16. <u>Discussion of Items for Future Meetings</u>

A discussion was not required.

17. Question Period for Public and Media

Jensen Edwards, *Grand Forks Gazette*, inquired about the travel budget in relation to reducing the RDKB's environmental footprint and how travel budgets could be more effective with the use of technology.

Mark Andison, Chief Administrative Officer addressed Mr. Edward's inquiry advising that the Board and staff have considered a number of options when reviewing the travel budget. He explained that the Board is discussing electronic meetings and the RDKB has moved to holding meetings during the day rather than in the evening resulting in less travel expenses.

Nigel James, resident of Electoral Area D/Rural Grand Forks and non-resident property owner in Electoral Area C/Christina Lake spoke to the RDKB's land acknowledgement and the differences between "Indigenous" and "Aboriginal". He noted his concerns with the use of the term "unceded", but that he is pleased the RDKB has included the land acknowledgement at meetings and continues to have discussions to ensure there is no ambiguity.

Mr. James and Mr. Edwards thanked the Board for the opportunity to ask questions and they left the meeting (time: 3:23 p.m.).

18. Closed Meeting

A closed meeting was not necessary.

19. Adjournment

There being no further business to discuss, the meeting was adjourned (time: 3:33 p.m.).

STAFF REPORT

To: Chair Langman and Board of

Directors

From: Mark Andison, Chief Administrative

Officer

Re: General Administration Service (001)

Draft 2020 Budget Change Highlights

Issue Introduction

A staff report from Mark Andison, Chief Administrative Officer, identifying highlighted changes associated with the Draft General Administration Service (001) 2020 budget and five-year financial plan.

History/Background Factors

At its last meetings, the Board of Directors reviewed the draft General Administration Service (001) 2020 budget and five-year financial plan. Considering there are a number of consequential changes affecting the budget and five-year financial plan, with respect to both anticipated revenues and proposed expenditures, this report is intended to identify the major changes for discussion purposes.

Implications

Highlighted Revenue Changes

The accompanying budget and five-year financial plan includes a new dashboard page which shows the key changes to the budget for 2020. Among those:

- There is an anticipated reduction in in BC Hydro grant-in-lieu revenue in 2020 of \$237,370, based upon the BC Assessment Authority's reclassification of the Waneta Dam;
- Compounding the impact of the grant-in-lieu reduction noted above, the RDKB did not receive \$324,314 in anticipated BC Hydro grant-in-lieu revenue in 2019 due to the BC Assessment Authority reclassification of the Waneta Dam. Notice of the change was sent to the RDKB on April 30th, after the

2019 budget had been adopted. This represented a significant reduction in the service's operating revenue for 2019 and significantly decreases the the 2019 budget surplus coming forward as revenue to the 2020 budget. This loss of \$324,314 in anticipated revenue in 2019 translates to a total reduction in the surplus being carried forward to 2020 of \$325,917 when compared to that which was brought forward as surplus revenue in 2019.

- The continued transfer of \$300,000 of grant-in-lieu revenue to the Kootenay Boundary Regional Fire Rescue Service for 2020 and 2021 (by Board resolution) has a continued negative impact upon the General Administration Service's revenues.
- Included in the draft budget is a \$300,00 transfer from reserve to partially offset the combined grant-in-revenue losses to the service noted above. Specifically, the \$300,00 transfer is proposed from the "Taxation Offset (Smoothing)" reserve allocation which is currently at \$1,301,215. There is an additional \$1,570,939 that has accumulated in a separate unrestricted reserve.
- Largely due to the grant-in-lieu revenue losses to the service noted above, there is a projected tax requisition increase of \$292,464. At the discretion of the Board, this could be mitigated through further use of the "Taxation Offset (Smoothing)" reserve.
- Miscellaneous revenue is anticipated to increase by approximately \$100,000 in 2020 due to grants (eg. Big White Community Issues Assessment, Electric Vehicle Study; Asset Management; Energy Efficiency Program Engagement, etc.)

Highlighted Expenditure Changes

- The addition of a document management administrative support position has contributed to an overall increase in salaries expenditures, with wages for half of the 2020 year included in the budget for that proposed two-year term position (\$25,911).
- Consultant fee expenditures are proposed to increase, although most of the increases are funded through grants (eg. Big White Community Issues Assessment; Energy Efficiency Program Engagement; CBT & FCM Electric Vehicle Study). New consultant expenditures not covered by grants include \$15,000 for a Management Compensation Review (required every 3 years, based on Board policy); and \$40,000 for Human Resource Consulting fees, given that there are 327 staff on the RDKB payroll without any dedicated HR resources within the organization.
- Property Insurance expenditures are anticipated to increase by approximately \$40,000, largely driven by the need to undertake a comprehensive insurance appraisal in 2020, which is required every five years.
- Capital expenditures are anticipated to increase in 2020 due to proposed administration building upgrades in both the Grand Forks and Trail offices and the purchase of a new administration fleet vehicle. These expenditures are

- proposed to be funded through reserves. The unrestricted administration reserve currently contains \$1,570,939
- The contribution to reserve is proposed to decrease by \$117,000 in 2020, including a reduction of \$17,000 relating to the RDKB's carbon offset as a result of decreased RDKB GHG emissions.

Advancement of Strategic Planning Goals

Review of the General Administration Service (001) budget and five-year financial plan advances the Board's strategic priority to provide exceptional cost effective and efficient services.

Background Information Provided

Letter from BC Hydro (April 30, 2019) notifying RDKB of 2019 reduction in grant-in-lieu payment due to BC Assessment Authority's re-assessment of Waneta Dam.

Re: BC Hydro; 2019 Grant-in-Lieu for Generating Facilities

BC Hydro is authorized to pay grants-in-lieu of property taxes with respect to our generating facilities as set out in Order-in-Council No. 268/2011 and Order-in-Council No. 533/2017. We calculate the grant payable to your regional district as \$1,457,365.00 for 2019.

