DISTRICT OF KOOTENAY BOUNDARY

BYLAW NO. 1734

A Bylaw to Amend Bylaw No. 1715 Financial Plan for the Years 2019 to 2023

WHEREAS pursuant to Section 374 of the *Local Government Act*, a Regional District Board must, by bylaw, adopt a financial plan with a planning period of 5 (five) years;

AND WHEREAS the Board has prepared a financial plan for the years 2019 to 2023 that makes provision for expenditures for the fiscal year ending December 31, 2019 estimated in the total amount of Forty Two Million Two Hundred Fifty Four Thousand Seven Hundred Forty Dollars (\$42,254,740);

AND WHEREAS pursuant to Section 401 of the *Local Government Act*, a Regional District Board may amend the financial plan in respect of a service to include the expenditure and the funding source for the expenditure;

AND WHEREAS the Board finds it desirous of a net increase for the approval of expenditures in the year 2019 through 2023 of Four Hundred Twenty Thousand (\$420,000) dollars for the following: Grand Forks Curling Club chiller, UBCM grant for a Housing Needs Report, purchase of land adjacent to McKelvey Creek Landfill, and Royal Bank of Canada grant to support a youth-driven riparian planting project;

NOW THEREFORE BE IT RESOLVED that the Regional District of Kootenay Boundary Board of Directors in open meeting assembled, enacts as follows:

- Schedule 'A' of bylaw No. 1715 which is hereby amended to become Schedule "A" of Bylaw No. 1734 by way of the changes referred to above and made part of this bylaw making the 2019 budget now be in the amount of Forty-Two Million Six Hundred Seventy-Four Thousand Seven Hundred Forty Dollars (\$42,674,740.00) and is hereby declared to be the Financial Plan for the Regional District of Kootenay Boundary for the five years of 2019 to 2023.
- 2. This bylaw shall be cited as the "Regional District of Kootenay Boundary Financial

Plan Amendment Bylaw 1734, 2020".

READ the **FIRST** and **SECOND** time this 15th day of January,

2020. Read a **THIRD** time this 15th day of January, 2020.

I, Theresa Lenardon, Manager of Corporate Administration of the Regional District of Kootenay Boundary, do hereby certify the foregoing to be a true and correct copy of Bylaw No. 1734 cited as " Regional District of Kootenay Boundary Financial Plan Amendment Bylaw 1734, 2020" as read a third time by the Regional District of Kootenay Boundary Board of Directors this 15th day of January, 2020.

Manager of Corporate Administration

RECONSIDERED and **ADOPTED** this 15th day of January, 2020.

Chair

Manager of Corporate Administration

I, Theresa Lenardon, Manager of Corporate Administration of the Regional District of Kootenay Boundary, do hereby certify the foregoing to be a true and correct copy of Bylaw No. 1734 cited as " Regional District of Kootenay Boundary Financial Plan Amendment Bylaw 1734, 2020" as reconsidered and adopted by the Regional District of Kootenay Boundary Board of Directors this15th day of January, 2020.

Certified a true copy of Bylaw No. 1734 as adopted.

Manager of Corporate Administration

BYLAW NO. 1715

A bylaw to adopt a financial plan for the years 2019 to 2023

WHEREAS pursuant to Section 374 of the *Local Government Act*, a Regional District Board must, by bylaw, adopt a financial plan with a planning period of 5 (five) years;

AND WHEREAS the Board has prepared a financial plan for the years 2019 to 2023 that makes provision for expenditures for the fiscal year ending December 31, 2019 estimated in the total amount of Forty Two Million Two Hundred Fifty Four Thousand Seven Hundred Forty Dollars (\$42,254,740);

NOW THEREFORE BE IT RESOLVED that the Regional District of Kootenay Boundary Board of Directors in open meeting assembled, enacts as follows:

- 1. Schedule 'A' attached hereto and made part of this bylaw is hereby declared to be the Financial Plan for the Regional District of Kootenay Boundary for the five-year period 2019 to 2023.
- 2. This bylaw shall be cited as the "Regional District of Kootenay Boundary Financial Plan Bylaw 1715, 2019".

Read a **FIRST** and **SECOND** time this 20th day of March, 2019.

Read a **THIRD** time this 20th day of March, 2019.

RECONSIDERED and **ADOPTED** this 20th day of March, 2019.

Chair

Manager of Corporate Administration

I, Theresa Lenardon, Manager of Corporate Administration of the Regional District of Kootenay Boundary, do hereby certify the foregoing to be a true and correct copy of Bylaw No. 1715 cited as "Regional District of Kootenay Boundary Financial Plan Bylaw 1715, 2019" as reconsidered and finally adopted by the Regional District of Kootenay Boundary Board of Directors this 20th day of March, 2019.