We have determined that the 2019 grant payments are to be calculated by increasing the 2018 grant payments by 5.125281-percent per the annual indexing formula. Also, the grant is adjusted to reflect that BC Assessment has changed the taxable status of the Waneta generating facility in 2019. The portion of the grant attributable to Waneta will not be paid since the entire facility is now subject to full taxation per the property assessment issued for 2019.

Calculation of 2019 Index Factor:

2017 Total Municipal Property Tax Revenue	=	\$4,499,346,302	=	5.125281% Increase
2016 Total Municipal Property Tax Revenue		\$4,279,985,052		

Calculation of 2019 Grant:

2019 Grant	\$ 1,457,365.00
Deduct: Waneta (full taxation in 2019)	- \$ 324,314.00
Subtotal	\$ 1,781,679.00
Add: Annual Indexing (5.125281% increase)	\$ 86,864.00
2018 Grant	\$ 1,694,815.00

The data for total municipal property tax revenues was obtained from the web site of the provincial government under the section for Local Government Statistics.

I've attached a copy of the 2019 Property Assessment Notice which shows that the Waneta facility is now fully taxable. For reference, I've also attached a copy of the 2018 Property Assessment Notice which shows that BC Hydro's one-third (1/3rd) interest in the facility was previously tax exempt, and this is the portion that we paid a grant for. If there are any changes to the 2019 property assessment through an appeal, etc. that alter the taxable status of the Waneta facility, then we will review the grant calculation and make the appropriate adjustments.

If you have any questions or concerns, please contact me at 604-623-3659 or by email at seymour douglass@bchydro.com

Re: Regional Solid Waste Service –

Financial Review

Issue Introduction

A staff report from Janine Dougall, General Manager of Environmental Services, identifying anticipated impacts to tipping fee revenue resulting from the implementation of expanded organics diversion programs. Recommendations are made on how to address this issue.

History/Background Factors

Tipping fees are critical to the generation of revenue for operation of the RDKB solid waste service. In addition, tipping fees can be used to drive behavioural change. Ie. Higher costs for landfilling typically will increase diversion rates.

The 2005 RDKB Solid Waste Management Plan (SWMP) contains measures to divert waste and recognizes that waste diversion reduces revenues. The SWMP contains measures to retain revenues required to operate the system even though the amount of waste landfilled will reduce. These measures are typically an increase in tipping fees.

Pursuant to the SWMP, RDKB Board strategic direction is to fund the majority of solid waste management services through user fees. At the same time, the Board has implemented aggressive waste reduction and diversion policies and as a result, user fee revenue declined over the period of 2010 - 2014. In 2015, to address this situation, tipping fees were increased by \$15 per tonne to the current \$110 per tonne rate.

Current tipping fees were reviewed in the adjacent jurisdictions of the RDCK, RDOS and Glenmore Landfill (Kelowna). The table below summarizes the data collected.

Summary of Other Jurisdictions							
Jurisdiction	Current Garbage Fees	Notes					
RDCK	\$110 per tonne	Proposing to increase to \$125 per tonne once organics composting infrastructure complete					
RDOS	\$110 per tonne						
Glenmore Landfill (Kelowna)	\$100 per tonne						

Implications

With the pending expansion of organics diversion programs in both the Boundary and McKelvey Creek Wastesheds, there will be impacts to tipping fee revenue generated in addition to increased operational costs associated with new program implementation. An analysis has been conducted to provide the Board of Directors with pertinent information regarding the impacts to tipping fee revenue, taxation levels and options for consideration.

The following table illustrates the Tipping Fee Revenue generated during the years 2016-2019.

Overall Tipping Fee Revenue							
	2016	2017	2018	2019	Average		
McKelvey Creek	\$1,430,198	\$1,548,836	\$1,668,195	\$1,672,211	\$1,579,860		
Grand Forks	\$595,907	\$592,520	\$990,983	\$832,751	\$753,040		
West Boundary	\$64,484	\$68,826	\$69,624	\$60,408	\$65,836		
Christina Lake	\$68,054	\$58,007	\$62,264	\$64,677	\$63,250		
Rock Creek	\$47,176	\$46,316	\$44,996	\$50,938	\$47,356		
Beaverdell	\$14,103	\$17,174	\$20,572	\$18,787	\$17,659		
Total	\$2,219,922	\$2,331,679	\$2,856,635	\$2,699,772	\$2,527,002		

Notes: Values Include Penalty Fees Applied. Revenue generated in 2018/2019 at Grand Forks elevated due to flood debris disposal.

The following table illustrates the overall breakdown of tonnages of household garbage (commercial/residential) as well as source separated organics (green bin food waste) during the years 2016-2019.

Breakdown of Material Types Landfilled (Tonnes)						
	2016	2017	2018	2019	Average	
Household Garbage (Commercial/Residential)	11,887	12,431	14,654	12,705	12,919	
Source Separated Organics (Green Bin)	560	513	538	574	546	

The following table illustrates the impacts of changing tipping fee rates on the amount of revenue generated.

Fees Generated At Different Rates - Using Average Tonnes Landfilled							
	Current Fees (\$110 MT Garbage/\$40/MT SSO)	Proposed Fees 1 (\$120/MT Garbage/\$55/MT SSO)	Proposed Fees 2 (\$125/MT Garbage/\$70/MT SSO)				
Household Garbage (Commercial/Residential) - 12,919 Tonnes	\$1,421,097	\$1,550,287	\$1,614,883				
Difference Between Current		<i>\$129,191</i>	<i>\$193,786</i>				
Source Separated Organics (Green Bin) - 546 Tonnes	\$21,843	\$30,035	\$38,226				
Difference Between Current		\$8,191	<i>\$16,383</i>				
Total	\$1,442,940	\$1,588,513	\$1,653,108				
Difference Between Current		<i>\$137,382</i>	<i>\$210,168</i>				

With the implementation of expanded organics diversion programs in both the Boundary and McKelvey Creek Wastesheds, it is anticipated that revenues will decline due to the differences in current fees charged for household garbage and source separated organics (green bin food waste). The current fess charged for these material types are:

- Household garbage \$110 per tonne
- Source Separated Organics (green bin food waste) \$40 per tonne

The Organics Management Strategy document outlined anticipated diversion potential of organics from the current waste stream landfilled. Based on the data, it has been estimated that there will be an approximate shift of 1,650 tonnes of organic waste (1277 tonnes McKelvey and 373 tonnes Boundary) from the household garbage category to the source separated organics category.

The expansion of the organics diversion programs will result in additional costs for the regional solid waste service. These estimated costs are outlined below:

Extra Annual Costs Due to Organics Implementation	Estimated Annual Amount
Tipping Fees to RDCK	\$83,000
Hauling Costs to RDCK	\$40,000
Initiation of Curbside Collection - McKelvey Wasteshed (\$522,200,000 offset by \$300,000 revenue (Bag tags))	\$222,200
Bin Purchase (\$400,000 borrowed over 5 yrs)	\$91,500
Additional Site Operational Costs (Grand Forks/McKelvey)	\$70,000
Total	\$506,700

Given the anticipated extra costs of solid waste service provision and reduction in tipping fee revenue, either tipping fees will need to be increased substantially or taxation levels will need to increase, or a combination of both.

The following table illustrates the revenue projections considering implementation of organics diversion and potential changes to tipping fee rates using average landfilled tonnages.

Revenue Projections					
	Current Situation (12,919 MT Garbage/546 MT SSO)	Organics Diversion Shift (11,269 MT Garbage/2,196 MT SSO)			
	Current Fees (\$110 MT Garbage/\$40/M T SSO)	Current Fees (\$110 MT Garbage/\$40/ MT SSO)	Proposed Fees 1 (\$120/MT Garbage/\$55/ MT SSO)	Proposed Fees 2 (\$125/MT Garbage/\$70/ MT SSO)	
Household Garbage	\$1,421,097	\$1,239,597	\$1,352,287	\$1,408,633	
Source Separated Organics (Green Bin)	\$21,843	\$87,843	\$120,785	\$153,726	
Total	\$1,442,940	\$1,327,440	\$1,473,072	\$1,562,358	
Difference Between Current		-\$115,500	\$30,132	\$119,418	

The table below illustrates the required increase in taxation amounts to cover the shift in user fee revenue as well as the anticipated extra costs associated with an expanded organics program implementation.

Taxation Implications					
	Current Fees	Proposed Fees 1	Proposed Fees 2		
Tipping Fee Difference					
Between Current Values	-\$115,500	\$63,073	\$119,418		
Due to Organics Shift					
Additional Estimated					
Costs for Organics	506,700	506,700	506,700		
Program Implementation					
Difference to be made up	¢622 200	¢476 E60	¢207 202		
with Increased Taxation	\$622,200	\$476,568	\$387,282		

The draft 2020-2024 financial plan, also currently shows a significant increase in taxation levels in 2021. This projected increase is primarily related to the anticipated costs associated with the upgrades at the McKelvey Creek Landfill. Short term borrowing can be considered to spread the costs once design details are confirmed, however the need to increase taxation for future years remains.

A projected taxation increase of between \$387,282 and \$622,200 in 2022 is significant. This would mean that the taxation would increase between 29 and 46 percent.

Tax requisition limits for the service are currently \$2,546,018, so increasing the requisition to projected levels is a viable option.

The RDKB has historically through solid waste management planning and Board policy development supported the "user pay" principal with the intent to generate as much revenue as possible through tipping fees. In addition, tipping fees are utilized at differential levels to drive behavioural change. It should be recognized that as diversion programs are initiated and mature, less revenue is subsequently generated from tipping fees and the result is the need to increase tipping fees to maintain required revenue streams. The alternative is to increase taxation.

When setting tipping fees it is important to balance the following drivers:

- Implementation of "user pay" principals
- Recognizing maximum tipping fee levels (ie. You can't increase tipping fees forever)
- Using fees to drive behavioural change
- Recognizing what adjacent regional districts are charging to minimize "cross boarder shopping".
- Ideally, tipping fee changes are done when service levels change

Given the above analysis, there are a number of options for the Board to consider in generating the revenue required to operate the Regional Solid Waste Service.

Option 1 – Keep Tipping Fees at Current Levels

Under this option, tipping fees would be maintained at the current levels of \$110 per tonne for household garbage and \$40 for source separated organics.

Advantages: Public complaints do not increase with changes to increased tipping fees.

Disadvantage: Does not really match with "user pay" principals as outlined in SWMP and taxation levels will need to be increased significantly to generate required additional revenue.

Option 2 – Increase Tipping Fees to Projected Required Levels Immediately Under this option, tipping fees would be increased to \$125 per tonne for household garbage and \$70 per tonne for source separated organics as of May 1, 2020.

Advantages: Costs associated with service provision are spread between "user pay" principals and taxation, with required taxation increases minimized.

Disadvantages: Increases in fees is not directly tied to changes to service provision, which can result in public complaints regarding not having options for waste diversion to reduce costs.

Option 3 – Phase in the Increase in Tipping Fees over a 2-3 year period.

Under this option, tipping fees would be increased gradually and would be done in relation to implementation of new service provision (expanded organics program implementation). It is recommended in this option that the following schedule of tipping fee increases be implemented:

	2020	2021	2022
Household Garbage	Increase to \$120 per tonne starting May 1, 2020	\$120 per tonne for full year	Increase to \$125 per tonne starting June 1, 2022
Source Separated Organics	Increase to \$55 per tonne starting May 1, 2020	\$55 per tonne for full year	Increase to \$70 per tonne starting June 1, 2022

Advantages:

- Increasing tipping fees is never popular however the rationale of increased service levels is a reasonable explanation for the required fee increases.
- When fees are changed, as long as diversion programs are available, the differential fees will drive behavioural change.
- Costs associated with service provision are spread between "user pay" principals and taxation.

Disadvantages: Increasing tipping fees is never fully supported by all members of the public

even with reasonable explanations for the increase. So, public complaints may occur in 2020 and again in 2022.

Regardless of the option chosen with respect to increasing tipping fees, taxation levels will have to increase to generate the revenue required to operate the solid waste management service in future years.

After adjustments are made to the draft budget assuming the tipping fee increases as proposed in Option 3 are approved by the Board, the year 2020 shows an increase in taxation of \$45,520 or 3.47 percent over 2019 levels. Given the above presented data and pending need to increase taxation in future years, it is recommended that the requisition amount be increased by an additional \$100,000 to allow for a phased in approach to taxation increases. The additional revenue would be allocated to reserve to be used in future years. This proposed change would result in an overall taxation amount of \$1,455,936 which would be an increase of \$145,520 or 11.10% for the 2020 year.

The attached Solid Waste Service (010) Draft 2020-2024 Financial Plan is presented with the taxation levels increased by the recommended additional \$100,000 plus the changes to tipping fees as recommended in Option 3.

Advancement of Strategic Planning Goals

Regional Solid Waste Management is a core service of the RDKB. Changing tipping fees strengthens environmentally sound methods to advance the Boards strategic objectives of improved environmental stewardship, region-wide organics diversion, focusing on core services and delivering services in the most cost-efficient means.

Recommendation(s)

1. That the Regional District of Kootenay Boundary Board of Directors approve the increase in tipping fees based on the following schedule and direct staff to make the required amendments to the Regional District of Kootenay Boundary Solid Waste Management Facilities Regulatory Bylaw.

	2020	2021	2022
Household Garbage	Increase to \$120 per tonne starting May 1, 2020	\$120 per tonne for full year	Increase to \$125 per tonne starting June 1, 2022
Source Separated Organics	Increase to \$55 per tonne starting May 1, 2020	\$55 per tonne for full year	Increase to \$70 per tonne starting June 1, 2022

- 2. That the Regional District of Kootenay Boundary Board of Directors provide direction to RDKB staff to increase the taxation requisition amount by an additional \$100,000 over current projections for the 2020 budget year to allow for a phased in approach to required taxation increases.
- 3. That the Regional District of Kootenay Boundary Board of Directors approve the Regional Solid Waste Management Service (010) 2020-2024 Five Year Financial Plan including minor changes for adjustments to year-end totals. FURTHER that the Plan be included in the overall RDKB 2020-2024 Five Year Financial Plan.

Re: Updated Staff Report 5 Year Average Flows Used Columbia Pollution Control Center (CPCC) Secondary Treatment Upgrade

A Staff Report from Goran Denkovski, Manager of Infrastructure and Sustainability regarding the Columbia Pollution Control Center (CPCC) Secondary Treatment Upgrade grant opportunity.

Goran Denkovski, Manager of Infrastructure & Sustainability presented an updated staff report that now includes 5-year flow data.

The Committee discussed the letters that are being sent to the various councils and area representatives asking for support for the CPCC Upgrade grant application.

Director Langman commented on the tight timeline between the dates of the area council meetings and the grant application deadline. Goran will send the letter to Warfield first. Goran also asked Director Langman to expedite Warfield's Conservation Plan.

The Committee then discussed the funding models for each area.

The Committee then discussed various components of the CPCC Secondary Treatment Update grant including RDKB areas conservation plans and letters of support from area Councils and Area Representatives.

Page 2 of 5 Liquid Waste Management Plan Steering & Monitoring Committee Meeting January 9, 2020 The Committee agreed that if an increase in the amount that the RDKB would need to borrow is required, the Liquid Waste Management Plan might have to be amended. Goran to check and see if that is the case.

Moved: Director Langman Seconded: Director Morel

That the Steering Committee receive the updated report.

Carried.

Re: Columbia Pollution Control Center Upgrade Permits

A verbal report from Goran Denkovski, Manager of Infrastructure and Sustainability on the permits required for the Columbia Pollution Control Center Upgrade.

The Liquid Waste Management Plan has been sent to the Minister for approval. Ideally the RDKB would prefer to have the approval in place before the grant application deadline. Goran will report to the Committee any progress on this matter at the next meeting.

It was decided that Director Langman, in her capacity as a member of the Liquid Waste Committee and RDKB Board Chair, will contact local MLA Katrine Conroy

Moved: Director Morel Seconded: Director Worley

That the Steering Committee receive the report.

Carried.

Re: Columbia Pollution Control Center Upgrade Briefing Notes

Discussion on updating project briefing note.

Goran Denkovski, Manager of Infrastructure & Sustainability, requested input from the Committee regarding further information to be included in the CPCC Upgrade Grant briefing note.

Page 3 of 5

Director Worley suggested adding emphasizing that the Columbia River is an international waterway that affects not only British Columbia but the USA and all the way to the ocean. Columbia River Treaty negotiations could also be impacted.

Director Morel suggested including First Nations negotiations and salmon health and habitat.

Janine Dougall, General Manager of Environmental Services, wondered if there was a climate change aspect that could be highlighted. Could the completion of this project help in meeting our climate change strategies.

Changing the format of the briefing note was discussed.

The Committee discussed the matter of providing more detailed information to the public, media etc. beyond the briefing note. It was decided that the contact info for members of the Liquid Waste Committee and relevant RDKB Staff could be provided. Perhaps links to relevant documentation could be provided through the RDKB website.

Moved: Director Langman Seconded: Director Morel

That the Steering Committee provide direction to Staff on changes to the Columbia Pollution Control Center Upgrade briefing note.

Carried.

DISCUSSION OF ITEMS FOR FUTURE AGENDAS

Items for future agendas:

- -Letters of Support from Municipal Councils and Area Representatives.
- -Briefing Note

The next meeting is tentatively scheduled for January 31, 2020. Directors Worley and Langman may have to attended via telephone.

The possibility of using the Zoom teleconferencing program was discussed.

Re: Columbia Pollution Control Center

Secondary Treatment Upgrade Grant

Opportunity

Issue Introduction

A Staff Report from Goran Denkovski, Manager of Infrastructure and Sustainability regarding the Columbia Pollution Control Center (CPCC) Secondary Treatment Upgrade grant opportunity.

History/Background Factors

The Regional District of Kootenay Boundary (RDKB) has undertaken the development of a Liquid Waste Management Plan (LWMP) to assess the best approach for long-term wastewater management for the community. The central issue in the LWMP is the implementation of secondary treatment for the service area that incorporates the City of Trail, the City of Rossland, the Village of Warfield and the small adjacent communities of Rivervale and Oasis. After extensive investigation of options and community consultation during the development of the Stage 1 and Stage 2 Liquid Waste Management Plan, the selected option is to upgrade the existing CPCC from primary to secondary treatment at the existing site. The RDKB has since applied for and received grant funding from the Clean Water and Wastewater Fund ("CWWF") for design of the Columbia Pollution Control Centre (CPCC) upgrade, and for completion of the Stage 3 LWMP. The man scope of service for the CPCC upgrade can be summarized as follows:

 detailed design and preparation of tender package(s) for the new facilities to produce a "shovel ready" project in anticipation of the second phase of senior government funding. The Federal Government and Province of British Columbia in October 2019 announced the second intake or the Green Infrastructure – Environmental Quality Sub-Stream grant that will fund infrastructure projects that support quality and management improvements for drinking water, wastewater and stormwater, as well as reductions to soil and air pollutants through solid waste diversion and remediation. They are investing up to \$150 million in the second intake of the Investing in Canadian Infrastructure Program Green – Environmental Quality Sub-Stream (ICIP) to support infrastructure projects in communities across the province.

The application deadline is on February 26, 2020. The funding breakdown is Government of Canada 40%, Province of British Columbia 33.33% and RDKB 26.67%. This is different from the CWWF grant intake that had the RDKB share at 16.67%.

The grant intake application will require the following:

- 1. A resolution that identifies the source of the proponent's share of the projects costs. The resolution should show support for the project from a Regional District Board.
- 2. Evidence that the applicant's full share of funding has been or will be secured. This evidence may come from a local government loan authorization bylaw that has received third reading.
- 3. Letters of support from each of the RDKB 700 sewerage service participants and funders.

WSP has been retained to assist the RDKB with the application process.

A description of the necessary steps to acquire financing for the project is a follows. The project is a capital project that will likely require that the RDKB borrow money with a repayment term greater than five years. Borrowing money for a term greater than five years requires a loan authorization bylaw which requires elector approval.

The process by which the RDKB may obtain elector approval for a loan authorization bylaw in respect of the sanitary sewer service is as follows:

Section 407 (3) e of the (*Local Government Act*) requires that participating area approval be obtained for most loan authorization bylaws. Subsection 3 states that participating area approval may be obtained as follows:

- 1. In any case, by assent of the electors in accordance with section 344;
- 2. In any case, by approval given in accordance with section 345 (alternative approval process);
- 3. For a municipal participating area that is all of the municipality, consent given in accordance with section 346 (consent on behalf of municipal participating area).

Section 346 states that if a proposed participating area is all of a municipality, the council may give participating area approval by (a) consenting on behalf of the electors to adoption of the proposed bylaw, and (b) notifying the board of its consent.

Section 345 provides that alternative approval (rather than assent) may be used as the process where the bylaw relates to a service for (a) the collection, conveyance, treatment or disposal of sewage. It therefore appears that, in a situation where consent of the council of one or more municipal participating areas is not obtained, the board could proceed to seek elector approval by either the assent (referendum) process or by the alternative approval process.

Implications

In June 20, 2018 the estimate for the project based on the WSP/Opus report dated April 27, 2018 was \$42,054,000.

Based on the report from Hanscomb Ltd. in November 2019 and discussions with WSP the estimate for the project has increased to \$63,000,000. With the RDKB share of the grant at 26.67% the borrowing required to fund the project has increased from \$11,216,000 to \$14,000,000 and now to approximately \$17,000,000. Using MFA financing over 30 years with an estimated 3.00% interest rate for the first 10 yr term the Sewerage Service 700 tax requisition would be increased by \$870,000/yr to service the debt. This is increased from \$590,000/yr June 20, 2018 to \$740,000/yr August 2018 to \$870,000/yr November 2019 Staff Report.

The WSP/Opus February 8, 2018 Pre-Design report has the estimated Annual Operations and Maintenance costs listed for the new construction. The RDKB added an additional 2%/yr increase from 2018 to 2021.

	WSP/OPus Est. Build Out	RDKB Increase 700 Budget including 6% escalation increase	Comment
Headworks & Primary Sedimentation	\$33,000 + \$25,000	\$25,000	Increase 700 operations from \$130,000 to \$155,000
MBBR	\$190,000	\$200,000	
DAF	\$137,000	\$145,000	
UV Disinfection	\$51,000	\$55,000

Dewatering			already budgeted
Electrical & SCADA	\$103,000	\$53,000	Estimating only \$50,000 increase to current budget
Plant Personnel	\$240,000	\$12,000	Related to salary increase to current employees level 3 certification
Asset Replacement		\$106,000	Estimate Only
Annual O&M Cost	\$851,000	\$633,000	

Sewerage Service 700 tax requisition for O&M is estimated to be increased by \$633,000/yr.

For example if the project is approved in the Spring 2020 and the RDKB tenders the project in 2021. Construction would not begin until 2021 and take 2 years to complete. Therefore, the Sewerage Service 700 budget tax requisition is estimated to increase by a total of \$1,503,000 in 2023/2024. This is to service full debt and O&M costs. Using 2018 flows:

- 1. Area 'B'/Lower Columbia Old Glory 800 Service 2023/2024 would increase by \$10,971/yr. Increased from \$9,331/yr in August 2018 and 8,424/yr June 20, 2018.
- 2. Trails tax requisition portion minus Area 'B'//Lower Columbia Old Glory (as per 700 service budget) in 2023/2024 would increase by \$1,000,397/yr \$10,971/yr = 989,425/yr. Increased from \$907,240/yr in August 2018 and \$832,576/yr June 20, 2018.
- 3. Rosslands tax requisition portion in 2023/2024 would increase by \$319,538/yr. Increased from \$267,133/yr in August 2018 and \$235,000/yr June 20, 2018.
- 4. Warfields tax requisition portion in 2023/2024 would increase by \$183,065/yr. Increased from \$149,296/yr in August 2018 and \$131,400/yr June 20, 2018.

2018 Flows:

- 1. Trail 66.56%
- 2. Rossland 21.26%
- 3. Warfield 12.18%
- 4. Area 'B'/Lower Columbia Old Glory 0.73%

Officer

Re: RDKB Board Strategic Plan

Issue Introduction

A staff report from Mark Andison, Chief Administrative Officer, presenting an updated version of the Draft RDKB Strategic Plan 2019-2022, incorporating changes requested at the last meeting of the Policy and Personnel Committee.

History/Background Factors

On March 29th and 30th, the RDKB Board of Directors held a workshop with Jerry Berry to participate in a Board governance session (March 29th) and to develop a strategic plan for the Board's current term (March 30th). A Strategic Priorities Report was prepared by the consulttant and reviewed by the Policy and Personnel Committee. The report reflected the outcomes of the facilitated discussions during the workshop. The Committee requested that staff refine the content of the consultant's report into a Strategic Plan document. The Policy and Personnel Committee a reviewed a couple of iterations of the draft Strategic Plan document. At its last meeting, the Committee provided the following direction:

That the Regional District of Kootenay Boundary Strategic Plan/Regional Board Strategic Priorities be referred back to staff to incorporate the revisions as discussed by the Committee at the meeting held on November 13, 2019.

Implications

Staff have revised the "Issues" section of the Draft Strategic Plan to remove the specific issues identified by individual directors during the brainstorming session at the March strategic planning workshop, instead including only the broader categories of issues which were included in the Draft Strategic Plan that the Board anticipates will need to be addressed over a twenty year horizon. This should streamline the document and serve to better reflect the overall vision of the Board.

Advancement of Strategic Planning Goals

The development of an updated Board Strategic Plan advances the Boards' strategic objective of that it "...will continue to focus on good management and governance".

Message from the Chair... Each year, the Regional District of Kootenay Boundary Board of Directors adopts annual work plan for the various services that the RDKB provides to the residents of the region.

The work plans set out the Board's operational and project priorities for the year. Each work plan is guided by the strategic priorities established by the Board for its term. It is my privilege to present the Regional District of Kootenay Boundary 2019-2022 Strategic Plan. The plan sets out four strategic priority areas which the Board will concentrate on over the term of the Plan:

Environmental Stewardship / Climate Preparedness

Exceptional Cost Effective and Efficient Services

Respond to Demographic / Economic / Social Change

Improve and Enhance Communication

These priorities were established by the Board after taking into consideration the issues of significance that the Board anticipates the Regional District of Kootenay Boundary will be facing over a twenty-year horizon. The strategic priorities are intended to address those issues that the Board envisions will be both of high likelihood and high impact to residents of the region over the next twenty years.

The Board will utilize these strategic priorities as a decision-making framework to guide the development of the annual work plans that are adopted for the RDKB's individual services. The Board will regularly monitor the progress in implementing the operational actions and projects associated with these strategic priorities through its quarterly review of the service work plans.

Our role in our region

The Regional District of Kootenay Boundary (RDKB) consists of seven unincorporated electoral areas along with eight member municipalities. As a form of local government unique to BC, the RDKB provides a broad range of services to both municipal and unincorporated areas of the region, including: recreation, parks, fire protection, community water systems, wastewater collection and treatment, solid waste management, emergency management, land use planning, building inspection, 9-1-1, animal control, invasive species control, victims services, and many others.

The RDKB's Board of Directors includes the following members from the participating jurisdictions:

RDKB Strategic Plan 2019-2022

Strategic planning at the RDKB

In local government, strategic planning is the process through which decision-makers set priorities to guide the organization's use of resources. The setting of priorities is a core responsibility of the elected Board and represents a fundamental element of good governance.

All local governments have limited resources — time, energy, staffing, money, goodwill — with which to pursue virtually an unlimited number of needs, desires and ideas. This reality creates the need for the Board to set key priorities which it wishes to pursue and provides the context within which strategic planning occurs. In short, strategic planning is undertaken to ensure that the Board and the corporation remain focused on what is important. In setting strategic priorities, Board members must be keenly aware of resource limitations, other constraints and the need to make difficult choices. Each time the Board endorses one potential priority, it is, by definition, rejecting another. Put differently, every "yes" is also a "no".

Within this strategic planning context it is important for the Board to have an explicit awareness of the values that it brings to the table as it sets the strategic course for the regional government. The Regional Board has identified the following as the key values that will drive its strategic plan:

Our values

- · Visible / tangible results
- · Moral and ethical leadership to the region
- · Inclusive / representative
- · Fiscally responsible
- Accountable
- Transparent
- Accessible
- Proactive
- Incorporating diverse consequences in our decisionmaking
- Informed

RDKB Strategic Plan 2019-2022

Page 3 of 11

Before identifying its four strategic priority areas the Board first reviewed its mission and confirmed that the mission statement included in the previous iteration of the Board's strategic plan continues to be relevant.

Our mission

Our mission is to provide a professional level of governance and advocacy both responsive and accountable to the needs of our regional community.

RDKB Strategic Plan 2019-2022

Page 4 of 11

Rather than limiting its vision for the region to the four-year life of this strategic plan, the Regional Board opted to base its strategic priorities upon its vision of the region in 2040, using a twenty-year planning horizon as the basis for its plan.

Our vision for the Region in 2040

- Best place to work / play / live
- Environmental leaders
- Affordable
- Prepared / resilient / safe
- Sustainable
- · Adaptable / nimble
- Food secure / self-sustaining
- · Informed and respectful, engaged public processes

Our strategic priorities

Four strategic priority areas have been identified for the Regional District of Kootenay Boundary to focus on from 2019 – 2022.

Environmental Stewardship / Climate Preparedness

Exceptional Cost Effective and Efficient Services

Respond to Demographic / Economic / Social Change

Improve and Enhance Communication

Application of our strategic priorities

Having undertaken a process of identifying its collective values and mission, the Regional Board then established its vision for the region looking forward to 2040. With its vision for the region, the Board then considered the issues that it anticipates the region will face with both a high degree of certainty and with having high impacts upon the region over the next twenty years. The identified issues have been categorized into the four strategic priority areas for the Board to focus on during the life of this strategic plan.

The four strategic priority areas will be utilized by the Regional Board and staff in prioritizing the projects and programs to be included in the Regional Districts annual work plans. Initiatives undertaken by the Regional District will be considered in light of the strategic priorities that have been identified in this plan. Each proposed project and program being considered for inclusion within a work plan will be viewed through the lenses of these four strategic priority areas.

Project #1

How does the work on the proposed project or initiative advance one or more of the following strategic priorities of the Board:

Environmental Stewardship / Climate Preparedness

Exceptional Cost Effective and Efficient Services

Respond to Demographic / Economic / Social Change

Improve and Enhance Communication

In turn, with the development of annual work plans that reflect the Board's strategic priorities, the budgets, five-year financial plans, projects and programs of the RDKB will be directly tied to the four strategic priority areas identified in this plan.

Some issues we will be facing

Board members individually identified a range of issues that will need to be addressed by the Regional District of Kootenay Boundary looking forward to 2040 under each of the four strategic priority areas. Each of the issues identified is considered to be both of high impact and high likelihood to the region.

Environmental Stewardship / Climate Preparedness

- Conversion to more renewable forms of energy
- · Managing impacts of climate change
- Focus on "zero waste" initiatives for sustainability

Exceptional Cost Effective and Efficient Services

- Aging infrastructure and increased focus on asset management
- Increasing public engagement and government accountability
- · Increasing regional collaboration
- Transportation and connectivity issues between communities
- · Service level reviews and service affordability
- Shifts in the regional economic base
- Increasing focus on public and worker safety

RDKB Strategic Plan 2019-2022

Page 9 of 11

Respond to Demographic / Economic / Social Change

Demographic

- Aging workforce
- In-migration from other regions & service impacts
- Urbanization
- Population increase
- Changing expectations in the workplace due to generational change

Economic

- Expectations around more sustainable forestry
- Recognition of the need for sustainable local food production
- Global economic impacts on local economies

Social

- Affordable housing
- Homelessness
- Increasing focus on First Nations culture in our communities
- Changes in volunteerism
- · Improved online access to health services
- Affordability of child care

RDKB Strategic Plan 2019-2022

Page 10 of 11

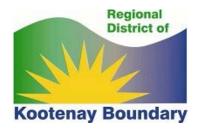

Improve and Enhance Communication

- Impact of new technologies on the job market and the portability of employment
- Impact of new technologies on regional communication
- Challenges with accurate community communication in the age of social media
- Impact of communications technology on efficiency
- · Shifts toward more collaborative thinking

Administration/Corporate Officer

Re: AKBLG Sponsorship

Issue Introduction

A staff report from Theresa Lenardon, Manager of Corporate Administration/Corporate Officer regarding sponsorship funding for the 2020 Association of Kootenay and Boundary Local Governments (AKBLG) Convention and AGM hosted by the Village of Radium, B.C.

History/Background Factors

The Village of Radium is hosting the 2020 AKBLG Convention and AGM April 24-26 and is requesting sponsorship funding from the RDKB. The attached information provides the amounts of the sponsorship levels.

In the past, the RDKB has provided \$2,000 sponsorship to the host community that is not a member municipality or an Electoral Area within the RDKB's jurisdiction. (The RDKB provides a larger sum of sponsorship when the AKBLG is being hosted by a RDKB member municipality or Electoral Area.)

Given Radium is not a RDKB member municipality and based on past practice, the RDKB may wish to provide Silver Level Sponsorship in the amount of \$2,000 for the 2020 AKBLG.

Implications

- 1. As a practice, AKBLG funding sponsorship is included in the General Government (001) Budget/Financial Plan.
- 2. Sponsoring the event supports the efforts of the Village of Radium and provides good public relations for the RDKB.

Advancement of Strategic Planning Goals

1. Sponsorship funding for the 2020 AKBLG Convention meets Strategic Planning Goal: **Improve and Enhance Communication:** We will continue to focus on partnerships that advance the interests of the Region.

Recommendation(s)

That the Regional District of Kootenay Boundary Board of Directors approves the allocation of \$2,000 (Silver Level Sponsorship) in the 2020 General Administration (001) Budget/Financial Plan as a contribution towards the 2020 Association of Kootenay and Boundary Local Governments Convention and AGM, April 24-26, 2020 hosted by the Village of Radium, B.C. **FURTHER** that the Village of Radium and the AKBLG be advised accordingly.

As a committed sponsor of the Association of Kootenay & Boundary Local Governments (AKBLG) Convention and Annual General Meeting, the 2020 AKBLG Organizing Committee would like to invite RDKB to join us again as a sponsor of this year's Convention. Local Government Elected officials and Senior Staff from the East and Central Kootenays, and the Kootenay Boundary will gather in Radium Hot Springs, B.C. **April 24 – 26**th, **2020**.

This year's theme is: 2020 Vision: Embrace the Past to Build the Future

Approximately 175 delegates will be attending convention education sessions. A snapshot of some of the highlighted programming topics include: UNDRIP (United Nations Declaration on the Rights of Indigenous Peoples), Climate Change, Municipal Funding, Technology outlook beyond 5 years, Transit in rural communities, a Debate on carbon tax and a debate on whether or not Local Governments should be actively looking at replacing their fleets with electric vehicles.

The organizing committee's goal is to provide delegates and attendee's essential information they can use to move their communities forward in planning for the future.

We sincerely hope you will be able to join us again as a sponsor. This is a great opportunity to come and network with local government elected officials. Please complete the attached form and forward to our Executive Director, Carolyn Maher, at ed@akblg.ca or call 250 688-0650.

STAFF REPORT

Date: 05 Feb 2020 **File**

To: Chair Langman and Board of

Directors

From: Brian Champlin, Manager of Building

Inspection Services

Re: 2019 Year End Building Statistics

Issue Introduction

A staff report from Brian Champlin, Manager of Building Inspection Services, regarding the 2019 building statistics.

History/Background Factors

The Building Department is submitting the 2019 statistics for total construction values, number of building permits and total permit fees collected for Electoral Areas A, B, C, D, E, Big White and Fruitvale, Greenwood, Midway, Montrose, Trail and Warfield.

Implications

The volume of building permits processed by the RDKB Building Inspection Department decreased from 503 in 2018 to 481 in 2019. The total value of construction decreased from \$57,840,286 in 2018 to \$49,560,661 in 2019.

Advancement of Strategic Planning Goals

Not applicable.

Background Information Provided

- Report reflecting the municipalities' value breakdown for 2019;
- Report reflecting the electoral areas' value breakdown for 2019;
- Comparison report indicating the number of permits and total construction values for the years 2018 and 2019.

Re: Request for resolution to seek grant opportunity – UBCM 2020 Community Emergency Preparedness Fund (CEPF) Emergency Support Services (ESS) Grant – ESS Modernization Project.

Issue Introduction

A staff report from Mark Stephens, Interim Manager of Emergency Programs presenting the opportunity presented by the UBCM 2020 CEPF Emergency Support Services Grant.

History/Background Factors

The Union of British Columbia Municipalities has opened a grant intake specifically to enhance emergency support services across municipalities in BC.

The Emergency Preparedness Service wishes to submit an application in accordance with the 2020 Work plan to the CEPF for this opportunity totaling \$25,000. These funds would be used to purchase technology that will support the modernization of the ESS registrations and referrals system that will allow our ESS volunteers to more efficiently register evacuees as well as accept evacuees who have registered themselves online. The funds will also be used to further outfit the new Boundary Canadian Red Cross/ESS mobile office with required items.

Implications

There may be ongoing costs associated with this project, such as data plans, software upgrades, and office supplies. These costs can be covered by the Emergency Preparedness Service annual budget.

The assistance of the Finance staff will be required to help administer these funds.

Advancement of Strategic Planning Goals

This project will advance the Board's strategic priorities regarding:

- Environmental stewardship and climate preparedness,
- Exceptional cost effective and efficient services, and

What is the Grant-in-Aid for?

The Boundary Multi 4-H Club is British Columbia 4-H affiliated club currently comprised of 20-25 youth ranging from the ages 6-19 years old in the Grand Forks area. As we are a multi club our members are able to explore all project areas that 4-H has to offer. Currently our members are exploring areas such as dog, poultry, rabbit, photography, foods as well as our Cloverbud program that is available to 6-8 year olds. The 4-H program provides young people with an opportunity to learn how to become productive, self-assured adults who can make their community and country a good place in which to live. This is fostered through project and program work, experiences with their 4-H club members and leaders and their participation in district, regional and even provincial programs. The goal of the 4-H program is youth development. The objectives of 4-H clubs are knowledge, leadership, citizenship and personal development. The purpose of the 4-H program is to prepare girls and boys for their future as adult citizens. Throughout the year our club activities consist of many diverse activities such as club meetings, field trips & farm visits, participation in agricultural fairs & festivals, public speaking competitions, community service activities, provincial 4-H workshops, travel opportunities and much more. There are often costs associated with many of these activities which is why we are asking for your support. We are hoping that you would be willing to sponsor our club for the 2020 year with a monetary donation of any amount. All funds will go directly to our club and stay within the community. If you would like any further information regarding our club, please feel free to contact me at any time.

The piece of equipment is the spreader and it is used for Road Rescue Vehicle Extrication. We are in need of a battery operated unit so that we can access long distance MVA events (such as over an embankment) without being tied to a hose system which may be restrictive. This tool will provide much faster response

and will ultimately assist in saving more lives as responders can get their more readily.

Bylaw No. 1727

A Bylaw of the Regional District of Kootenay Boundary (RDKB), in the Province of British Columbia, to authorize the borrowing of funds to assist with the capital costs for the purposes of upgrading the RDKB East End Regional Sanitary Sewer System

Treatment Plant

WHEREAS the Regional District of Kootenay Boundary has established by Bylaw No. 1549, 2014 a service within the boundaries of the participating member municipalities of The Corporation of the City of Trail, The Corporation of the City of Rossland and The Corporation of the Village of Warfield for the purpose of the collection, conveyance, treatment and disposal of sanitary sewage;

AND WHEREAS the Regional District of Kootenay Boundary wishes to upgrade the East End Regional Sanitary Sewer System from Primary Treatment to Secondary Treatment;

AND WHEREAS the Regional District of Kootenay Boundary Board of Directors read Bylaw No. 1727, 2020 a first, second and third time on February 12, 2020 with the estimated capital costs for upgrades to the sewage treatment plant to be the sum of Seventeen Million Dollars (\$17,000,000.00);

AND WHEREAS the maximum term for which a debenture may be issued to secure the debt created by this bylaw is for a term not to exceed 30 years;

AND WHEREAS the authority to borrow under this bylaw expires five years from the date on which this bylaw is adopted;

AND WHEREAS, the Regional District of Kootenay Boundary has obtained participating area approval consenting to the adoption of Bylaw No. 1727, 2020 on behalf of the service participants;

NOW THEREFORE BE IT RESOLVED that the Regional District of Kootenay Boundary Board of Directors, in open meeting assembled hereby enacts as follows:

 The Regional District of Kootenay Boundary Board of Directors is hereby empowered and authorized to undertake and carry out or cause to be carried out capital expenditures for upgrades to the Regional District of Kootenay Boundary East End Regional Sanitary Sewer System Treatment Plant, the Columbia Pollution Control Centre, within the participating member municipalities of The Corporation of the City of Trail, The Corporation of the City of Rossland and the Village of Warfield; the boundaries of the East End Regional Sanitary Sewer Service and to do all things necessary in connection therewith and without limiting the generality of the foregoing:

- a) to borrow upon the credit of the Regional District of Kootenay Boundary a sum not exceeding Seventeen Million Dollars (\$17,000,000).
- 2. The maximum term for which debentures may be issued to secure the debt created by this bylaw is 30 years.
